## COUNCIL TO CONSIDER HOUSING QUESTION

Million Dollars Wanted for  
Houses of the Cheaper Class  
For Sale or Rent.

### "A NATIONAL AFFAIR"

The city council, which meets in  
special session today, will be asked  
to adopt the board of control's recom-  
mendation for the appointment of a  
civic housing commission with power  
to erect 500 houses of the cheaper  
class for sale or renting. The board's  
suggestion calls for an expenditure of  
at least one million dollars.

Col. Jesse Wright made a request  
that the board pay a visit to some  
of the houses in the city. He pointed  
out that the houses in the city are  
cheaper than brick houses. Mayor  
Church replied that he had no time  
to make the trip, but the suggestion  
would receive attention.

Mayor Church at first proposed a  
commission made up of heads of the  
city departments, but City Solicitor  
Johnston gave the opinion that this  
was not feasible under the act. The  
commission had to be entirely inde-  
pendent of the city council.

Controller Cameron and Gibbons  
were present.  
The question was a national affair and  
not a municipal matter, but since the  
government had given up, the city  
would be justified in taking the mat-  
ter in hand, but he would insist that  
the houses should be available only  
to bona fide residents over two years'  
standing. The commission, according  
to the board's recommendation, will  
also have power to lend money to  
private builders.

Controllers Cameron and Gibbons  
were present.

Mayor Church, after the meeting,  
handed out the following statement:  
1. The board of control have given  
considerable attention to this ques-  
tion, and pursuant to the provisions  
of the housing act of 1920 recommend  
that the board be authorized to ap-  
point five commissioners under the  
act to carry out the terms and pro-  
visions of the same forthwith.

2. In the event of the city council  
approving of the following program,  
any amendments to the board is  
ready forthwith to send on five  
names of commissioners ready to act.

3. The board further recommend:  
(a) That the commission build 500  
houses of a cheaper class of con-  
struction than formerly constructed  
by the housing commission, by con-  
tract or day labor or both, as the  
commission may from time to time  
determine.

(b) That these houses be either for  
sale or for rent on terms and con-  
ditions to be laid down by the com-  
mission, and that any amendments  
to existing legislation be secured if  
required for this purpose.

(c) That those who rent or buy  
said houses must be bona fide resi-  
dents of Toronto for two years prior  
to the passing of the housing act.

(d) That the city be prepared to  
loan bona fide builders of small  
houses an advance of \$1,000 on first  
mortgage for the building of houses  
of a cheap construction, but no loan  
to be made to speculators.

(e) That the commission be re-  
quested to endeavor to provide tem-  
porary accommodation for tenants in  
any unused buildings for emergency  
purposes during the coming winter  
for the housing of people, such as  
St. Andrew's huts, and any other  
buildings that may be secured tem-  
porarily.

(f) That the building by-laws be  
relaxed to enable the city architect  
to allow a cheaper construction than  
the by-laws allow in certain defined  
areas. The city architect to be given  
full discretion to act in such cases.

City Architect Price said many  
persons desiring to erect their own  
houses had applied for copies of the  
plans recently drawn for the civic  
housing commission, and the board  
agreed that copies should be supplied.

## PUBLIC LIBRARIES INCREASE IN FAVOR

This Year Bids Fair to Be  
Greatest in Toronto,  
Librarian Says.

The total number of books issued  
from the various branches of the To-  
ronto public library during the month  
of July was 123,000. The following  
figures show the circulation and in-  
crease respectively:

College, 12,275 (2700); Dovercourt,  
12,302 (2100); High Park, 10,682  
(1800); Beaches, 10,668 (2400); River-  
dale, 10,093 (1200); Earlscourt, 8077  
(1000); Western, 7219 (600); Deer Park,  
7055 (1300); Queen and Ulgar, 6684  
(600); Yorkville, 6636 (800); Wych-  
wood, 5771 (600); Northern, 3968  
(1300); Eastern, 2923 (900).

High Park, with approximately 12-  
500 books, reports the remarkable cir-  
culation of 19,632. The only decrease  
is at the Church street library, where  
754 books were issued, with a falling  
off of 500.

"It is a remarkable report," says G.  
H. Locke, the chief librarian, "and  
shows that the libraries are being ap-  
preciated more and more. We have  
been growing steadily and continuous-  
ly for the last ten years, but this year  
bids fair by far to be our greatest.  
We had 125 persons joining the library  
on one day—and that in a summer  
month when raining is supposed to be  
put aside for outdoor occupation and  
recreation."

### POLICE ARREST SUSPECTS.

Two alleged sneak thieves, who, ac-  
cording to the police, have been enter-  
ing rooming houses and stealing cloth-  
ing, were arrested on Queen street  
yesterday afternoon by Police-  
men Dunn and Boyd. Victor Dunell, 160  
Hinchey street, Ottawa, and Arthur  
Lacroix, no home, are charged with  
entering a rooming house on Beverley  
street and stealing three suits of cloth-  
ing.

## LABOR NOTES

The Toronto Fire Fighters, at the  
regular meeting of their union held  
yesterday in the Labor Temple, occu-  
pied themselves with routine business  
and the discussion of matters affecting  
their department.

Local labor unions are in receipt of  
requests from the Ontario Referendum  
committee for assistance in their ef-  
forts to establish prohibition. The  
executive of the District Trades and  
Labor Council has also been asked  
to be named a representative and will  
bring the matter up for discussion at  
the next meeting of the council.

Satisfactory results from his visit  
to the lower provinces were reported  
by Vice-President Joseph Hunter of  
the International Painters' and Deco-  
rators' Union, who visited the Labor  
Temple yesterday. Mr. Hunter states  
that several new charters were granted  
and that several local unions showed ex-  
cellent increases in membership.

The Bricklayers' and Masons' Union  
has appointed William Jensen as dele-  
gate to the international  
convention to be held on October 4  
in Cleveland.

The same body has appointed Fred  
Howell and Walter Thorne as dele-  
gates to the Ontario provincial con-  
vention to be held on September 3 in  
Hamilton, and John Sutherland and  
J. A. Jones as delegates to the Do-  
minion Trades and Labor Congress to  
be held September 13 and days fol-  
lowing in Windsor.

Business Agent John Munro of the  
Steamfitters' and Boilermakers' Union,  
who has been in conference with the  
directors in charge of the affairs of  
the Dominion Shipbuilding Company,  
expressed yesterday his full confidence  
that the wages owing the men would  
be forthcoming with comparatively  
little delay. It would require until  
Friday of this week, he stated, to post  
the pay roll to date, and directly this  
was done measures would be taken  
to raise the amount required. Mr.  
Munro also expressed his opinion that  
the plant would reopen shortly, as one  
vessel was within three weeks of com-  
pletion and two more were well under  
way.

The collection committee appointed  
by organized labor of the city at their  
meeting on Tuesday evening last to  
raise the money necessary to satisfy  
the judgment obtained against James  
Simpson reports that satisfactory  
progress is being made. Altho defi-  
nite figures are not at present avail-  
able, John Cottam, in charge of the  
fund, believes that almost \$1,000 has  
so far been secured. The total amount  
required is in excess of \$8,000.

## U.F.O. STANDS FOR GOSPEL OF GREED

(Continued From Page 1).

Conservative party half Liberal in  
name, but Mr. Meighen appears to  
realize that the Liberal element in the  
party will move diluted, and what he  
asked is the national element in the  
National Liberal and Conservative  
party, and a candid speaker at the  
Conservative picnic at the Toronto  
Exhibition grounds said it was camo-  
ouflage, and he was right. In Ontario  
politics new and strange doctrines  
are being brought forward. The peo-  
ple understood the chagrin of the Con-  
servative party when it was defeated,  
and would not yield to a Liberal tri-  
umph, and the Tory lieutenant-gov-  
ernor would not call upon a Liberal.

Mr. Dewar said he had made a pro-  
test at the time, but it was not a per-  
sonal protest. It was a protest for the  
party that fought and won the elec-  
tion, and supported U. F. O. candi-  
dates to defeat a corrupt government.  
Mr. Carty, the U.F.O. representative  
for Senator Renfrew, would not have  
been elected but for Liberal support,  
and is equally bound to account to  
the Liberals in the riding as to any  
U. F. O. organization.

Mr. Dewar quoted a speech of  
Hon. Mr. Grant, minister of educa-  
tion, to the effect that the Lieutenant-  
governor had insisted on the U.F.O.  
assuming the task of forming a gov-  
ernment because the Conservatives or  
Liberals would not do so. That ad-  
mission, said Mr. Dewar, was a vin-  
dication of the protest he had made  
publicly in behalf of the Liberal party.

Class Government.  
Mr. Dewar turned his attention to  
the Farmer-Labor combination, which  
he called a duplication of the class  
idea of government. Mr. Drury calls  
it a people's party and Hon. Peter  
Smith the common people's party. But  
James Simpson issues a call for the  
formation of a national Farmer-Labor  
party. Opposed to them is J. J. Mor-  
rison, described by Mr. McKee in The  
Farmers' Sun as the mainspring of  
the movement from first to last. "He  
nursed it in the cradle and taught it  
to walk," Mr. Morrison says there  
must be a recall. As Mr. McKee puts  
it: "As for the talk of a people's party,  
the moment any member of the house  
feels ashamed of the banner under  
which he was elected, all we ask him  
to do is to go to the front and hand  
in his resignation. He is then at lib-  
erty to go out and run for a people's  
party, or any other party he likes;  
but he can rest assured that when he  
does the United Farmers will have a  
man in opposition to him. This is the  
declaration, according to The Farmers'  
Sun. Mr. Morrison and his friends  
made in Walker in defiance of the  
Drury government. Mr. Dewar ad-  
vised the people to beware of the  
strange doctrines of the class combi-  
nation. "Be not tossed to and fro  
and carried about by every wind of  
doctrine, by the sleight of hand men  
and cunning craftiness whereby they  
lie in wait to deceive."

Referring to Hon. Beniah Bowman's  
family private car, the travel of min-  
isters in airplanes, and Hon. Mr.  
Mills' exercise of patronage, Mr.  
Dewar said the Liberals of Ontario  
do not need new lambs for old  
from these gentlemen. The Lib-  
eral party will never consent to re-  
nounce its right as the truly repre-  
sentative party in the community to  
any class or classes who presume to  
represent those by whom they were  
not elected, and who misrepresent a  
large portion of those who voted for  
their election.

## ILLINOIS GOVERNOR WILL BE SPEAKER AT EXHIBITION LUNCH

Is Prominent Farmer and  
Famous American Author-  
ity on Live Stock.

### FRIEND OF BRITAIN

Governor Lowden of the State of  
Illinois has been invited by the direc-  
tors of the Canadian National Exhibi-  
tion to be the speaker at the luncheon  
on American Day. Governor Lowden,  
himself a prominent farmer and one  
of the most noted authorities on live  
stock in the United States, has been  
instrumental in extending many  
courtesies to Canadian visitors to the  
International Stock Show at Chicago.

He has been possibly best known to  
Canadians during the past few years  
thru his consistent admiration of  
British and Canadian war effort,  
which led him to throw the whole of  
his political weight at all times con-  
siderable, in favor of active pro-Ally  
participation. At the recent Republi-  
can convention he was one of the  
presidential possibilities and was not  
beaten until well down in the lists.

All Space is Taken.  
"It is difficult to convince people  
that every inch of our space is al-  
ready taken," declared Publicity Man-  
ager Joseph Hay yesterday.

Mr. Hay stated that countless in-  
quiries were received daily from ex-  
hibitors and concessionaires desirous  
of space, but that in spite of increased  
accommodation, they were unable to  
grant another application.

Exhibitors who have been allotted  
space have in several instances al-  
ready commenced work on their ex-  
hibits. An army of painters, carpen-  
ters and electricians are at present in  
possession of the various buildings  
and are engaged in work for both pri-  
vate concerns and the Exhibition  
management.

The parks department is giving  
careful attention to the beautifying  
of the grounds and all workers are giv-  
ing particular attention to the direc-  
tors of the management that the  
mammoth Exhibition plant is to be in  
full readiness for the reception of the  
public on the opening day.

In addition to assembling the large  
selection of motor cars ever gath-  
ered for the transportation building,  
the directors are giving further recog-  
nition to the present vogue of the  
automobile by providing parking ac-  
commodation for several hundred cars  
at the southwest end of the trans-  
portation building. It is believed that  
this will relieve the shortage of ac-  
commodation for motorists that has  
been increasingly apparent during the  
past years.

## MAKING MUSKOKA RESORT FOR WINTER

Charms of District Are Re-  
garded as Calculated to  
Appeal to Tourists.

That Muskoka hotel proprietors are  
awakening to the possibilities of ex-  
ploiting Ontario's famous summer  
playground as a winter resort is in-  
dicated in the announcement by sev-  
eral that, commencing this winter,  
they will endeavor to keep their win-  
ter round. This action has been con-  
templated by resort-keepers for the  
past several years and the exchange  
situation is said to be the principal  
factor in inducing them to inaugurate  
the experiment. It is expected that  
the discount on Canadian money will  
deter many of those who have cus-  
tomarily patronized the winter resor-  
ts of the Adirondacks and Catskills,  
while Muskoka's native charm is re-  
garded as capable of appealing to the  
many Americans who will welcome  
new scenes of winter activities.

Physicians have for the past sev-  
eral years censured the winter climate  
of Muskoka, and it was largely as a  
result of their recommendation that  
Gravenhurst was chosen as a sani-  
tarium centre. None of the resorts  
will, of course, receive consumptive  
guests, but they will, nevertheless,  
cater to those whose nerves or system  
require a general building up by out-  
door life, in one of the most bracing  
atmospheres that the continent af-  
fords.

### FOR HARBOR INSPECTION.

Ward Two Ratepayers' Association  
have chosen the following delegates  
for the trip of harbor inspection to  
be taken today on the Bethelma: Miss  
E. Frawley, M. Crosbie, Elgin Schoff,  
David Robertson and Roy J. Tanner.

### CHARGED WITH SHOPLIFTING.

Victoria Owen, Hamilton street;  
Alice Robinson of Thistledown and  
Mary Moffatt of Halifax were arrest-  
ed yesterday afternoon in downtown  
departmental stores by Detectives  
Stewart and Elliott on charges of  
shoplifting.

### FELL FROM STREET CAR.

Falling from a street car at King  
and Roncesvalles avenue last evening,  
Mrs. Thomas Willis, aged 60 years,  
fractured her thigh. She was taken  
to her home at 6 Windermere avenue.

## NARROW ESCAPES IN AUTO CAR MIX-UP

J. S. Wallace, of the Studebaker  
Sales Co., had a narrow escape from  
serious injury last night when he  
crashed into a royal mail automobile  
at the corner of Cottingham street  
and Avenue road. Mr. Wallace was  
proceeding up Avenue road when a  
royal mail auto turned out from Cot-  
tingham street. He could not stop  
in time to avoid an accident, and  
crashed into the mail auto, knocking  
it into Dr. Austin Evans' car which  
was standing in front of his house.  
Mr. Wallace then turned to the  
right and ran up on Dr. Evans' lawn  
and crashed into the house. His car  
had the front axle bent and front tire  
punctured. The mail auto, which was  
driven by J. Andrews, had the radiator  
badly bent, the steering gear  
broken and the body smashed. Dr.  
Evans' car had the rear mud guard  
smashed. The drivers of both cars  
were badly shaken up.

### COSTLY GLACE BAY FIRE.

Glance Bay, N.S., Aug. 4.—A fire oc-  
curred at Glance Bay last night when  
the department store of the McEwen  
Brothers was destroyed. The cause  
of the fire is unknown.

## DISCUSS STATUS OF SKILLED CLERKS

Company Official Considers  
Law of Supply and Demand  
Should Fix Wages.

The main subject which came under  
consideration at the sitting of the  
board of arbitration, held yesterday to  
inquire into the wage dispute between  
the Toronto-Niagara Power Company  
and their employees, was the status of  
the skilled clerks employed in the  
stores department.

E. H. McDougall, assistant manager  
of the company, opined that the men  
had been treated fairly, that they had  
received increases amounting to 55  
per cent. since 1914; that the company  
considered it was paying the market  
rate for wages, and that if the men  
did not like their jobs they could go  
elsewhere. Witness further consid-  
ered that wages should be determined  
on the law of supply and demand

and that the question whether a man  
was married or single should not  
enter into the question.

Mr. Beasley, purchasing agent and  
general stores manager for the com-  
pany, considered \$24 a week too much  
pay for a man employed 55 hours per  
week.

Mr. Bancroft: "Do you consider 52  
cents an hour sufficient remunera-  
tion?" Mr. McDougall replied in the  
affirmative and reiterated what the  
company considered was the law of  
supply and demand, which John Mun-  
roe, president of the Machinists'  
Union, declared was "the law of the  
jungle."

Mr. McDougall took exception to  
classifying a meter boy as an elec-  
trician, declaring that he was simply  
a messenger and that women were  
employed to do this class of work in  
many places in the States. The pro-  
ceedings then were adjourned.

### GIRL DISAPPEARS IN AMHERST.

Amherst, N. S., Aug. 4.—The disap-  
pearance of Leona Oleson, an eigh-  
teen-year-old girl, who came to Am-  
herst from Northport recently, is caus-  
ing anxiety. The girl registered at  
the short course of instruction that is  
being given to prospective school  
teachers at the Amherst Academy. She  
was last seen on Tuesday, July 27.

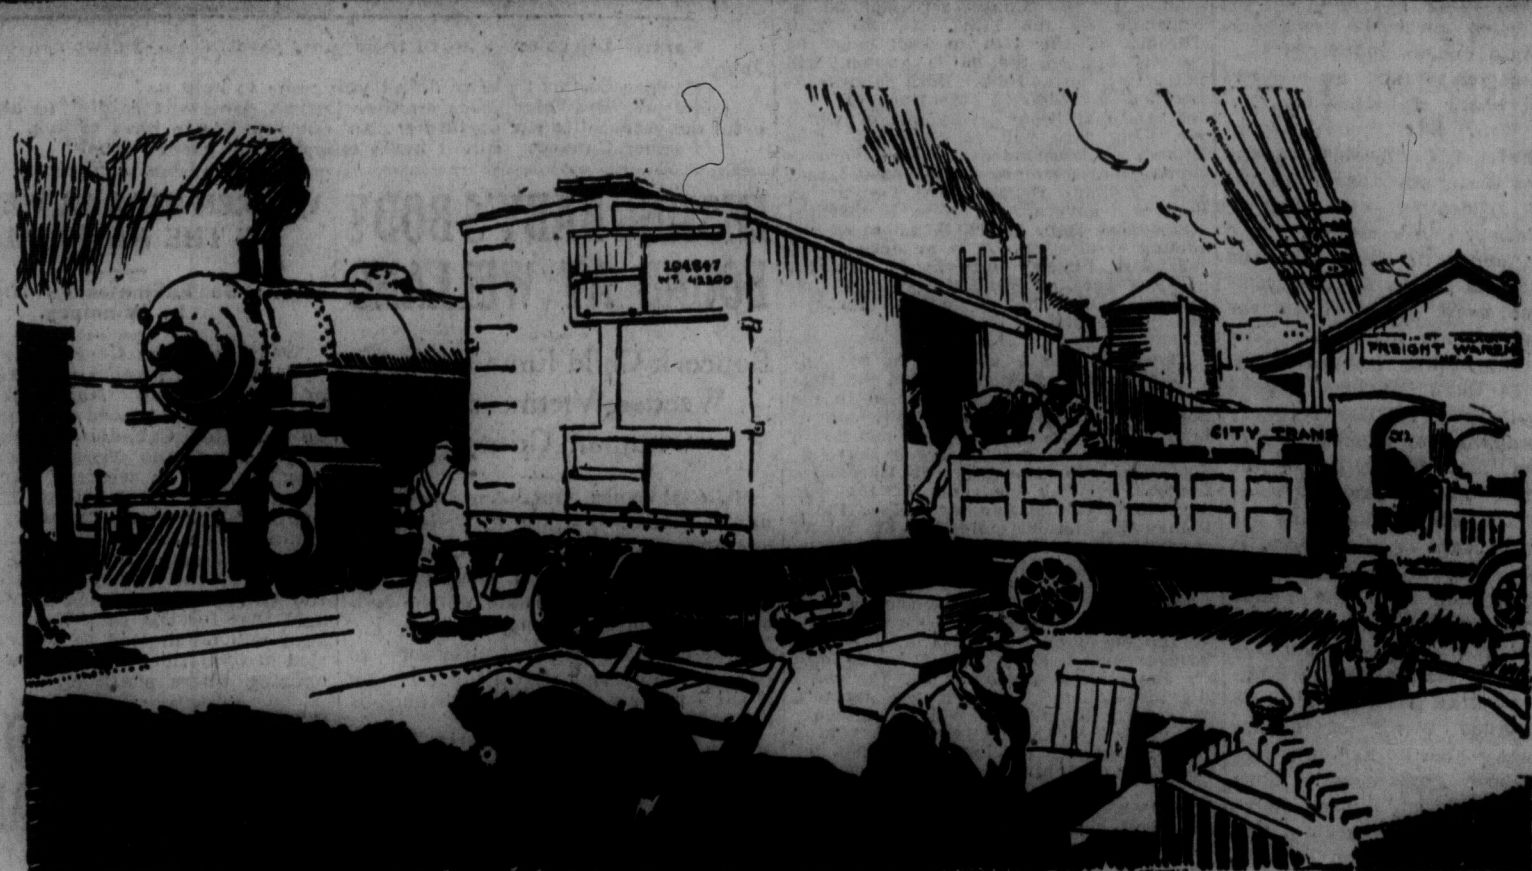

## WORK AMONG BOYS IS SAME WORLD OVER

"Boys are boys all the world over  
and work among them is not very dif-  
ferent here to what it is in South  
Africa," said Hope Morgan, who is in  
charge of the Working Boys' Home, in  
addressing the Kiwanis Club at yes-  
terday's luncheon at the King Ed-  
ward.

Mr. Morgan spoke of the early days  
of the home, and said 66 of the old  
boys had enlisted in the war, and he  
knew of three, probably among others,  
who had made the supreme sacrifice.  
If they could make all the boys good  
citizens they would do a noble work.  
The appeal of E. C. Read, chairman  
of the Big Brother Movement, for as-  
sistance for three lads—two of whom  
were in trouble—met with the desired  
response.

### RAISE REGINA CAR FARES.

Regina, Aug. 4.—By a decision of  
the city council last night, Regina  
street car fares will be advanced  
Wednesday morning to ten cents  
cash, two tickets for fifteen cents,  
four for 25 cents and 17 for one dol-  
lar. A motion to establish a work-  
ingmen's ticket was defeated.

CANADA anticipates a  
period of growth.

Her raw materials remain the  
envy of her competitors.

She commands capital and  
skilled workmanship.

Her position in the British  
Empire gives her prestige and  
opportunity.

But whether she realizes her  
hopes fully or only partially  
rests to no small degree upon  
her steam railways.

CLOSER to Orient or Europe  
than is any other part of the  
New World, Canada would  
lose this advantage if her rail-  
ways proved unable to carry  
her goods quickly to these  
well-placed ports.

She must be prepared for any  
development of traffic east-  
bound or west—or south.

HER rail service must be  
elastic and dependable. It  
must have reserve capacity,  
whether to roll a bumper  
wheat crop east, or some other  
Canadian product west-  
bound for Siberia or the  
Antipodes.

Elasticity, dependability and  
reserve capacity are pro-  
foundly affected by the over-  
whelming increase in operating  
expenses as compared to  
revenue.

This is another reason why  
increased freight rates are  
necessary in the public  
interest!

This is the seventh of a series of advertisements published under the authority of  
The Railway Association of Canada
