

Under the supervision of G. Hepburn Wilson, M. B.

Our dance page heading is interesting as the first photograph taken of the prize winning design in the recent Whitney exhibit of theatre foyer decorations. This is the fourth exhibition brought together by the Friends of Young Artists, an association formed to encourage students and beginners by opportunity to show their work to win cash prizes. The successful artist was Berton Kesler. The design itself, in red, pink, blue and gold, typifies dances in old Greek style and keeps the spirit of the dance in the design to a remarkable extent.
