

ANOTHER BIG WAR CREDIT IS VOTED

British Parliament Approves Issue of Billion and Quarter Dollars.

EXPENDITURE EXPANDS

Outlay Will Be at Least Fifteen Million Dollars Daily.

LONDON, June 15.—Premier Asquith, on moving a vote of credit for £250,000,000 (\$1,250,000,000), informed the members of the house of commons today that the expenditure in the next three months would not be less than \$15,000,000 daily.

The house voted the credit of £250,000,000, making, with previous sums, a total of £820,000,000 (\$4,100,000,000) already allowed for war purposes.

£15,000,000 Daily. In introducing the measure Premier Asquith remarked that from April 1 to June 12 the expenditure has been at the rate of £2,500,000 (\$12,500,000) daily. He estimated that the total daily expenditure during the currency of the new credit would be no less than £2,500,000 (\$12,500,000), for the reason that, as the war extended its area, Great Britain's financial obligations to the allies would increase.

Britain has spent \$7,355,750 a day for war expenses alone since the beginning of the European conflict. Premier Asquith told the house her estimated expenditures in the coming year are double that amount. The prime minister called upon all parties to support the government in its financial request. The nation, he said, is passing thru a great crisis that is taxing to the utmost its tremendous resources.

All Must Do Duty. In concluding he said: "There is a fitting place, a fitting work for every man, every woman, in the land. Be it sooner or later—it will certainly come—when our cause has been vindicated and there is once more peace on earth, may it be recorded on that proudest day in the annals of this nation that there was no home, no workshop in the whole of this United Kingdom which did not take its part in the common struggle and earn its share in the common triumph."

UNITY THRUOUT EMPIRE WONDER OF THE WORLD

Developed by Great War, Declares Anglican Synod.

LONDON, Ont., June 15.—Bishop Williams in his charge to the Synod of Huron which began its annual session here today, expressed the opinion that more Anglican chaplains should be appointed to the Canadian forces. Three out of every five Canadian soldiers in the overseas battalions were Anglicans, he declared. He said that the time was ripe for a great revival of Christian faith. Dr. Williams added that the great war has developed a unity of cohesion thruout the empire that had proved the wonder of the world.

The session was opened with a holy communion service at St. Pauls Cathedral in the morning with Rev. Canon Owen of Christ Church Cathedral, Hamilton, as the preacher. Women's suffrage will not be debated at this year's meeting. John Ransford of Clinton, who has introduced the measure for some years past, declared today that there was enough strife at the present time without introducing any more on the floor of the synod.

BLOW AT WARSAW REAL GERMAN AIM

Present Activity in Galicia Ruse to Cover New Plan of Campaign.

SEND MEN FROM SAN

Attack at Shavli Repetition of Tactics Employed in Galicia.

LONDON, June 16, 3:01 a.m.—Telegraphing from Petrograd The Times correspondent says:

"The enemy's activity on the extreme banks—in the Baltic provinces and in the Dniester region—is generally interpreted as an endeavor to rivet Russian attention on these points in order to facilitate a blow from the centre. In Galicia the movement of the hostile armies continues in a northerly direction in a series of attempts to cut a path for an outflanking movement to settle the fate of Lemberg."

The bombardment of Shavli by heavy artillery is deemed to foreshadow the adoption of the tactics which proved successful on the San. It is noted that the Germans are now assembling in the Baltic region not only heavy artillery but considerable reinforcements which they perhaps removed from the San. The Germans on the Bzura River are employing liquid fire in hand-to-hand encounters."

ENEMY LONG PLANNED TO USE POISON FUMES

Discovery of Gas Reservoirs Shows Scheme No Recent One.

LONDON, June 15.—The Morning Post says this morning: "A letter, received in London, from a Midlothian, by his friends, of a corporal serving in the Canadian contingent, states that his company, on capturing one of the enemy's trenches, found eight reservoirs of poisonous gas marked 1914, and also respirators dated 1911."

This discovery would seem to indicate that the plan of using poisonous gas was no new thing with the German army, as has been generally understood to be the case.

The first recorded case of the extensive use by the Germans of gas against the foe was north of Ypres on April 23, when the French lines were driven back two or three miles after a cloud of gas was wafted into their trenches from the German front.

Several days before that the accusation was made by Germans that the British had employed this method of warfare, which was forbidden by The Hague Convention. In London it was assumed that this charge was made simply to serve as a basis for the violation of the same rule by the Kaiser's troops.

AUSTRIA SENDS OUT MEN AS BRIGANDS

Cut-Throats Released for Italian Rear to Wage Guerilla Warfare.

FIRE FROM AMBUSH

Physicians Tending Wounded Sniped At—Detachments Attacked.

Special to The Toronto World. ROME, June 15.—Austria has left in the territory yielded to the Italians emissaries provided with ammunition, and paid \$250 to foster brigandage. These agents are men of the land, sturm, gendarmes and forest guards, and they have been caught firing at the backs of the Italian troops and attempting to cut off isolated detachments and convoys. They have even fired at army medical men while succoring the wounded. These men wait in ambush till their victims appear.

An official note says that it is the purpose of the Austrians to check Italian operations, to carry on spying and to lead the Italians to exercise cruel reprisals. Excellent work is being done by the Italian artillery at various points along the front. Italian Alpini have captured many prisoners in the Volle region of the Alps. Prisoners report that the Austrian losses have been terrific. Most of them come from regiments which have previously been confronting the Serbians.

GERMAN BATTALIONS SEVERELY HANDLED

Eight Suffered Heavy Losses in Attack on French at Quennevieres Farm.

Special Cable to The Toronto World. LONDON, June 15.—Eight German battalions, each 1000 strong, were severely cut up in an unsuccessful attack on some trenches which French troops had captured last week at Quennevieres farm, east of Tracy-le-Mont, says tonight's French official statement received here. North of several German lookout posts were defeated today and the Germans attacked in the Lorette and Neuville sectors, north of Arras, and at the Tournent farm, south of Arras.

PAY BIG INSTALMENT FOR COTTON CARGOES

British Government Action Pleases Interests in U.S.

NEW YORK, June 15.—Bankers and marine insurance interests here were gratified today by news from London that the British Government had paid an instalment of more than \$200,000 on a cargo of American cotton seized while en route to Sweden. In March and April six ships carrying 200,000 bales of cotton, valued at \$12,000,000. Drafts drawn against these shipments were discounted by banks and trust companies in New York. They fall due within a few days and anxiety had been expressed over the possibility of losses from delay on the part of Great Britain in paying for the cotton.

FURTHER PROTECTION AGAINST SUBMARINES

New First Sea Lord Devoting Much Attention to Question.

NEW YORK, June 15.—A London cable to The Herald says: The new activity of the German submarine fleet, which has resulted in the sinking of more than thirty vessels in the last week, is expected to bring forth additional protective measures by the admiralty. The First Sea Lord, Admiral Sir Henry Jackson, is known to be devoting much attention to the question, and is further safeguards for vessels along the British coasts.

TORONTO HOME GUARDS.

The first weekly parade of the Toronto Home Guards since the reorganization was held last night at the pearl street armories. More than 200 men turned out and the formation of a battalion under the new platform system was gone thru.

BRITAIN TO JUSTIFY BLOCKADE POLICY

Note Coming to Washington in Answer to American Reply.

BRYAN'S GAME FAILED

Tried to Bring on Complications With Entente While Dealing With Germany.

Special Cable to The Toronto World. WASHINGTON, June 15.—Intimations have been conveyed to the state department that the British foreign office has in contemplation, also in preparation, an answer to the American note to Great Britain sent March 30 of this year, protesting against the rigors of the British order in council of March 15. This answer has been delayed while the United States and Germany have been waging their series of diplomatic interchanges over the misuse of the submarine as a weapon.

Hopes are entertained here that Great Britain will modify her blockade. It is this knowledge that the British answer is in preparation and that its coming is only a matter of a short time that has halted the progress of another note of protest to Great Britain against the blockade of Germany.

Pending the receipt of such a note the United States will make no representation to King George's government. It is expected that there will be a further note from the United States and probably a succession of notes appealing for modifications of the British practice which the American Government considers necessary.

Bryan's Game Balked. It is questioned in Washington whether the former Secretary of State Bryan ever became acquainted with the British intention of sending a reply to their own protest of March 30. Certainly he urged the preparation of a stiff note to Great Britain as an offset to the reply sent to Germany June 3. In the withholding of this note Mr. Bryan's purpose of using the note as a mollifying influence upon the German nation was balked, and this was one of the predisposing causes to the withdrawal of Mr. Bryan from the secretaryship and from the councils of the president.

Whether Mr. Bryan did not or would not understand that Great Britain planned a note modifying her position has not yet been disclosed. At any rate it is now apparent, so government officials think, that he did not intend to await the coming of the British reply when the chance afforded to complicate the situation by attacking the British position at the same time Germany's policy was under the most adverse criticism at the hands of the American Government.

It is practically certain that the United States will make an offer of mediation for changing warfare on the seas to Great Britain along the line of the offer to the German note. According to present plans, however, this will not be done until after the expected British note arrives.

GREAT NAVAL DESIGNER SUMMONED BY DEATH.

Sir Nathaniel Barnaby Prepared Plans of British Battleship Inflexible.

LONDON, June 16, 2:19 a.m.—Sir Nathaniel Barnaby, honorary vice-president of the institution of naval architects and well known as a naval designer and author of works on the building of warships, died yesterday. He was 88 years old. Sir Nathaniel designed the battleship, and introduced many important changes in naval designs.

FUTURISTS OF ITALY VOLUNTEER FOR WAR

Five Join Italian Cyclists Corps, Others Join Fighting Ranks of Army.

ROME, June 15.—A wave of military enthusiasm has broken out among the futurists of the Italian futurist movement. The best known among them have exhibited their patriotism by joining the combatant ranks of the Italian army. Five joined the cyclist corps, among them being Signor Martini, who is now recovering from a serious surgical operation. When convalescent Martini will go to the front and be incorporated with his cyclist battalion.

AMMUNITION LOST IN FIRE AT QUEBEC

About Half Million Rounds of Rejected Cartridges Destroyed.

CAUSED BY LIGHTNING

No Loss of Life Reported and Only One Building Burned Down.

QUEBEC, June 15.—One of the buildings of the fuilmun works, which was situated on the Plains of Abraham and utilized by the Dominion arsenal authorities for the storage of ammunition, was struck by lightning this afternoon, and the result was the destruction of about 500,000 rounds of small arms ammunition. The rounds were rejected by government inspectors, or because of low velocity. There was no fuilmun stored in the building at the time and there was no loss of life, while there was only the one building damaged.

A GREAT SUBJECT FOR A BOOK AND A GREAT BOOK IT IS Making Money From the Soil THE BOOK THAT TELLS YOU HOW

To fertilize, drain, plant and cultivate the soil for the vegetable garden. To plant and cultivate forty different varieties of garden vegetables. To estimate the quantity of seed of any kind or vegetable required, distance to plant, time required to germinate. To grow one hundred varieties of favorable flowers, time to plant, soil suitable, methods of cultivation. To make a hot-bed or a cold frame. To lay out lawns and grounds and select suitable varieties of ornamental trees, shrubs, bulbs, etc.

To breed, train and produce the best horses. To produce the best cattle for milk and butter, for beef; kind of food to give; how to judge cattle. To succeed in sheep raising; breeds to raise in different localities. To make profit from swine raising; breeds suitable for different purposes. To raise poultry successfully; best breeds for different purposes; buildings suitable; feeding; hatching; how to distinguish breeds of hens; management of geese; raising ducks for market; how to raise turkeys; to overcome insect pests and diseases.

To distinguish different breeds of dogs and other domestic pets. To make a success of bee-keeping. To grow successfully wheat, corn, and other grains; to select varieties that yield best. To plant alfalfa, cultivate and grow successfully several crops a year. To build a silo and to grow and feed silage. To grow potatoes successfully; best varieties for each province. To preserve and use manures. To make the soil hold moisture—the secret of dry farming. To spray orchard trees and avoid wormy fruit; gives full directions for spraying of all kinds of fruits and vegetables—what to use, when and how to use it. To make a success of market gardening. To make money out of mushroom growing. To grow all kinds of small fruits—strawberries, raspberries, blackberries, etc.; what varieties do best in different provinces and different parts of same province. To protect fruits and vegetables from frost. To grow profitably all kinds of tree fruits—apples, peaches, pears, plums, cherries, etc.—soils suitable for each variety and locations. To kill thistles. To get free bulletins giving special information on all classes of agricultural subjects. To store and market farm produce. To use different kinds of farm and garden implements. To protect or free your fruits and vegetables from insect pests.

SPRAY

To prevent or overcome blight or rot in fruits and vegetables.

SPRAY

To ensure the largest, cleanest, best flavored and most abundant crop of fruits and vegetables.

SPRAY

BUT YOU MUST KNOW

What to Spray With When to Spray And How to Spray

Here's the Book That Tells You How

An authoritative spraying calendar for the whole of Canada compiled by the chief horticulturist of the Dominion. It tells: What insects and diseases to spray for, when to do it, and what to use, for:

Apples, Cherries, Currants, Gooseberries, Grapes, Peaches, Pears, Plums, Roses, Raspberries, Strawberries, Cabbage, Cauliflower, Onions, Radish, Turnip, Potatoes, Celery, Asparagus, Tomatoes.

Gives formula of all the recommended insecticides and fungicides, with full directions as to proportions, preparation and use. Tells how to use and care for spraying apparatus.

At this particular crisis in the history of Canada and the Empire, the paramount duty of the man who stays at home is to add as much as possible to the food production of the Dominion.

An agent would sell you this book for \$5.00—Over the counter it would cost you \$3.00. Through The Toronto World special arrangement with the author, publisher and distributors, Sunday World readers get it for \$1.50 and one certificate. Drop in tomorrow and get yours at The World Office, 40 West Richmond St., Toronto, 15 East Main St., Hamilton. Clip the certificate which appears elsewhere in this paper, present together with \$1.50 and the book is yours—do it now. By mail, postage extra.

YOUR MONEY BACK IF NOT PERFECTLY SATISFIED
