How to Start Off the Day

Students of Hygiene Differ on Many Points, All Agree That the Right Kind of a Breakfast is Essential.

As the years pass, the majority of progressive, thinking people are giving more and more serious thought as to how to start off each new day so as to put themselves in the best possible physical and mental condition for the work of the day. It is an interesting subject, so interesting, indeed, that it has attracted the attention of a host of the world's leading scholars and authors on hygiene, and much has been written for the guidance of the people.

Various practices are adopted to revive all the physical and mental activities of the body. Some students of hygiene hold to the cold bath and rough towel immediately upon arising. Others believe in the brisk walk with deep and regular inhalations in the fresh morning air. Still others believe in the brief session with boxing gloves. And so on and so on. Perhaps all are right, and on one point at least all are agreed. This is that the right kind of a breakfast is essential.

A perfect breakfast is impossible without Malta-Vita, that delicious, crisp, whole-wheat food. Being a pure grain product it is rich in food elements—all the food elements of the best white wheat grown and the finest barley malt extract—intensely nourishing; just the food you want to begin the day with.

In making Malta-Vita the whole of the wheat, after being cleaned, is thoroughly purified and cooked in absolute purity and then mixed with the malt extract. You understand, of course, that the malt extract is made from the malted wheat, and the malt extract is a powerful digestive agent, converts this starch into food, and malt extract is impossible without Malta-Vita, that delicious, crisp, whole-wheat food. Being a pure grain product it is rich in food elements—all the food elements of the best white wheat grown and the finest barley malt extract—intensely nourishing; just the food you want to begin the day with.

As we said above, a perfect breakfast is impossible without Malta-Vita, but it is good three times a day. Try a bowl with cereal or fruit. You will be glad we told you about it.

All grocers now sell Malta-Vita, large packages at 10 cents.

JAPAN IN KOREA.

Protectorate Only Way Japan Can Give Effect to Projects.

Seoul, Oct. 12.—Japanese Minister Hayashi started for Tokyo to-day for the purpose of consulting the government and elder statesmen. Minister Hayashi recently commended the declaration of a Japanese protectorate over Korea, as the only means of making effectual Japanese projects in Korea. It is probable that the coming conference will definitely decide the political status of Korea. The Japanese are anxious to obtain a hold on affairs before the return of the representatives of Russia and the impending conference, together with the absence of the British and Italian ministers, to believe that eventually all the foreign legations will be withdrawn from Seoul and that the diplomatic business of Korea will be handled exclusively by the Japanese.

The emperor and court officials are much worried over the present turn of affairs, especially the fact that their national representation abroad, and to the residence of foreign ministers at Seoul, is being neglected.
