DEATH TOLL IN N. Y. BOMB EXPLOSION REACHES 36

TWO BOMB PLACED BY EXTREMISTS CAUSE OF WALL STREET EXPLOSION

BANKING CENTRES THROUGHOUT U.S. TURNED INTO ARMED CAMPS TODAY AS BOMB OUTRAGES ARE FEARED

Discovery of Clockwork and Fragments of Bomb Satisfy Police of New York That Explosion Was Caused by a Timed Missile—Two More Names Added To Death List This Morning—Wall Street Section Roped Off and a Strict Guard Is Being Maintained As Stock Exchange Resumes Business.

DEATH TOLL NOW 36

New York, Sept. 17.—Thirty-six persons, two of them unidentified, lost their lives in the explosion yesterday in Wall street, according to a revised casualty list given out here at noon today. The number of injured is said to approximate 200.

BOMB CAUSED EXPLOSION.

New York, Sept. 17.—Fire Commissioner Drennan reported today to Mayor Hylan that the explosion in Wall street yesterday, which killed 33 and injured 200, evidently was caused by a bomb.

More than 150 pounds of broken sash weights and other metal fragments have been collected by the fire department at the scene of the disaster, and turned over to the police, Commissioner Drennan said.

At the police headquarters it was said the first task of detectives would be to assemble the fragments in an effort to reconstruct the bomb and determine whether it was made by skilled hands, or by a novice.

The explosion, according to the official investigators, "apparently occurred in a horse-drawn covered wagon at a point almost opposite an entrance to the United States assay office."

The investigators found that the wagon had a red running gear, and that there were no markings on the harness other than to show it was for one horse. The small pieces of window weights with which the bomb machine had been loaded, had been "fused by an intense heat," indicating they had been cut into slugs by a high-powered gas burner.

DEATH LIST GROWS.

New York, Sept. 17.—Partially revised lists at 11 o'clock today showed that 33 persons had died in their lives in the explosion in Wall street yesterday. Approximately 200 persons were injured, and scores who received only slight cuts from flying glass.

Three names were shifted this morning from the list of those injured to the death column. They were: John Doe, Brooklyn accountant; John W. Weir, Brooklyn accountant; and John Doe, Brooklyn accountant.

AUTHOR POSTAL CARD WARNING OF EXPLOSION ADJUDGED INSANE; PLACED IN HAMILTON ASYLUM

Hamilton, Sept. 17.—Suspected of being the author of the warning postcard in connection with the Wall street disaster, Edward P. Fischer of New York, was arrested here this morning charged with insanity. The information was given by his brother-in-law, Robert A. Pope, of New York.

Fischer was taken into custody in the offices of his brother-in-law, Robert A. Pope, of New York. The police say Mr. Pope informed them that three weeks ago the prisoner predicted the New York catastrophe and sent a warning postcard to his friends. Pope says his relative has been in a peculiar mental condition for some time, and that the information was received by mental telepathy.

FISCHER WILL BE TAKEN TO N. Y. TO TESTIFY

New York, Sept. 17.—Edward P. Fischer, a former employee of the French high commission in New York, who was detained by the police in Hamilton, Ontario, today, after he is alleged to have sent two postcards to friends here from Toronto, warning them not to go to Wall street on Wednesday, the 15th, will be brought to New York to testify before the September grand jury.

WALL STREET LOOKED LIKE BATTLEFIELD

Londoner Just Home From New York Tells of Disaster.

BANK SAVED BY WIRES

Special Reinforcing Keeps the Morgan Banking Offices From Falling To Pieces.

William Ruse, formerly of this city, but now of Detroit, brother of Ernest Ruse, C. T. R. ticket agent, arrived from New York at noon today, and to the Advertiser gave a graphic account of the disaster in the Wall street district.

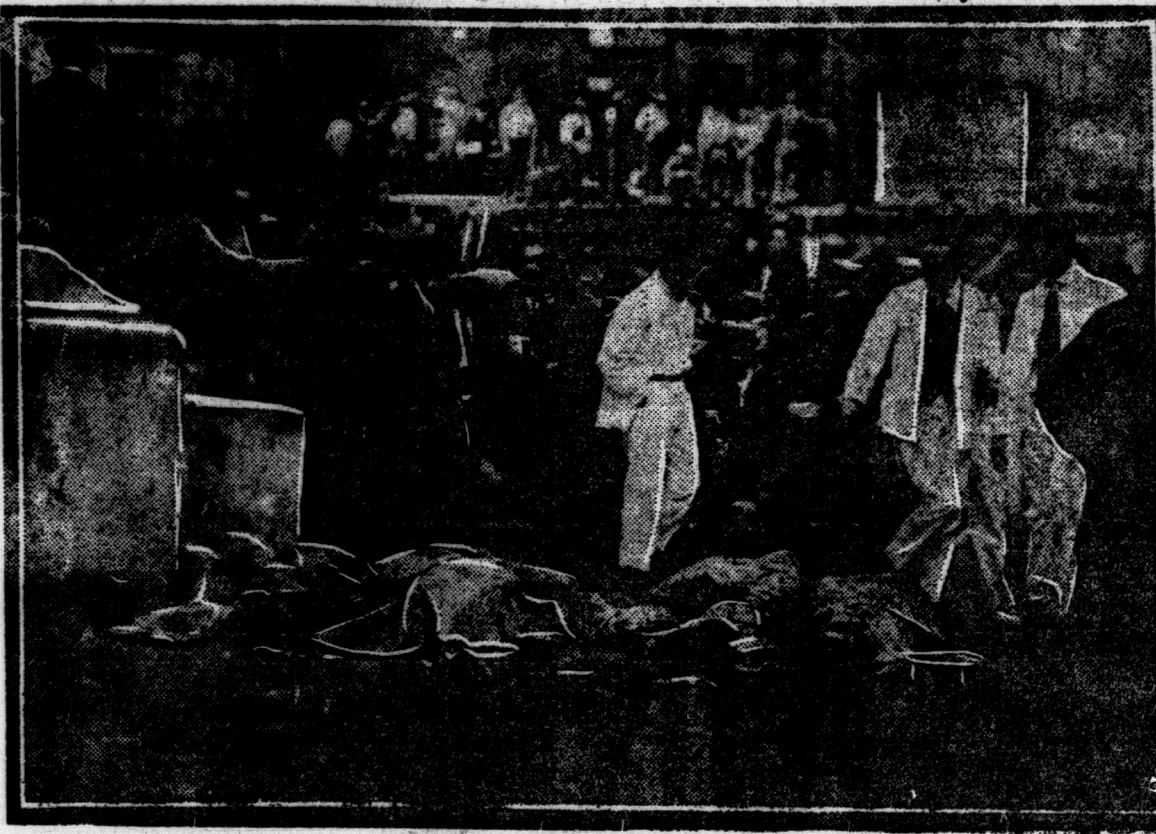

"The financial section after the explosion resembled a battlefield," said Mr. Ruse. "It is impossible to imagine the excitement that prevailed." At the time of the crash Mr. Ruse was on Second street, a couple of miles from the scene of the explosion. He felt the concussion, and as the news quickly spread of what had happened endeavored to make his way down town. It was impossible to get a really close view for some time, as a cordon of militia had been thrown for a mile around Wall street in an effort to keep crowds out.

"The buildings in the vicinity of Broad and Wall streets were the most seriously damaged," said Mr. Ruse. "The sub-treasury, across the street from the Morgan offices and the stock exchange, looked as if it had been through the Marne, with every window gaping open in the street and the doors blown in at the front."

The stock exchange, the roof of which is made of glass, will probably not be used again for several days. It was said that the dome was ready to fall in less than five minutes, and everyone was ordered from the building.

At 34 Wall street is located a store of the Schultz Cigar Company. The entire front of the store and the counter were wrecked, and after the explosion the wall of the building was leaning back from its underpinning.

Doctors Busy at Scene of Wall Street Disaster

Above is shown the first photo to reach London of the disaster in Wall Street. It was brought to the city by William Ruse, who returned today at noon. Notice the bodies of victims of the explosion lying in the street. The illustration shows the automobile of Dunham Belton, manager of a pharmacy, near which the explosion occurred. Mr. Belton was in a nearby office and escaped injury. The big car was completely overturned by the concussion.

MILLERAND SAYS HE DOES NOT WANT THE PRESIDENCY; WOULD RENEW PREMIER

French Parliament Will Be Convened On Tuesday Next To Receive Resignation of Deschanel—Colleagues of Millerand Are Insistent That He Succeed To the Highest Office in French Republic.

Paris, Sept. 17.—A successor to Paul Deschanel as President of France will be elected on Friday, September 20, according to general belief in political circles today, although the date will not be definitely fixed until after the meeting of parliament on Tuesday, when the president's resignation, handed to Premier Millerand at Rambouillet yesterday, will be placed before the executive bodies.

That successor, it appeared today, would be Alexander Millerand, the present premier, unless the premier's powers of assistance to a call to the office prove greater than the rapidly accumulating force of public sentiment favoring him for the chief magistracy.

Paris, Sept. 17.—Definite decision was reached by the cabinet at its session this forenoon that the Parliament should be convened in extraordinary session next Thursday to receive the resignation of President Deschanel, which was handed to Premier Millerand yesterday at Rambouillet, where the president has been ill for several months past.

The premier informed the cabinet that the election of a successor by the National Assembly was immediately taken up, and strong preference was expressed by the cabinet members for Thursday, September 22. Ultimately it was determined that the day should not be definitely fixed until after Premier Millerand's resignation is accepted by the presidents of the Senate and the Chamber of Deputies, when he will discuss the question. It was anticipated that if the time were considered too short Friday or Saturday of next week would be selected.

London, Sept. 17.—By the Canadian Associated Press.—The Hon. J. A. Calder, Canadian minister of immigration and colonization, who has just concluded investigating the emigration conditions of Great Britain, assures the people here that the prospects of farmers emigrating to Canada are never better. Women domestic workers and farm laborers, he said, are certain of good employment with the return of normal conditions. Mr. Calder looks confidently for the British immigration into Canada again far exceeding that from all other countries.

KIDDEES SEPARATED FROM PARENTS IN FAIR GROUNDS OWING TO TURNSTILES

Present Equipment Will Probably Be Scrapped by Directors As Result of What Has Been Happening—Today's Crowd Is Estimated At 30,000 by Secretary Hunt.

FAIR ATTENDANCE FIGURES

A number of Advertiser readers have been questioning the accuracy of The Advertiser's daily attendance figures, claiming they are exaggerated. The Fair board has refused to give out any official statement as to attendance, but the figures which appear in this paper are based on estimates of Secretary Hunt and several of the directors.

The attendance at the Fair grounds this morning failed to indicate that today's attendance would equal or exceed the attendance on the last two days of the 50-cent admission days, Wednesday and Thursday, but it did promise to easily exceed the admission either on Monday or Tuesday. The directors anticipate that the attendance today will be close to 30,000 at a reasonable estimate.

At the directors' meeting at noon today, the advocates of the increased admission price appeared impressed strongly with the belief that the big attendances on Wednesday and Thursday had amply demonstrated the wisdom of increasing the admission price to 50 cents.

May Be Scrapped. The turnstile audience was discussed at some length, and it is practically certain that the present turnstiles are being scrapped before another exhibition. The fact that in a crowd of several thousand people waiting to get through the turnstiles children had to leave their parents in order to get through the gates on a 15-cent admission ticket, was admitted by several of the directors to be sufficient reason for the dissatisfaction on the part of the Fair visitors, which nearly culminated in a riot on Wednesday.

Sooner or later the Government will prohibit the use of the machines, it was intimated, because they mutilate the coins. Several of the directors declared in favor of strip tickets, even for passholders, because now, it is alleged, the pass privileges are abused, and some people after entering on passes, hand them through the ticket fence for their friends to enter on the same passes.

Secretary's Comment. Secretary A. M. Hunt made some reference to the condition of the grounds. Some earth had been deposited during the year, but the city had not turned over the grounds in as good condition as might be desired. A grant of \$50 was voted to the kit band for helping out with musical programs several evenings this week.

A vote of appreciation was carried to Chief of Police Birrell and staff for the best policing of the grounds ever provided by the city police department, according to Directors Manning and McCormick, who sponsored the resolution.

Started Something. William McNeil started something when he asked Ald. Seabrook to explain how the Canadian National Exhibition closed on September 12. He was objected to an interview given by Ald. Seabrook.

DYE CAUSES LAD'S DEATH

Sore Heel Became Infected From Stocking, Causing Blood-Poisoning.

As a result of a sore heel becoming infected with dye from black stockings, Donald Glinz, the youngest son of a Winnipeg family, died at his home from blood-poisoning on Thursday.

The young lad, about two weeks ago with the Boy's Naval Brigade for a cruise on the Pinta, died at his home from blood-poisoning on Thursday. He was brought from Sarnia on Tuesday, where he had been very sick, and grew weaker, the poison going through his whole system.

Donald Glinz is survived by his parents and two brothers, Pontus and Clifford. The funeral will be held on Sunday afternoon at 2:30 o'clock. Rev. A. C. Bingham will conduct the service. The burial will be made in Woodland Cemetery.

Record Classes At the Western Largest Registration in History of University Is Expected.

The largest registration in the history of the Western University is expected on October 4, registration day. Thirty-four have registered in medicine, 27 of these are taking the six-year course, and seven returned students are taking the seven-year course. The Medical School this year will be overcrowded, and it is expected that some of those entering will have to wait until January, when the new medical school on Ottawa avenue will be opened.

Of the 34 registrations for medicine, two are women. This makes three women taking the medical course.

THE WEATHER

TOMORROW—FAIR.

Toronto, Sept. 17.—8 a.m. Forecasts.

Today—Fresh west and northwest winds; light to moderate; fair.

Saturday—Southwest winds; fair.

Temperatures.

The following were the highest and lowest temperatures during the 24 hours previous to 8 a.m. today:

Station	High	Low	Weather
Staten	63	50	Clear
Victoria	60	48	Fair
Calgary	70	52	Clear
Edmonton	68	50	Fair
Port Arthur	66	48	Fair
Parry Sound	66	44	Clear
St. John's	74	62	Clear
Toronto	74	46	Fair
Kingston	74	48	Clear
Ottawa	74	48	Fair
Montreal	64	44	Fair
Quebec	64	42	Cloudy

Weather Notes.

The low area which was in the Ottawa Valley yesterday has developed into a moderate storm now centered near Father Point, while over the Western Provinces and Great Lakes the barometer is quite high.

The weather is showery in the Gulf and Maritime Provinces, elsewhere fine.
