Giving the teeth any desired pitch or bevel, and making all the teeth exactly alike. Will sharpen 20 teeth in ordinary mill saw in One Minute, or 100 teeth in shingle saw in four or five minutes. The cut shows outline of mill saw 54 inch dia. Patent applied for.

GILMOUR & Co.
Lumber Manufacturers and Dealers.
F. J. DRAKE Esq., Belleville, Ont.

Trenton, Ont., 26th Aug., 1891.

Dear Sir,—Your Patent Saw Sharpener is giving us good satisfaction. We average about one hundred thousand shingles per day, and sharpen the saws for both automatic and hand-feed machines with your Sharpener. As it keeps the teeth all perfectly uniform it must be easier on the machine and sawyer too. It causes also a great saving in files. We now only use about one 10 in. file per week. Before putting in your machine we used about six per week. As regards your Improved "XXX" Shingle Packer—they work first rate, and are the only machines we could get that would press tight enough. We consider them the best we ever had.

Yours truly,
GILMOUR & CO.
