

**ARE ABOUT READY TO JUMP
CABINET WINDS UP O-DAY**

Expected That Mr. Whitney Will Be
Summoned by Lieutenant-Gov-
ernor Monday.

"We are just about at the jumping-off point," observed Hon. A. G. MacKay at the close of yesterday's meeting of the Ontario cabinet. But neither Mr. MacKay nor any of his colleagues were able to say just when the jump would be taken.

Another cabinet meeting will be held this afternoon. It will be the last of the old regime and there is every reason to believe that Mr. Whitney will be summoned by Lieut.-Gov. Clark on Monday. If this program is carried out, it will submit the names of his colleagues to the lieutenant-governor on Tuesday.

It was stated that no new matters were being taken up by the government, but that in fairness to the coming cabinet the present ministry are making an effort to close up all the items that have been pending for some time. These matters the ministers are familiar with, and if left over for the new ministry would involve unnecessary work for the ministers to be.

OPERATION ON MISS FIELDING.

(Canadian Associated Press Cable.) London, Feb. 3.—The operation performed by Dr. Lorenz a few days ago in Vienna, on Miss Fielding was carried out successfully, and excellent results are hoped for, "but," as Mr. Fielding says, "time will tell."

"During my stay in Austria," said the finance minister, speaking to the Canadian Associated Press, "I was a study of conditions respecting emigration from that country, and had very satisfactory interviews with the authorities. I also visited Budapest for the same purpose in relation to Hungarian emigration. Mr. Lorenz accompanied me there and I was very much interested."

Consumption Impossible.

You'll never develop consumption if you inhale Catarrhine. Why, it kills the germ instantly, cures catarrh and throat trouble like magic. For coughs and colds there is nothing equal to Catarrhine. Used in hospitals, prescribed by doctors, endorsed by thousands. Catarrhine never fails. It cures the catarrhine—its the best. The complete one dollar outfit is guaranteed to cure, and costs 31 sample size twenty-five cents, sold everywhere.

Beer at O.A.C.

If, Nothing, a Beer, who has been in charge of an experimental farm established by the Orange River Colony government at Bloemfontein, has arrived in Toronto and will take a course of instruction at the Ontario Agricultural College at Guelph. He is called on Hon. John Dryden yesterday.

Young Student Passes.

Bellefonte, Pa., Feb. 3.—The death occurred this morning of Angus Prince, the only son of Henry Prince, unsuccessful Liberal candidate for West Hants, N.S., who was 20 years of age, had been for a couple of years a student at McGill University. He was a very amiable and well liked young man.

Death From Poisoning.

Chicago, Feb. 3.—One death and four cases of illness have been caused by a poisonous substance in canned tomatoes. All the sufferers are members of one family, the wife of George W. Smith, of Chicago, who died in a hospital. The cause of death is Mrs. Kate Smith, 50 years old, who died in a hospital. The cause of death is Mrs. Kate Smith, 50 years old, who died in a hospital.

**Treated by Three Doctors
for a
Severe Attack of
Dyspepsia,
Got No Relief From
Medicines, But Found It At
Last In
Burdock Blood Bitters.**

Mrs. Frank Hunt, Morrisburg, Ont., was one of those troubled with this most common of stomach troubles. She writes:—"After being treated by three doctors, and using many advertised medicines, for a severe attack of Dyspepsia, and receiving no benefit, I gave up all hope of ever being cured. Hearing Burdock Blood Bitters so highly spoken of, I decided to get a bottle, and give it a trial. Before I had taken it I began to feel better, and by the time I had taken the second one I was completely cured. I cannot recommend Burdock Blood Bitters too highly, and would advise all sufferers from dyspepsia to give it a trial."

MINE EXPERT INJURED.

Frank Cochrane, mentioned for Cabinet Portfolio, Lost Right Leg.

Frank Cochrane, a well-known mining expert of Sudbury, met with an accident Thursday by which he lost a leg. He was returning on the Soo Express from Toronto and alighted at Wabush, N.B., to go to a meeting. He was on the train when it started, and he fell, holding on to the coupling pins as he fell, holding on to the wheels. He was dragged 100 yards before the train was brought to a stop. At the hospital at Copper Cliff he right leg was amputated below the knee by Dr. Gibson, Webb and Howey.

Palma's Colleagues Resign.

Havana, Feb. 3.—All five members of the cabinet visited President Palma yesterday and presented their resignations. He stated that they desired, since President Palma had announced his resignation, to resign with him. He said he would accept their resignations, but would not accept their resignations until he had accepted his own. He said he would accept their resignations, but would not accept their resignations until he had accepted his own.

Chills, Colds, Pleurisy.

Dressing lightly, exposed to draughts, cold is easily taken. Give twenty drops of Nervine on hot water at once. Cold and warmth will be restored, and pleurisy, inflammation or congestion will be cured. Sufferers should break up their beginnings at once. If you only knew what a great remedy Nervine is, that it cures the time stronger than other liniments, more penetrating, more pain subduing, you would not be without it. Ninety-nine sicknesses out of a hundred can be prevented at the very beginning by the use of Nervine. Sayes does the great pain-saver of the age in use 50 years.

Gorki Still Locked Up.

St. Petersburg, Feb. 3.—(5.30 p.m.)—The report of Maxim Gorki's release is incorrect. He is still in prison. He is still in prison. He is still in prison.

**OUR STUDIES NOT FRILLS
STILL FAR BEHIND ENGLAND**

Inspector Hughes Presents the Course
Prescribed by Best British Educa-
tionists for Local Consideration.

Inspector Hughes writes The World as follows: "As there has been some discussion in the papers recently about the course of study in the public schools, and some papers object to what they call 'frills,' because they think we have introduced from the United States, I request permission to explain that we are not at all ahead of the schools of Europe in these matters. Indeed, we are yet far behind the English schools in music and in manual training and in the domestic science. The following is the last decade for elementary schools issued by the board of education of the British government:

The education given in every public elementary school should be based on a graduated course of instruction, suitable to the age and capacity of the scholars, in the following subjects: (1) The English language, including speaking with correct pronunciation; reading aloud with intelligence and clear enunciation; writing, oral and written composition, and grammar. At each stage recitation of pieces of literary merit should be practised. (2) Arithmetic, including practice in oral and written descriptions of the processes used. (3) Knowledge of the common phenomena of the external world, with special reference to the formation of the habit of intelligent and accurate observation, and to the application of that habit, in conjunction with simple forms of experiment, in the daily life and surroundings of the scholars. (4) Geography, advancing from first notions to an outline knowledge of the chief physical features of the earth, and especially of the British Isles, and the British dominions beyond the seas. (5) History, comprising a general knowledge of the great persons and events in English history and of the growth of the British empire. (6) Drawing, including drawing from actual objects, memory drawing and brush drawing, together with other simple hand and eye training. (7) Singing, which should, as a rule, be taught by note, and should include practice in proper breathing. (8) Physical exercises, according to an approved system. (9) Plain needlework, for girls, including in the later years lessons in cutting out. It will be seen that the highest educational authorities in the British empire are in perfect harmony with the educational department of Ontario and with the Toronto Board of Education in the course of study.

Chills, Colds, Pleurisy.

Dressing lightly, exposed to draughts, cold is easily taken. Give twenty drops of Nervine on hot water at once. Cold and warmth will be restored, and pleurisy, inflammation or congestion will be cured. Sufferers should break up their beginnings at once. **CIGARETS AND PARTY PLAYS
THERE MAY BE A CRUSADE**

Moral Reformers Elect Officers and
Appoint Committees to Re-
port on Certain Evils.

Yesterday afternoon's meeting of the Municipal Reform Association in the Temple Building was so well attended as to indicate growing strength on the part of that body. There were about thirty persons present, the ministerial element predominating. The first business attended to was the appointment of provisional officers. Dr. B. E. McKenzie being chosen president, O. E. Henderson, secretary, and G. Tower Ferguson, treasurer. The following were also named to form with the above an executive committee: Rev. J. J. German, Rev. A. T. Sowerby, A. M. Featherston, J. N. Lake, Rev. S. S. Bates, Father Minehan, Canon Welch, Rev. J. A. Turnbull, Rev. John Neil and Rev. J. M. Pedley.

The balaclava cigarette furnished the subject for some forcible remarks by Rev. Dr. Speer, who suggested the placing of an annual tax of \$100 upon their sale by local dealers, as a measure for lessening the evil. Such a tax would be practically prohibitive. Dr. Speer declared that there would be tobaccoists who would welcome such a measure. A dealer to a large extent in cigarettes had spoken to him in deprecatory way of the growth of the cigarette habit.

EXAMINE YOUR URINE

It's an unfailing test of kidney disease. If your morning urine, on standing 24 hours, contains a sediment, is cloudy, or shows floating particles, your kidneys are seriously diseased and must be treated at once. There is only one remedy that can be used with absolute safety and confidence—Warner's Safe Cure, sold at all drug stores, \$1 a bottle.

TRIAL BOTTLE FREE

To convince every sufferer from disease of the kidneys, liver, bladder and blood, that Warner's Safe Cure will cure them, a trial bottle will be sent absolutely free, postage to any address. Also free doctor's advice, to any address. Also free doctor's advice, to any address.

THE BRIGADIER RETIRES.

Brigadier Archibald of the Salvation Army has retired after 20 years' service, in which he rose from the ranks and served in the Boer War. He has been in the Dominion government by his successful work in connection with the Army's work among prisoners.
