NEWSBOYS HAVE CHARGE OF BURIAL OF COMRADE

Will Conduct Funeral of Little
Sammy Manaceth, Killed By
Street Car.

The Toronto Newsboys' Union will today lay away the remains of nine-year-old Samuel Manaceth, 3 Cameron-street, who was killed in a street car accident Monday night. Samuel Lichtmann, president of the union, received permission from Coroner George W. Graham yesterday to take the body and a number of the newsboys will attend the funeral, to be held from B. D. Humphrey's undertaking rooms at 10 o'clock this morning.

These are the boys whom you are asked to help in the building of a club which is to provide a gymnasium and reading rooms. These are not lazy and shiftless seekers after charity, trying themselves as millstones about the

neck of the community, but rather potential citizens, ready to give of the little they have in charity to others. These little merchants of the street speak of their ability to care for the dead. There is a serious dignity which sits upon them well as they speak of their obligation to their fellows. These mere boys who already realize their responsibilities to their brothers are surely well worthy any ideal already established, that of a cheerful shouldering of the responsibility of citizenship and a fitness to meet the demands imposed by such realization.

Cement Sidewalk Tools, in solid, newest models, at Alkenhead's, Temperance-street.

A Double Bereavement.
SHERBROOKE, Que., March 15.—Mrs. Charbonnet, widow of the late Rev. Thomas Charbonnet, for many years a French Protestant missionary, died suddenly at Cookshire yesterday afternoon. About the same hour she passed away the wife of one of her sons, Mr. L. E. Charbonnet, received word that her mother had died at Bichon.

I Can Make a Man of You

Men who want to regain the vigor of youth, who want to attain the highest standard of physical vitality, can do so by wearing

Dr. McLaughlin's Electric Belt

You will never know what a grand power electricity is until you feel its genial, glowing rays penetrating every vital part of your body from my Electric Belt.

You know how easily electricity runs street cars, makes plants grow without sun or soil, purifies filthy water and transforms night into day at the will of man, but I can't make you believe it will renew the vigor of youth until you feel it dancing through your veins and carrying to every organ of your body the "fire of life."

Pick out the men who have worn my Belt. See them with head erect, chest expanded, the glow of health in their cheeks, courage in their hearts, and a clasp of the hand that tells you, "I am a man."

Mr. Samuel J. Barnett, North Gower, Ont., says: "I received a Belt from you about four years ago, and I wish to say that it was all it was represented to be, having cured me of indigestion and other ailments, and I now feel like a new man, giving all the credit to your Belt. Anyone giving it a good trial, I know, will feel as I do."

And how is it with you? Have you rheumatism and back pains, a dull ache and weakness over your kidneys, dull headaches, with a tired, stupid feeling? Are you losing your vitality? Do you feel yourself growing aged before your time? Are you nervous, sleepless, short of memory, and lacking in spirit and self-confidence? Do you know that you are not the man you would like to be?

If so, I can cure you. What you lack is just what electricity supplies.

My Belt will cure you, and if you will come to me you will soon be one of "DR. McLAUGHLIN'S MEN."

What more can you ask? I am willing to take all the chances of curing your back, and if I fail you will have the satisfaction of knowing that one of the best and strongest electric appliances in the world has failed. All you lose is your time. My confidence in my method enables me to offer any man or woman who will secure me, the use of my Belt at my risk, and they can

PAY WHEN CURED

YORK COUNTY

N. TORONTO COUNCIL HOLD A BUSY SESSION

Melrose Park Company's Plans Are
Approved—Islington Rector
Makes Statement.

NORTH TORONTO, March 15.—(Special.)—To-night's meeting of the town council, presided over by Mayor Brown, was attended by all the members, with the exception of Councillor Walter Muston, who was unavoidably detained, and was one of the busiest held in a long time. There were few, if any, contentious matters, but the session was a lively one for all that.

The council practically gave its consent unanimously to the adoption of the plans filed by William Mulock, Jr., acting for the Melrose Park Company, who have acquired, and will shortly place on the market the St. Germain property. The plans were shown to the committee last night, who in turn recommended a few minor changes, which Mr. Mulock to-day had inserted. The profile shows some of the streets to be 40 feet wide, while the Melrose people have donated 10 feet along Yonge-street to the town.

"One of the best plans ever submitted in North Toronto," said Councillor Lawrence.

Encouraged by his success, Mr. Mulock, Jr., asked council if other plans relating to adjoining properties would be likewise assumed if the roads were placed in proper shape, but the mayor suggested that council go slowly in the matter. Councillor Reed fathered a big bunch of notices of motion, all of which but one were effectively squelched by his colleagues, and the first of which was to pass a bylaw for the establishment of a high school. Councillor Howe seconded this motion, but reserved to himself the right to vote against it, which he subsequently did.

"I tried to get just such a resolution thru council five years ago, but was thrown down," said Councillor Lawrence.

The third one, introduced by Councillor Reed to compel citizens to build back a certain distance from the street, was also not supported.

"It's simply absurd to try and make the citizen build their houses in a straight line," said Councillor Lawrence, "and, besides, it would not be artistic."

"I don't think any member ought to try and force anything on council which the council cannot enforce," said Mayor Brown, and with that the matter was dropped.

A final motion by Councillor Reed, to provide refreshments for council officials and the press, and a resolution, which it is time that Councillor Reed cut out that kind of thing," said Councillor Lawrence, "and stop trying to curry favor with the reporters." The refreshment idea met in short with an ignominious death.

A lively tilt took place over the duties of Engineer James Macdonald, and his relations with the other officials, in which Councillor Frank Howe won out.

Councillor Lawrence introduced the matter by stating that the engineer must take precedence, and that his appointment need not be referred to council for the latter's approval.

"I take exception to that," said Councillor Howe, "and it is not so stated in the bylaw." All the other members took the view that the engineer was supreme, but Clark Douglas resurrected the bylaw, wherein it was stated that the engineer must submit the name of foremen to council for approval.

"Right you are, Frank," said the chairman of finance, and the storm subsided to a zephyr.

Mr. Douglas was telling that the town was free to lay pipes thru his property in the event of finding water in the north end.

A vote of thanks was tendered R. M. King for his services in testing the gas wells.

Citizens who are using siphons to empty their cellars of water will be assessed to the amount of \$10 gross and \$5 net, and a automatic cut-off will be attached which, when the cellars are emptied, stops working.

Council passed a bylaw favoring the proposed appointment of John A. Padden as police magistrate of the town, at a salary of \$100 per annum. The appointment rests with the government, and the police magistrate will be required to hold court once a week, or whenever the occasion demands.

E. M. Bowman submitted plans for the erection of two fine stores on Yonge-street, south of the Eglinton postoffice.

Assessor Cleland has about half completed his duties, a good deal of the work in the lower end of the town being finished. While no startling changes are noted, a substantial advance is said to have taken place in the assessed value of farm lands. A large increase in this year has been secured from Dovercourt Land Co.'s holdings.

WEST TORONTO.

WEST TORONTO, March 15.—(Special.)—Escaping gas in an office in the Sterling Bank nearly precipitated a catastrophe last night. It was, however, noticed by one of the inmates and P. C. Cronin was called and broke in the door.

The annual open meeting of the Canadian Order of Home Circles, West Toronto Lodge No. 26, was held this evening in the rooms, corner Pacific avenue and Dundas-street. The

preme officers from Toronto were there and a very enjoyable evening's entertainment was given.

Rev. Richard Seaborn will conduct the special Lenten service in St. John's Anglican Church to-morrow night.

Nine of the teachers in Annette-st. school left to-night for Boston.

The funeral of George J. Gilbert took place this afternoon to Prospect Cemetery. The pallbearers were: O. C. Campbell, W. A. Baird, Joseph Rowntree, A. Gilbert, A. H. Royce and Dr. G. Royce.

Andrew Catene, son of Mr. and Mrs. Carman Catene, 214 Lappin-avenue, died to-day after a short illness from diphtheria. The funeral will take place to-morrow at 2 p.m. to Mount Hope Cemetery.

Whether you have an interest in this subject at present or not, you will have some day, be it sooner or later. In case of death you invariably look for the firm who do improved embalming and undertaking. Why not save yourself the worry and trouble which will come to you at a later date by becoming familiar with our prices, etc. We will furnish audit's card complete, with our hearse and services, for \$48, which is decidedly reasonable. The West Toronto Burial Co., 188 Dundas-street. Phone Junction 541.

DOWNSVIEW.

DOWNSVIEW, March 15.—(Special.) Messrs. H. Deacock and B. J. Boake are serving on the petit jury in Toronto.

The family of Mr. A. Ramsey of the fifth concession are in quarantine with scarlet fever.

R. Nattress has received the appointment of mail-carrier.

John Gordon has been appointed road commissioner for the district.

Messrs. Robert Hogg, T. Barnard, Ed. McDonald, Wm. Boake and Machinter have returned from a two-weeks' trip to the model farm in Guelph.

ISLINGTON.

Rector Says Ex-Warden Persistently Disturbs Divine Service.

ISLINGTON, March 15.—(Special.)—The story of the interrupted service at St. George's Anglican Church, Islington, stating that the pastor Rev. T. G. McGonigle abruptly dismissed his congregation on Sunday morning last, when only half the prayers had been read, was verified in detail to-day when representatives of the World called upon the rector.

It is stated that the action in refusing to continue the service, while interrupting out of his seat at the altar, and hindering him from judiciously doing so, and while that individual made a mockery of the service, was adopted after careful consultation with the wardens, and with the hearty acquiescence of the officials of the church.

The pastor states that the unanimity of the congregation is on his side, and that a decided aversion is held toward the ex-warden, A. B. Cooper, who seems to be at the root of the disturbance.

Mr. McGonigle states that the ex-warden has for the past year and a half occupied one of the foremost seats in the church, and has repeatedly interrupted his services by making faces at him, by even jumping out of his seat at times, and by other unseemly conduct, distracting the attention of the congregation.

The rector also states that last January he held a conference with Mr. Cooper against making any such interruptions. Later on the ex-warden was admonished by the bishop for his conduct.

Since neither the warning of the rector nor the admonition of the bishop had the desired effect, the rector decided to discontinue the service, and has left the matter in the hands of the wardens of the church.

The bad blood which seems to exist between the rector and the ex-warden originated about two years ago, when a dispute between the two men found its way into the courts. Since that time Mr. Cooper has been endeavoring to drive the rector from the parish.

House of Industry.

The monthly meeting of the board of management of the house of industry was held yesterday with Henry O'Hara presiding. The door report showed 128 new families had been helped during the month, while 92 work orders had been issued. The casual report gave 283 persons sheltered from the city, and 124 people from outside municipalities. They broke 17 tons of stone. The treasurer's report showed an overdraft of \$4,087.57.

Home-Seekers Go West.

Two special trains left the Union-station yesterday afternoon carrying settlers for the west.

MEN'S CASHMERE SOCKS.

PORT ARTHUR BOOSTERS HERE TO SEE GOVT.

Want Experimental Farm, Grant
For Fair, Wagon Roads and
Fish Hatcheries.

An aggressive campaign having for its purpose the booming of Port Arthur as an industrial centre is the cause of the visit of a representative deputation from that city to Toronto.

Consisting of Mayor I. L. Matthews, Solicitor Keefe, Industrial Commissioner N. G. Neill, and eleven other prominent citizens, the deputation will interview Sir James Whitney to-day and lay before him requests for special inducements to manufacturers to locate there.

The monthly meeting of the board of management of the house of industry was held yesterday with Henry O'Hara presiding. The door report showed 128 new families had been helped during the month, while 92 work orders had been issued. The casual report gave 283 persons sheltered from the city, and 124 people from outside municipalities. They broke 17 tons of stone. The treasurer's report showed an overdraft of \$4,087.57.

Two special trains left the Union-station yesterday afternoon carrying settlers for the west.

call special attention," he continued.

"It is that Port Arthur owns all its own municipal franchises. Electric light and power plants, telephone system, street railway and water works all belong to the city, and all of these are revenue producers. We have water power capable of developing over \$5,000,000, and at the present time electric power is sold in Port Arthur at a very low figure, which will of course decrease as the demand increases."

"Soft coal is sold on our docks at an average of \$3 a ton, and a coal plant will supply a burning fuel at a cost materially below hard coal. Recognizing that it is a practical necessity to have a reasonably priced and efficient supply of labor in the development of the city, we intend to erect six-roomed, modern cottages which will be rented for \$10 a month."

Port Arthur has been steadily growing, and its population has increased from 3000 in 1901 to 15,000 in 1909, and by means of this publicity movement the city will grow by leaps and bounds. Already many important industries are located there."

CHILD FATALLY BURNED

Was Playing Around Stove in the
Absence of Parents.

BRANTFORD, March 15.—(Special.) Florence Campbell, 5 years old, was fatally burned this afternoon, while playing with older and two younger brothers, in the absence of their parents, at the home, corner of Chatham and Hawdon-streets.

The father, Edward Campbell, was at work, while the mother was out washing. The girl put a piece of paper in front of the stove and her dress was ignited. Her sister threw a pail of water over her, but the child, still in flames, rushed out of the house, falling in the yard. She was removed to the hospital, where it is said she will die during the night.

EX-EMPLOYEE IS ACCUSED

Berlin Suspender Firm Think He's
Stolen Their Pattern.

BERLIN, March 15.—In the police court to-day, the Berlin Suspender Co., Limited, were complainants against Carl Rudolph, a former employee, charged with unlawfully having taken from the firm patterns of different leather parts for the manufacture of suspenders.

It is alleged that the defendant had, after leaving the employ of the company, commenced the manufacture of suspenders in Toronto.

A. Henderson, Toronto, was counsel for defendant, who was committed for trial at the next sessions in June. His own bail was accepted.

Gilbert Wrett, who died in London, Ont., on an overdose of medicine, had for 15 years played "Simon Legree" in "Uncle Tom's Cabin" productions in the United States and Canada.

THE LUMSWEN ENQUIRY

Makes Some Admissions to Account
for Differences.

OTTAWA, March 15.—(At the sitting of the Lumsden Investigation Committee this morning, Mr. Lumsden told of making his estimates of the cost of the National Transcontinental Railway to the government.

His estimates, he said, were largely compiled from reports of various district engineers. Every year he made a report to the commission. The first estimates were based upon the preliminary lines, but the final location of the road revealed quantities entirely different from the preliminary lines.

Even after the final revised location there were frequent changes made and Mr. Lumsden admitted that might be the occasion for certain discrepancies for the original figures.

Mr. Lumsden stated that an arrangement had been made with respect to this train haul after the first estimates, but he would not say that this item amounted to a million dollars on district "B," or a million and a half on district "C," as was suggested by Mr. Smith. At any rate this circumstance might easily account for an increase. The matter of over breakage Mr. Lumsden said, would also account for other differences.

Get the Poisons Out of the Body

By the Definite and Certain Action of
DR. A. W. CHASE'S KIDNEY
AND LIVER PILLS.

Until you have tested Dr. A. W. Chase's Kidney and Liver Pills you cannot know the satisfaction that comes with the use of this direct and certain regulator of the liver and kidneys.

Once you have found out the dose suited to your system, you can depend on getting just the right results every time, without increase of quantity taken.

You can be sure that the action of the bowels will be prompt, that the liver will be awakened, and that the kidneys will join in thoroughly cleansing the system of poisonous impurities.

Because of this dependability, Dr. A. W. Chase's Kidney and Liver Pills are certain to make fast friends wherever their merits have been tested.

Stomach troubles arising from constipation, torpid liver, and deranged kidneys soon disappear, as do also biliousness, backache, headache and general depression.

The portrait and signature of A. W. Chase, M.D., on the box stands for the best there is in medicines. One pill a day, 25 cents a box, all dealers, or Edmondson, Bates & Co., Toronto.
