Secretary Daniels Declares He Would Not Consider Agreement That Included Only Few Big Powers — Will Not Consent To Program That Would Leave American Fleets Inferior to Those of Other Powers.

Washington, Jan. 11.—An international agreement "with all, or practically all, the nations which will guarantee an end of competition in navy building," was presented as the only alternative to the building by the United States of a navy powerful enough "to command the respect and fear of the world," by Secretary Daniels in testimony today before the naval afairs committee of the House of Congress.

The naval secretary, who appeared before the committee in connection with its consideration of the subject of disarmament, dismissed as unworthy of decision a third proposal for a United States navy less than equal to the most powerful sea power in the world, "because it is a waste of money to spending the presenting his views to the committee, Mr. Daniels took occasion to outline the advice which he would give to President-Elect Harding should he be asked for counsel on naval matters. This advice took the form of a suggestion that Mr. Harding immediately upon his inauguration invite the nations of the world to meet with the representatives of the United States in a disarmament conference.

"If President-Elect Harding should do me the honor to ask my advice on the subject," declared Mr. Daniels, "I would unhesitatingly say to him: "If the United States is not to become at once a member of the league of nations, I believe some plan should be and committee of the United States in a disarmament conference.

Measures Now in Effect Hav e Failed to Produce Desired Results, Declares Sir Char les Fitzpatrick in Speech from Throne At Opening Today of Legislature.

Quebec, Jan. 11.—New legislation in regard to the sale of liquor is promised for the immediate future by the Quebec Provincial Government in the speech from the throne, which was read at the opening of parliament today by Lieutenant-Governor Sir Charles Fitzpatrick. The government admits that the present system of beer and wine licenses and the sale of spirituous liquors by prescription in Montreal, and the Scott temperance act in other cities of the province, has been a failure, and proposes itself to take complete control of the traffic. That part of the speech referring to liquor legislation says:

"The measures enacted for the regulation of the sale of alcoholic liquors the measures enacted for the regulation of the sale of alcoholic liquors the measures prohibition systems."

#### HARD WORK AND ECONOMY AS SOLUTION TO FINANCIAL CRISIS

Ottawa, Jan. 11.—Speaking here yesterday afternoon on "When Is a Dollar Not a Dollar, and Why," Senator W. C. Edwards declared that the world will have to pass through a period of extreme chastisement before the financial situation will recover from its present state of depression and the exchange rate between trading countries return to the pre-war normal. Dealing particularly with the relationship between Canada, Great Britain and the United States, Senator Edwards asserted that the cause of the adversity of the exchange situation to Canada and more seriously to Great Britain is the old law of supply and demand, an increase in demand for foreign products in both these countries and a decrease in exports, augmented by extravagance and an excessive use of commodities that might be termed luxuries. Until the countries of the world get down to hard work and economy Senator Edwards could not see how the situation could return to normal.

# Denies Government Railway The local ministers seem very favorably impressed by the resolution passed by the Toronto General Ministerial Association Monday. Rev. W. R. McIntosh, King Street Presbyterian Church, designated it as "very admirable." "The prospects for church union are now better than ever they have been," says Mr. McIntosh. "It may be delayed for a time; many of those who support it are in favor of judicious delay in order that things may mature, but I am very hopeful that another generation will see the union of all the Protestant churches. "The Presbyterians, the Methodists, and the Congregationalists, are now lined up for the wished-for object, and the only opposition in sight is from our Baptist brethren, who are essentially independent in their views regarding set creeds and connection with the state." "In order to secure a larger and more of a larger and more and the only opposition in sight is from our Baptist brethren, who are essentially independent in their views regarding set creeds and connection with the state."
