Declare Enemy is Breaking Down and His Power of Resistance is Gone.

CONTINUE OFFENSIVE

Both Look Forward With Absolute Confidence to Further Success and Victory.

BRITISH FRONT, IN FRANCE Sept. 29.—General Joffre. co in chief of the French army, has sent a in chief of the French army, has sent a message of congratulation to General; Sir Douglas Haig, commander in chief of the British forces in France and Belgium, on the recent British successes, in which the French general

seys:

"Following on the continued progress made by your armies since the beginning of the Somme offensive, these fresh successes are a sure guarantee of final victory over the common enemy, whose physical and moral forces are already severely shaken."

After saying that the combined offensive has bound still closer the ties of the two armies, and that "Our adversary will find therein a proof of our firm determination to combine our efferts until the end to insure the complete triumph of cur cause, "General Joffre concludes: "I bow before those of your soldiers by whose bravery these successes have been achieved, but who have fallen before the completion of our task, and I ask you to corvey in my name and in the name of the whole French when it you to corvey in my name and in the name of the whole French army to these who stand ready for the battles to come, greeing, comradeship and confidence."

confidence."

Gen. Haig's Reply.

Gen. Haig's Reply.

Gen. Haig, in replying, said:

"Our brave dead, whose blood has been shed, together with yours, ch the soil of your great country, will prove a bond to unite our two peoples long after the combined action of our armies has carried the common cause for which they have fought to its ultimate triomph.

"The unremitting effort of our forces north and south of the Sommon added to the glorious deeds of your armies unaided before Verdun, have already begun to zreak down the enemy's power of resistance, while the energy of our troops and their confidence in each other increase from day to day.

"Every fresh success that attends our arms brings us nearer the final victory to which, like you, I look forward with absolute confidence."

ALFRED JURY, FORMER TORONTONIAN, IS DEAD

LONDON, sept. 29.—Ahred Jury, the voterar Canadian emigration agent, died at Liverpool yesterday. Mr. Jury may be regarded as the pioneet official of the Canadian emigration agents on this side, He was sent over in 1897 when the emigration propaganda was still under the direct conganda was still under the direct con-trol of the high commissionery before it had been endowed with a special administrative centre in London. For 20 years he preached Canada in looked the part of a "returned colonial." He was brusque and direct in delivery and full of sincerity and crituisiasm for the land of his adoption. He never in his official boosting of Canada, made istatements which the He never in his official boosting of Canada made statements which the facts did not warrunt. The intending emigrant, whose first question was whether there were any football matches in Canada, would quickly get the sharp edge of his tongue. His capacity for work was unbounded, even in later years, and the stronuous manner in which he stumped Lancashire and adjoining countries, the Isle of Man and elsewhere never seemed to tire him.

The emmigration department has certainly lost a valuable servant, and the Canadian community on this side a forceful and likeable personality, Mr. Jury was preminent in labor move-ments in Teronto in his early days.

Remanded for Week on Charge of Murdering Son

Albert Sinclair sr., formerly chargwith feloniously wounding his son Albert, who has since died, appeared in the police court yesterday on the more serious charge of murder. He was remanded to jail for another

Glass of Hot Water Before Breakfast a Splendid Habit

Open Sluices of the System Each Morning and Wash Away the Poisonous, Stagnant

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver kidneys and ten yards of bowels the previous day's indigestible waste, sour and poisonous toxins, thus cleansing, sweetening and purifying the entire alimentary tract before put-ting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives on a splendid appetite for breakfast, and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or the phosphate will constitute at the lecting evidence with regard to a licensed liquor dealer under the old act. who is stated to be acting as agent to a make the proof of the pro rheumatism a real enthusiast on the for an outside company of liquor mersubject of internal sanitation. Try chants. This the board strengly hold.

it or Overcoat

To be a lasting pleasure should be made by Hobberlin's. A positively bewildering array of the finest and latest weaves---our wonderful tailoring organization keyed up to highest efficiency--- and a remarkable display of perfectly tallored Suits and Overcoats ready to slip on---or get in early and we will make to your measure in time for the holiday.

MADE-TO-MEASURE and READY-FOR-SERVICE

SPECIAL VALUES Saturday and Monday

Read this unbiased opinion on the clothing situation

"Glothing for 1917 will be still higher in price. True, a suit to sell at \$15.00. will still be obtainable, as well as the other recognized price ranges, but they will not be the clothes that could be obtained to sell at these prices a year ago, or even six menths ago. Materials for very low-priced goods are practically off the market; what can be obtained is too poor to be used by manufacturers who value the reputation of their lines, and the materials that previously went into clothes retailing at from \$30.00 up are new too expensive to be used in the same lines."—Clothiar and Haberdscher.

THE SUNDAY WORLD PLEASANT VISITOR Reduction in Cost of Duplex Av ..

OPEN

8 A. M.-9 P. M.

Its Special Features in This Week's Edition Cover Large Range.

ABSORBING SUBJECTS

Writers of Prominence Have Contributed to Make This One of the Best.

"Can a working girl own a savings account?" That is the question asked by Virginia Parr in The Sunday World this week, and the discussion which follows will prove most absorbing to every working girl in Toronto. This is only one of many stories which are contained in this week's issue which have a gripping interest.

Did you know that the Red Cross Society has a number of enthusiasts gathering waste paper and other material in Toronto, the revenue from which totals a big sum every month? It's a fact, and the article written by M. L. Hart gives some new information on the subject.
Written exclusively for The Sunday

World, Archie McKishnie has begun a series of stories on animal life. The first appears this week, and is about Mr. Bob White and his mate. It's real and rings true.

"Canada's Evolution in Steamers" is by Frank Yeigh, and touches upon the advancement that has been made in Galt last Saturday for contempt of steamer construction after the style Galt last Saturday for contempt of of his story last week about railway court as a result of his comment on locomotives. Mr. Yeigh's writings are well known and need no introduction in the agricultural commission proceedings, devotes a page and a half in this to Torontonians.

Life at Camp Borden is one sur-

going on in Toronto and Ontario

story, which shows what new man-hood means to a country. Millersville yarns, stories told by veterans and other writings offer a field of excellence seldom found in a weekly paper. The illustrations are up to their usual high standard, and indeed The Sunday World from cover to cover will be a very acceptable visitor in the home over the week-end.

Decide if Former Liquor Dealer Can Act as Agent

the and you are assured that you will look better and feel better in every the heading of soliciting. It is likely that a test case will follow.

CUT EXTENSION SHORT

Work Effected by Eliminating Subway.

The estimated cost of the Duplex avenue extension from the north end of Lawton avenue to Glenview avenue is \$394,000, of which the city pays twothirds and the ratepayers one-third, with the exception of a strip 450 teet north of the belt line of about 1600

feet.

To date \$99,924 has been spent on this work. 'Under Ald. Rarnsden's scheme the properation of the second will mean a saving of \$202,047. This saving is effected by the elimination of the necessity of constructing a subway and land damages. This will leave a necessary expenditure of \$92.

This sum is required to complete the extension to Chaplin crescent less the extension to Chaplin crescent less any salvage in the property not required for the extension, plus any pos-sible damages by abandoning the original scheme.

By an entirely new report on the extension of Duplex avenue southerly to Chaplin crescent, 86 feet wide from Yonge street ta Oriole Park road, at an estimated cost of \$191,853, at least one-third of the cost can be assessed, thus making the net cost to the city on the new report \$127,969.

EDITOR MAGEE AGAIN CRITICIZES MR. GALT

Declares There Were No Serious Efforts to Secure Facts in Contempt Case.

WINNIPEG, Sept. 20 .- The Satur-

week's issue to the commission prise after another, according to Wal-prise after another, according to Wal-ter Fessey. The World correspondent no trial, no serious effort made to ob-ter fessey. The world correspondent no trial, no serious effort made to obthere. His contribution this week extra any facts. Commissioner Galt plains a few of them. Redeem a child for the child's sake. Something of the work of redemption was himself the judge. He was himself the counsel for the prosecution. He was himself the be learned from reading Hew Trill's He was a medieval potentate, in brief, revelling in a merciless exercise, of power he thought he possessed." The subject is termed "Probably the most important subject raised in Canada since the days of Mackenzie and Papineau, and the fight is de-clared to be for freedom of speech, freedom of the press and liberty of the subject. The editor says he may go to fail, but he "shall never silently submit to tyrannical oppression."

Official Arbitrator Finds Damages in W. J. Gage's Claim close of the ceremony of unveiling.

W. J. Gage, who sued the Chy of Toronto for \$20,000 damage claimed to have been caused by a retaining wall the east it if of his property on Bethurst street when the grading work wer under way, was awarded \$4,759 a Reuter despatch from Madrid-by Official Arbitrator P. H. Drayton. Twenty-four of the crew have been landed at Las Palmas, Canary Islands.

MEANS LARGE SAVING HONOR FOUNDER OF HOUSEHOLD SCIENCE

Portrait of Mrs. Massey-Treble Presented to the University.

PROVE AN INSPIRATION

Sir Edmund Walker Eulogizes Benefactor in Accepting Gift.

Or behalf of the faculty, students and graduates of the department of household sceince, a portrait of Mrs. Massey-Treble was presented to the university yesterday afternoon in the library of the household science building, Miss Laird, head of the institution, making the presentation, and Sir Edmund Walker, chairman of the board of governors, receiving the gift on behalf of the university.

The portrait was hung in the library and at the beginning of the ceremonies was cybered with a Union Jack. Dr. Falconer invited Sir Edmund Welker to take the chair, and in making the presentation Miss Laird paid a tribute to the great work of the founder, Mrs. Massey-Treble, who had established household science in Ontario, and whose splendid gift, the Lilian Massey School, was known all over the continent.

Three years ago the school had been opened, and on that scenario.

Three years ago the school had been opened, and on that occasion it was felt that the only thing lacking was a portrait of its generous benefactor. It was decided to make up for the lack and the hope was entertained. It was decided to make up for 'he lack and the hope was entertained that Mrs. Massey-Treble herself would be present when the portrait would be unveiled. The opening of the school, however, was the last time shy visited it. McClillivary Knowles had succeeded in making a splendid and beautiful portrait, and was to be congratulated.

Inspiration to Students.

Sir Edmund Walker expressed his pleasure in accepting the gift. He thought it would have been a pity if students in the future had nothing to remind them of the lady who had given them the building and who had established the teaching of household science in Ontario. He also congratulated the artist who had produced a portrait such as could not but prove portrait such as could not but prove an inspiration to the students now and

in days to come.

The portrait shows the late Mrs.
Massay-Treble in a standing position
in a light brocaded gown with an erin a light brocaded gown with an ermine stole about her shoulders. The background is of dark blue and dull gold. A vase of reses standing on a small table gives further harmonious coloring to the dainty production. It was pronounced an admirable portrait as well as an excellent piece of workmanship. manship.

\$50,000 Ty Cobb "comes back" Nuxated Iron makes him Winner Greatest Baseball

Batter of all time says Nuxated Iron filled him with renewed life after he was weakened and all run down

Nuxated Iron has filled me with renewed life and vigor; I play a better game today than when I was younger.

Not long ago a man came to me who was nearly half a century old and asked me to rive him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy, of 20 and as full of vigor, vim and vitality as a young man; in 'act a young man he really was, notwithstanding his age. The secret he said was taking iron—nuxated iron had filled him with renewed life. At 30 he was in bad health; at 46 he was careworn and nearly ad in. Now at 50 a miracle of vitality, and his face beaming with the blooyancy of youth. As I have said a hundred times over, iron is the greatest of all strength-

builders. If people would only throw away patent medicines and nauseous concoctions and take simple nuxated fron, I am convinced that the lives of thousands of persons might be saved, who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real and true cause which started their diseases was nothing more nor less than a weakened condition brought on

by lack of fron in the blood.

Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you he came weak, pale and sickly looking just like a plant trying to grow in a soil, deficient in iron. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two fivegrain tablets of ordinary nux ated fron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run-down people who were alling all the while double their strength and endurance and entirely get iid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases, been doctoring for months without obtaining any benefit. But don't take the old forms of reduced fron, iron a tate or tincture of fron simply save a few cents. You must the iron in a form that can be easily sorbed and assimilated like nuxat iron if you want it to do you at good, otherwise it may prove wors than useless.

Many an athlete or prize fighter had won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the affray, while many another has gone to inslorious deteat simply for the lack of iron.—B. Sauer, is not a patent medicine hor secret remedy, but one which is well-known to drugsiest and whose iron constituents are widely preseried by

Sauer, M.D.

NOTE.—Nuxated Iron recommended above by Dr. Sauer, is not a patent medicine nor secret remedy, but one which is well-known to druggists and whose from constituents are widely prescribed by eminent physicians everywhere. Dhilke the older inorganic from products, it is easily assimilated, does not injure the teeth, make them black; nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion, as well as for nervous, rundown—conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60

estern grain will anama Canal. It C. P. to find a re ver, and ev
