

**CONTINUING TO ADVANCE THE IMPLEMENTATION OF EXISTING
COMMITMENTS IN ARTICLE 4.1**

Report of the Non-Group

1. In accordance with the Objective and Principles of the Convention, all Parties, taking into account their common but differentiated responsibilities and their specific national and regional development priorities, objectives and circumstances shall implement national and, where appropriate, regional programmes containing measures to mitigate climate change by addressing anthropogenic emissions by sources and removals by sinks of all greenhouse gases not controlled by the Montreal Protocol.¹
2. As stated in paragraph 2(b) of decision 1/CP.1 in the Berlin Mandate, the process will not introduce any new commitments for Parties not included in Annex I, but reaffirm existing commitments in Article 4.1 and continue to advance the implementation of these commitments in order to achieve sustainable development, taking into account Article 4.3, 4.5 and 4.7.
3. Continuing to advance implementation of Article 4.1 by non-Annex I Parties is contingent upon the effective implementation by developed country Parties of their commitments related to financial resources and transfer of technology for:
 - (a) The development at the national level of systematic observation and data archives, scientific and technical research, and support for improving endogenous capacities and capabilities to participate in international and intergovernmental programmes related to the climate system;
 - (b)
 - (i) The enhancement at the national level of access to, and the exchange of, data and analyses thereof, obtained from areas beyond national jurisdiction;
 - (ii) The assessment at the national level of the economic and social impacts of climate change, including sea level rise, changes in storms or storm surges, and the risk to coastal ecosystems, including fragile ecosystems,
