CAPTAIN BERNIER'S APPEAL.

How He Asked Marine Minister to Permit Search for Pole.

Ottawa, June 11.—(Special.)—An interesting excerpt from the testimony of Capt. Bernier is the following letter that he wrote to Hon. Raymond Prentiss, that undoubtedly hurried on the expedition of the Arctic:

"On Sept. 28 last I wired you as follows: The grant of the Arctic for the north pole expedition. Speed for Arctic voyage fast enough, only slight repairs needed; could leave Montreal this fall for Pacific coast; grand opportunity for Canada's honor."

"Not having any reply, I beg to renew my application. For we have the ship available, with a lot of stores and clothing and appliances on hand, and the time has about come when we must go forward and claim our northern heritage. I have sacrificed my time and labor and money for ten years. The government has already realized that we have done well claiming our own. The Norwegians have discovered new land and the magnetic pole and the northwest passage. My plans are approved by old scientific societies and three-fourths of the members in the house at Ottawa, and I enclose a copy of the last letter received from Vasson, offering help. We can prepare this winter for the trip and I am anxiously waiting your decision. I remember your kind words when we left Quebec. I know you are a man of your word."

CANADA'S BIG MEN.

Writer to London Press Says This Country Leads World.

London, June 11.—In a eulogy at the Lord Dufferin memorial unveiling at Belfast Lord Londonderry said the secret of Dufferin's success in smoothing away difficulties in Canada was in getting into sympathy with those among whom his lot was cast. "This Canada of Ours" was a favorite phrase with him, and Lord Londonderry was certain Canada would speak of him as "This Dufferin of Ours."

The Observer quotes a gentleman who has lived several years in Canada in endorsement of a writer from Canada, who says that the Canadian today is the heaviest and strongest man of the white race. The gentleman says he was struck when in Toronto by the number of tall fine looking men. The average Ontario height was five feet eight inches, equal to the best of Britain.

Day Ride Through Switzerland of America.

On Lehigh Valley R. R., New York 15 day excursion, Friday, June 15. Tickets \$9. round trip from Suspension Bridge. For tickets and particulars apply at L.V.R. passenger office, 10 King-street East.

Beit Co. Operations.

The Beit Telephone Co. applied to the city for permission to open up the following streets for the purpose of laying therein lines of wire: Concession-avenue, from second pole north of College to College; College-street, between Dovercourt and Rushmore-roads, and the line between Dovercourt and Rushmore-roads running north from College-street.

The TERRIBLE PANGS OF DYSPEPSIA CAN BE CURED

To be dyspeptic is to be miserable, hopeless, confused and depressed in mind, forgetful, irresolute, drowsy, languid and useless.

Constipation, headache, heartburn, sour stomach, distress after eating, belching of wind, faintness, and fullness and distention of the stomach are a few of the many distressing symptoms of the poor, weary dyspeptic.

Dyspepsia is a disease that in one way or another resembles every other disease, and the only way to get rid of it is to tone up the stomach, liver, bowels and blood. This will be quickly done by the use of

BURDOCK BLOOD BITTERS

It regulates the stomach, stimulates the action of the liver and gastro juice to facilitate digestion, removes acidity, purifies the blood, and tones up the entire system.

Mrs. M. A. McNeil, Brook Village, N.S., writes: "Last winter I was very thin and was fast losing flesh owing to the run down state of my system. I suffered from dyspepsia, loss of appetite and bad blood. I tried everything I could get but to no purpose. I finally started to use Burdock Blood Bitters, and from the first day I felt the good effects of the medicine and am strong and well again. I can eat anything now without any ill after effects. It gives me great pleasure to recommend Burdock Blood Bitters, for I feel it saved my life."

EGYPT BRITAIN'S BEST FRIEND WONDERFUL, SAYS POTTER

Contrasts England's Achievements With Cheap Advertising Methods of Americans.

New York, June 11.—After a prolonged visit to England, the continent and Egypt, Bishop Potter arrived home yesterday. The bishop explained what he meant when he told the pilgrims in London that the American Eagle in Cairo "had his tail between his legs." He also feared there was not any too much affection between the United States and England.

"You can depend on it there is no love lost between the two countries," said the bishop. "There is, I fear, a good deal of gush about it. The British idea of the United States is very vague. They have certain impressions that are unjust, and when I arrived over there on my way out I told them so. The more acute and serious do not think we are a lot of grafters, but that we are very easily tempted by gain. It's the general crowd that thinks of us otherwise."

Then the bishop explained the "Eagle with his tail between his legs" remark. "I think the idea in my mind on that occasion," he said, "was a condition in Cairo that the British and other Americans also, namely, the advertising of quack medicines and other things on the same order, with the use of the American flag. It was this, the use of our flag for advertising purposes; in contrast to the splendid achievements of the British government in Egypt that I meant."

Speaking of his trip the bishop said: "I spent my winter in Egypt, and was greatly impressed with the splendid achievements of the British administration of affairs there. It had been 30 years since I was in Egypt, and the change wrought in the country, indeed, was wonderful. No more brilliant jewel shines in the crown of Great Britain than her achievements in Egypt."

On one occasion I was talking with Lord Cromer, and in the course of our talk it was mentioned how seldom it is that the mind of an observation Lord Cromer made this profound and astute reply: "You can change the face of the land by canals and roads, and you can improve the conditions of a people by introducing a better government, but you can not change the mind of an oriental in a quarter of a century. He will still think orientally. This is the basic fact which we have got to remember in all our dealings with them."

OUR OWN COUNTRY.

Summer tourist and seaside excursion fares are now in full force to all points reached by the Intercolonial railway, and four can be arranged and berths secured in advance for all rail and river, lake and rail routes at lowest rates from Toronto and Montreal to all eastern summer resorts at the office of the Intercolonial Railway, 30 St. King-street, Toronto, where Atlantic steamship tickets are also on sale at lowest rates. The seaside special rates, with through sleeping car fares, with meals, from Toronto and Montreal to Murray Bay, Riviere du Loup, Capoula, Bic, Rimouski and Little Melville are now running, and the ocean limit will be put in force on June 24. The new literature of this railway is replete with information which will be appreciated by those who are planning summer trips to the seashore or other eastern resorts in the lower provinces, and they would do well to write the agent, N. Weatherston or call at his office, 5 East King-street, Toronto, for any information required.

Magistrate Alleges Libel.

St. Catharines, Ont., June 11.—Police Magistrate Comfort this morning issued his order to begin proceedings against The Daily Journal newspaper here charging libel. The paper published a letter on Saturday from an anonymous correspondent, in which it was stated that Magistrate Comfort, in dismissing W. Smith of Beachville, accused of fraud, had said the famous writer with summer like Smith's were "jackasses" and the letter-writer roundly roasted his worship. The magistrate has many number of witnesses who will testify that he never used any such language.

Was Falsely Accused.

Charles Kennedy, who was arrested on Saturday on a charge of stealing a sovereign at the Daily House, was asked to come before Magistrate Denison yesterday, and Crown Attorney Corley asked that the charge be withdrawn against him and that he be honorably discharged, also his case had been remanded until next Thursday.

It seems that a Mrs. Scott, who was released on suspended sentence on Saturday, was shown to have committed the thefts at the Daily House, and she alone was responsible, and it was clear that Kennedy had nothing to do with whatever to do with any of the transactions.

No Tenders for Mill.

Time of receiving tenders for the assets of the Frontenac Cereal Co. expired yesterday with none in sight. To-morrow is the date fixed for opening the tenders, and should any come to hand in the meantime they will be accepted. The property includes a grain elevator of 50,000 bushels capacity, a steam grist mill of 325 barrels per day capacity and a small lot and building.

Repatriation of Troops.

Ottawa, June 11.—Since the commencement of the repatriation of the troops, which took part in the war with Japan, 152,000 men, including the Russian prisoners from Japan, have been landed here and distributed throughout the interior of the country.

Strikers Fire on Check House.

Dillonvale, Ohio, June 11.—An attack, presumably by strikers, was made to-day on the check house of the M. A. Hanna Coal Company at Dillonvale, when fifty shots were fired from a hill 200 feet distant. There were four watchmen in the building, but no one was injured.

Thought Rat Was Kitten.

St. Catharines, June 11.—A little boy, Leo Cahill, son of Walter Cahill, was playing in the yard on Saturday when he saw what he took to be a kitten sitting on the ground, and picked it up. It proved to be an enormous rat which had been hurt and could not run, and the moment the child touched it the rodent bit him severely on the hand.

Grand 15 Day New York Excursion.

Tickets only \$9. round trip from Suspension Bridge to New York City, Friday, June 15. Tickets and particulars, Lehigh Valley office, 10 King-street East.

Was Killed in Philippines.

St. Catharines, June 11.—The body of Louis Herr, who was killed in a battle with Moros in the Philippines, arrived here this morning.

DEATH OF BISHOP BOMPAS MISSIONARY OF THE ARCTIC

As Young Man, Chose Work Among Indians and Lived His Life Among Them.

Word was received in the city yesterday that Right Rev. Bishop Bompas had died at Caribou Crossing, Yukon Territory, on Saturday evening at the age of 71 years.

In 1865 Bishop Machray was consecrated Bishop of Rupert's Land, and succeeded Bishop Anderson. At that time a young curate of Alford, Lincolnshire, England, named Wm. Carpenter Bompas, heard one of Bishop Machray's sermons as he was leaving for his distant field, and came and offered himself for missionary work in the remote regions of the north. After traveling for weeks, he reached his destination at Fort Simpson, on the Mackenzie River, on Christmas Day, and there he began a life of hardship, self-denial, privation and loneliness, probably unparalleled in the history of missions.

For nearly three years he never once came out to civilization, and during that prolonged period he spent months within the Arctic circle, where the nights of winter and days of summer were three months' duration, and he has written the best description extant of those northern regions.

With the true self-denial of an apostle he always chose the remotest and most difficult positions, moving from Athabasca to the Mackenzie River, and from the Mackenzie River to the Yukon. Many times did he cross the Rocky Mountains on foot in pursuit of the roving Indian tribes, and for twenty years before the discovery of the Klondike he always chose the remotest and most difficult positions, moving from Athabasca to the Mackenzie River, and from the Mackenzie River to the Yukon.

When civilization reached him in his remote abode he was greatly distressed over the injury done to the Indians by the unscrupulous white men who destroyed the Indians' confidence by his injustice and deceit, and the Indians' morals by his vices and rum.

He will still think orientally. This is the basic fact which we have got to remember in all our dealings with them."

MOTHERS LOOK AND READ CAREFULLY

The Merwin Babies' Food Warmer

No more broken rest with baby. Food kept at the proper temperature and ready for use at any time during the night or day. When the baby wakes his food is ready.

FOR INVALIDS AND SICK PEOPLE
IT IS INDISPENSABLE

THE MERWIN FOOD WARMER

is made with three separate compartments, having different degrees of temperature, and working upon scientific principles. The food in No. 1 is ready for use anywhere from half an hour to three hours after retiring, or any until 12 p. m.; No. 2 performs the same functions from 12 p. m. until 3 a. m., and No. 3 from 3 a. m. until 7 a. m.

Boiling water is poured into the warmer through the screw cap opening. Three bottles containing food are placed in tubes, and do not come in direct contact with the water. They can be used for any liquid food.

If you use one you will not be obliged to get up in the night to heat food for the baby, and as there is no delay the baby will not become restless by having to wait for its food to heat after waking. The warmer will save the price of itself in one year, as it does its own work, thus saving the cost of heating apparatus and material.
