LIGHTNING CAUSE OF HAMILTON FIRE

Roussel Planing Mill Damaged—Electric Storm Burned Out Wires

DOMINION DAY SPORTS

Hamilton Colts Lead Canadian League by Win From Guelph

By a Staff Reporter.

HAMILTON, Friday, July 2.—Fire, caused by lightning during the severe electric storm which passed over this city yesterday afternoon, broke out in the Roussel planing mill premises on Nightingale street. The fire department received a call at 2.30, when the storm was at its height, and when the reels arrived the blaze had already got a good start. The fact that the telephone lines were out of commission during the storm retarded the sending in of the alarm. P. C. Forbes notified the blaze while standing at the corner of King and Wentworth and sent an alarm in to headquarters.

The Sanford, Victoria, and later the central station responded to the call, but it was impossible to save the upper storey of the building. Besides about \$2000 damage to the mill, the machinery was damaged to the extent of at least \$3000, also it is estimated that the latter is not damaged so seriously that it will be a total loss. The building and contents were fully covered by insurance.

Indian Boat Drouillard.

Eight fans were given two clean exhibitions of the fistic art last night when Private Scott, the local Indian lightweight, proved his superiority over Patsy Drouillard, the Canadian lightweight champion, in a ten round bout which followed a six round preliminary affair. The Indian was a strong aggressor throughout the opening rounds, but was quiet even. The Windsor boy showed that he was a thorough master of ring tactics by hanging on for the last two rounds after taking severe punishment in the sixth. There was a big crowd at the Britannia Park enclosure when Alter and Nellis faced each other in the sixth round preliminary. Interest was centered mostly in the main affair, and the good showing of the Hamilton boy was well taken by the fans.

Storm Caused Damage.

At 5.30 yesterday afternoon a shed on the premises of G. Marshall at 57 Roblin street, was destroyed by fire with a slight loss.

Many electric lines were put out of commission by the storm. The King street fire station suffered only temporary inconvenience when two of their lines were burned out. There were numerous other cases throughout the city where lines of the Cataract and Hydro Companies were downed.

Memorials Caused Death.

After a short illness Luke Carroll died last night at the family residence, 47 Wood street east. A hemorrhage of the brain was the cause of death. There remains a wife and two sons to mourn his loss. The funeral was held on Saturday morning from the late residence to Holy Sepulchre Cemetery.

Rain Stops Bowling.

The second round of the bowling tournament for the trophy emblem for the city championship was called yesterday morning, but further progress was impossible because of unfavorable weather conditions on the afternoon. There are four rinks left in the contest. On Saturday P. G. Gayler plays Archdale, and C. N. Chambers plays Rev. Soderstrom. The winners of these two games play each other on Monday for the championship.

The association matches have reached the third round and these will be finished on Saturday afternoon. In the consolation games there has been a large number of entries. The second round will be played tomorrow.

PICKPOCKETS PLIED TRADE YESTERDAY

Three of American Gang Gripped by Arm of Law After Exciting Chase

WORKED THRU CROWDS

Ruse of Police Officer Proved Successful in Making Arrest

Dominion Day crowds proved attractive to the light-fingered gentry. Three of American pickpockets out of a gang of seven, were arrested by a constable yesterday afternoon. The three were Harry Mayo, alias John Vincent, Charles Connelly, Toledo, and John Scrolle, alias Roberts, Rochester. They had between \$50 and \$100 each in bills when arrested, and their explanations of where they acquired the cash do not satisfy the police.

Plainclothesmen Williams and Crowe were at their post at the Kingston road and they watched the gang work thru the crowds for over an hour before they made any move to arrest them. The crowd watching the transportation was dense and the pickpockets had little difficulty in getting close enough to an intended victim to go thru his pockets.

Italian Attacks Fail?

The Italian general attack, renewed yesterday against the Austro-Hungarian positions on the Dobrodo plateau, was everywhere repulsed with heavy losses for the Italians. The enemy's main charge was directed against the front comprising Sagrado and Monte Corsich, northeast of Montefalco. The first Austro-Hungarian trenches were entered by the Italians, who, however, were driven back into the valley by a counter attack. The slopes of Monte Corsich were covered with bodies of Italian dead.

The charge against the height east of Montefalco and one to the northeast of Sagrado, as well as several lesser charges against the Goritz bridgehead, were repulsed. The Austro-Hungarian line has remained quiet on the northern Isonzo front. On the Carinthian frontier the cannonade continues.

FEAR GERMAN PIRACY

Will Again Ask Imperial Government to Respect Sea Rights

WASHINGTON, July 1.—Investigation is being conducted by the United States into several cases which it has been officially reported that British ships flew the American flag, apparently to avoid attacks by German submarines.

Reports have been received not only from Ambassador Gerard, in Berlin, but from American consular sources in Great Britain, with information and other evidence, tending to show alleged misuse of the United States flag.

The issue is regarded as of such importance to the safety of ships really entitled to fly the American flag, that a note may be sent by the United States to Great Britain, renewing the representations previously made concerning any general use of the American emblem by British vessels, and instructing them to take certain courses, advised the use of the American flag.

Wants Complete Information.

The United States will not act until it has received complete information, but in view of the emphasis which is laid in Berlin upon the dangers of such a practice, Ambassador Gerard's information on specific cases as obtained from the German Government is being carefully investigated sufficient proof. It was stated authoritatively today, already has been gathered to case officials to consider the making of new representations on the subject.
