IGHT QUICK-FIRERS IN EACH BATTALION

Canadians Will Be Equipped to Cope With the Enemy.

MANY CONTRIBUTED

Lougheed's Announcement Will Be Hailed With Satisfaction.

OTTAWA, July 22.-Canadian troops who in future go into action will be to each battalion, that is every battalion will have eight supplied by the militia department. In addition priwate contributions aggregating an unt sufficient to purchase fully a sand more guns have been received or promised. Three thousand

will be distributed amongst the various regiments, so that every battalion will be finally as well equipped with these deadly modern weapons as the forces of the kaiser.

The announcement that the complement supplied by the government was to be doubled was made by Senator Lougheed, acting minister of militia, this morning. The British troops are only supplied with four machine guns each battalion. The Germans, it is believed, have twelve, will be supplied from the war appropriation fund.

Time Presses.

The private guns each battalion will be find out what's wrong with the work on the Toronto harbor. On Monday the Evening Telegram of that semi-official story that the job was imperfect, "that four the department of public works (Ottawa, that "skimping" had been discovered, that the sub-contractors and main contractors were involved, etc. A Tuesday despatch published in Wednesday's World confirmed the report that trouble existed.

But The Telegram of that night came back most anxious to explain everything: That it was "get-together day" for contractor and sub-contractors, will be supplied from the war appropriation fund.

Winnipeg Telegram's Version.

Hon. Robert Rogers, the minister, is in Winnipeg, and in The Telegram of that city, a paper friendly to him, there appeared the following special the same day as The World's Ottawa despatch:

The Lewis Company of Birmingham, England, are working night and day on British orders.

While many fivate subscriptions have been for particular regiments military necessity may compel some change in this method.

to serious trouble and loss in the Toronto harbor improvements have been given the widest publicity by the press of that party.

So far from being true, the watchfulness of the public works department prevented fraudulent work being accepted, dismissed careless employes and has held the contractors, the Canadian Stewart Company, strictly to account, and they have agreed to make good any errors in the work of sub-contractors.

In September, 1918, the government awarded by the tender a contract to the Canadian Stewart Company

neers of the department were sent to aid the commission. For three weeks they examined all the work, both above and below the water.

On the receipt of this report all the inspectors were suspended, and the Canadian Stewart Company ordered to make good any inferior work by their sub-contractors. This they have agreed to do, and under the strictest supervision of government engineers. The government holds the Canadian Stewart Company responsible, an they have admitted responsibility The company has a deposit of \$225,000 with the government, and, in addition, nearly \$750,000 is still owing to them on work, so that the government is amply protected.

So far from politics interfering with

the work it was the care and thoro-ness of the government that prevented inferior work being allowed, and pun-ishment has been meted out and resti-

ishment has been meted out and restitution is being made by the responsible contractors by substitution of
proper material where required.
