Round the Golf Clubs

Busy days are these amongst the fifteen hundred golfers of Toronto. The unprecedented spell of fine weather has tempted enthusiasts in plenty to their favorite links. Not by the way, that they need much tempting after the absence from their pet pastime, but with April weather emulating that of June, the number of devotees anxious to take part in the ancient and honorable game has increased in proportion. Not a club in or out of the city but has been well patronized by keen players, and in many cases, temporary greens are the order of the day. Games galore have been played, with all the keenness which characterizes the golfer at the commencement of the season.

Toronto Golf Club
Out at the links of the Toronto Club only the absence of foliage on the trees reminds the observer that summer has not yet arrived. Already the first monthly handicap has been played, R. Campbell carrying off premier honors.

Here, temporary greens are being used, but in two weeks' time the others will be ready for play.

The members are using a new style of club which is worthy of more than passing mention. Possessing the happy title of "Dreadnaught," the club, which created quite a furore amongst golfers in the west, was introduced last year and combines the functions of a brassie and driver.

The club is constructed with a triangular wedge of compressed paper, which is pegged in securely by a wooden peg. A three-cornered small brass plate, fastened on by three screws, completes this latest invention.

With those who have used it, the club has become most popular, and undoubtedly will henceforward form part of the paraphernalia of the up-to-date golfer. The club is made of a material which is always productive of keen interest, is scheduled on the second Saturday in May.

At Rosedale Links
Rosedale members have been trying out their new course at Rosedale Links since the opening of the regular greens are in service, and with a continuance of the weather, the club is expected to be ready in less than a fortnight.

As a matter of fact, all the new greens are in excellent shape, but as they were only seeded last year, the soil has scarcely had time to settle, and the club is expected to be ready to play on them at present. The medal competition commences on the second Saturday in May.

The North Toronto Club
From Rosedale to that young and thriving organization, the North Toronto Golf Club, is no distant cry, and the club only sprang into existence last year. The club is expected to be ready to play on them at present. The medal competition commences on the second Saturday in May.

At Mississauga
The executive of the Mississauga Golf Club has been hard at it for some time in their preparation for a record season.

Hitherto the members have been playing on a nine-hole course, utilizing the last five and the last four holes of the full course, but with the replacing of the second and third holes on the Credit River, play will be extended over the entire links.

The two bridges crossing the dry creek, which were carried away by drifting ice in the recent flood, have also been put in shape. Special attention was paid last year to the opening of the clubhouse of the committee in this respect has been amply rewarded for every green is in tip-top condition.

But at present, the 14th hole, which has been the subject of a burning controversy among the members, is some seek its application, others want radical modifications. The club is expected to be ready to play on them at present. The medal competition commences on the second Saturday in May.

THE C-A-R--F-R-E-E MAN

This is a picture of the sensible, healthy, car-free man. He avoids the crowded street cars at rush-hours by using a bicycle to and from the office. And in doing that saves the price of car fares and gets the exercise the doctor says we all require.

And this car-free man uses a wheel that makes his going absolutely pleasant—A wheel with the hygienic cushion frame and Hercules Coaster Brake and Sills Handle Bars—MASSEY SILVER RIBBON.

THE HYGIENIC CUSHION FRAME—If there is one invention more than another in the bicycle line that has helped to popularize wheeling, it's the Hygienic Cushion Frame. "Makes all roads smooth," is the slogan that carried it to popularity, and it has lived up to the advance notice. The Cushion Frame gives "Fullman Comfort" to bicycling.

Eastern League Gossip

The fans will soon be in their glory, for doesn't the Eastern League season open on Thursday, when the fastest minor league in baseball to-day will get away with the teams playing as follows: Toronto at Providence, Rochester at Newark, Montreal at Jersey City and Buffalo at Baltimore.

With the possible exception of Rochester and Newark, all the teams will have considerable changes from last year. The champion Rochester team are standing pat on their team of last season, although they have added pitcher Lafitte to the twirlers, and have secured Calber Blair to take Erwin's place, and Alperna to fill the vacancy caused by Simmons being drafted by Detroit. Newark will have Hughie Henne to do the catching and have added Gantley, the former Washington player to the outfield.

Our own Leafs will have quite a few changes. The securing of Shaw and Lebehan in the outfield making the Toronto trio in the Eastern League. True, both Shaw and Delehanty hit below .200 for the St. Louis Nationals last year, but they were with a tail-end team. Grimshaw should again hit over .300 this season and both the new acquisitions will be no doubt be over thereabouts when the official averages are handed out.

The Toronto infield looks at present to be the weak spot, but Deal is gradually coming to form and even in case he should be bad, Manager Joe can step in and play the initial bag as good as anybody in the league. Jimmy Mullen, the press despatches from the war front tell us will start off the season at second, and we are glad of that. Jimmy, perhaps, might have got into a little disfavor with the fans last year, but those who witnessed the last Rochester series here will remember the brilliant ball he played. Take Mullen off your team and we will win easily said a Rochester scribe who was here for the series. For Jimmy was grabbing up everything hit between first and second in the season. Jimmy was a bit erratic, but this was not to be wondered at, when Malling, his sidekick, for two years was going and for Jimmy was trying to steady him. The Leafs have no better batter besides Mullen, and that is what winning teams want. Vaughn looks to be slated for short and McDonald for third with Fitzpatrick doing the scrubbing.

The pitching staff with McGinley, Rudolph, Newton, and Smith as a nucleus, will start off in better shape than last year, and then Gurney or Corey may get round into Eastern League form. Only two catchers are on deck at present, Vandy and Tomeman, the latter said to be a coming star.

Buffalo has made radical changes in their team, having a new infield with the exception of Dave Brain. Montreal, with Barrow at first base, will show many new faces, but old ones to the Eastern League, although one or two new recruits will be seen.

Providence, whom Toronto meets on the opening day, will have Mike Waiday and Aiz of Chicago in the outfield along with Hoffman or Phelan. Jimmy Collins will guard third, Roy Rock, short, Harry Arault at second and long John Anderson at first. The pitchers will be: Lavender, Harry, Cronin, Sline, and two or three recruits, while Tacks Peterson and Fitzgerald will do the catching.

Jack Dunn has overhauled his Oriole outfit, having Goode and Walsh of Philadelphia in the outfield along with Jimmy Blagie. Bill Clancy will guard first base, Dunn second, Hill (said to be a star) shortstop, and Bob Hall third.

Jack Ryan of Jersey City is working quietly and helping for the big league to unload before the Eastern League race starts.

George Gano a Two-Minute Pacer

In figuring out the dope on the prospective two-minute pacers for 1910, the phenomenal little pacer, George Gano (2:03) looms up as one of the most likely candidates for honors.

In point of conformation and appearance he is one of the most attractive pacers on the turf to-day, having the style and flash of a show horse, combined with plenty of bone and substance. Wearing few boots and no hobble, Geo. Gano is rapid-gaited, with a stride as smooth as oil and machine-like. He was the leading money-winning pacer on the Grand Circuit in 1909, earning a total of \$14,308 during the season, and winning nine out of eleven races, his record being taken in his last race.

George Gano is a son of that great speed sire, Gambetta Wilkes (2:18 1/2), the sire of such other fast ones as Quintette (2:07), The Duchess (2:05 1/2), Credette (2:06 1/2), Lottie Loraine (2:04), Nancy B. (2:06 1/2), Cubahead (2:08 1/2), Erelot (2:10), Foxie Curd (2:07), The President (2:07 1/2), Gentle B. (2:08 1/2), Dr. Munson (2:10 1/2), and in addition to his rich experience on the sire's side, George Gano's dam is Credition (2:23 1/2), the dam of five with standard records, including Credition (2:05 1/2), thus making Gano an own brother to the latter mare.

After having shown a mile better than 2:10 as a three-year-old, being given a record of 2:04 1/2, George Gano was raced a few times as a four-year-old, his last race that season, in 1907, being at Columbus, where he finished clear up every heat to lead and won in the last time of 2:04 1/2, 2:03, 2:04. That winter found him consigned to an auction sale at Lexington, Ky., and Walter Cox, the shrewd New England trainer, was his purchaser at \$700.

In the season of 1908 Gano was up against those two whirlwind pacers, Minor Heir-a-Cox and The Best (2:02 1/2), at Kalamazoo the writer saw him pace a mile right at 2:06 in the race won by Minor Heir-a-Cox had given him a record of 2:15 1/2 over a half-mile track earlier in the season, and realizing that he was up against a tough proposition with Minor Heir and the fast Canadian pacer, he wisely drew him out of his late race that season, going into winter quarters acknowledged the best stake pacer in sight for 1909. About this time several tempting offers were made for the fast stallion, and finally he accepted one, that made by three Pennsylvania horsemen—G. D. Timman of Williamsport, S. W. Gleason of North Bend and Barton Pardee of Lock Haven. The price was around \$2,000.

Murphy Gets Fast Pacer.
The horse was then turned over to Jimmy Murphy, the able New York trainer, and the remarkable success the latter scored with him in 1909 more than made good the confidence placed in his ability. Gano's initial start last year was made at Terra Haute, Ind., in a \$1000 stake. Star Patchen, the white-faced son of Joe Patchen, was the winner, with a record of 2:02.

George Gano a Two-Minute Pacer

Gano second, both heats in 2:03 1/2 and 2:07. The next start was at Windsor, Ont., where Murphy rode in front in straight heats, taking the opening of the Grand Circuit meeting in the \$5000 Cham. of Commerce Stake. Star Patchen carried a lot of the talent's money that day, as his followers were confident he could again defeat Gano. The latter was never in danger, however, and getting true line on his real speed and racing ability by stepping his miles in 2:04 1/2, 2:05. After taking the opening of the Grand Circuit meeting in the \$5000 Cham. of Commerce Stake, Star Patchen carried a lot of the talent's money that day, as his followers were confident he could again defeat Gano. The latter was never in danger, however, and getting true line on his real speed and racing ability by stepping his miles in 2:04 1/2, 2:05.

The \$3000 Edwards Stake at the Cleveland Grand Circuit meet had a small field, Gano's regulars causing many owners to draw their horses and start them in class events. But from the west here came Elmer K., listed as a bullock race horse, and the field ticket buyers decided to again play their money, at least odds, however, against Murphy and his money pacer. Elmer K. thrilled his backers by leading to the three-quarter in the opening mile, where Gano came up with a rush and in a whirlwind finish beat him to the wire in 2:05 1/2, the fastest recorded in a race. At Buffalo, Hartford and Byrnes, who has his race on the board and is a regular winner, had a good and a bad day, as he had to reduce his record to 2:04 1/2, taken at Detroit.

Off Day at Columbus.
He was entered in two stakes at Columbus and won the first one over a strong field, fastest heat in 2:04 1/2. Eight days later he was named to start in the \$5000 King Stake, and was a top-heavy favorite in the betting. But it was an off-day for him, and as the entire field were all fighting him, he had to be content with fourth money, also Darkey Hal, Major Brino and Major Mallow, the three chief contenders, had to stop two heats in 2:04 1/2 to beat him.

The stallion's final engagement was at Lexington in the \$3000 Tennessee Stake, and on the showing of his second race at Columbus, his backers got a good odds on him. There was a field of seven, and a good little race horse secured sweet revenge by giving them a decisive beating, his first and third heats being in 2:06, while Major Brino forced him to a halt only seven years old. George Gano must be counted upon as one of the strongest candidates in sight for a mile in two minutes or better before the close of 1910.

Horse Show Notes

Every day seems to promise better things for the Canadian and Military Horse Show, and with the opening still a week away, it is assured that it will be the greatest gathering of aristocratic people and well-bred horses Canada has ever seen, while horse show week will find the city a blaze of primrose yellow and navy blue in honor of the event that brings together the noblest of animals and their beautiful and distinguished patrons.

The show will be officially opened by Lieutenant-Governor Gibson, while His Excellency the Governor-General of Canada and Lady Grey will lend their presence and patronage, thus making it the function that all society is looking forward to. And the facts that the boxes were all sold within two hours of the opening of the subscription plan, while the committee have a dozen applications they are unable to fill, show that everybody who is somebody will be there. Numerous applications for reserved seats have also been received from outside the city, and when the plan opens at Tyrrell's on Thursday it is fully expected that everything in sight will be quickly taken.

Nor is it in the matter of attendance alone that the success of the show is assured. During the past week entries have fairly poured into the secretary's office. Every class is well filled, and every prominent stable from Montreal to London is represented. There are over one hundred exhibitors, and when it is known that many of them are bringing from twenty to forty horses each, some idea may be gathered of the total exhibit of horseflesh.

Neither is there any chance to doubt the quality of the horses. The names of the exhibitors are a guarantee that the horses that win in Toronto will be quite good enough to go to New York or the Olympia at London. Names like George Peppercorn, Crow & Murray, Toronto; Hon. Adam Beck, London; Hon. Clifford Sifton, Ottawa; Dr. Webster, Ottawa; Hume Blake, Toronto; Aemilius Jarvis, Toronto; Miss Wilks, Galt; Mrs. Meredith, Mr. Gulland and Mrs. Stewart, Montreal, are all that is needed to show that it will take the very best on the continent to win at Toronto.

The entries, too, are strong in those classes in which the general public take a particular interest. There are no less than seven entries of four-in-hands, two by professionals and five by private individuals; while six hunt teams make a record in that class that would rival Madison-square Garden proud. The show of jumpers, too, will be the finest ever seen on the continent, and there are predictions that some of the numerous entries will make the old, reliable, George Pepper and Crow & Murray look to their laurels. The light harness classes have also filled well, and with a very high class of horses. On the whole, the committee seem justified in their opinion that Toronto is about to see the greatest horse show week in her history.

PARAGON BASEBALL SCORE BOARD

The Paragon Automatic Baseball Score Board, the newest thing in baseball, will be in operation this summer at Massey Hall, when the Toronto baseball team is on the road, starting next Thursday, the day of the opening game at Providence. By an ingenious invention an invisibly suspended ball is operated from the rear of the board, in any direction, on a straight line, at any desired speed, and held at times under absolute control. Thus the original play is reproduced in as natural and vivid a manner as possible.

Another important feature of the position and progress of the base-runner is quite as successful. The board shows the runner's position, and in different designs. One design shows the runner safe, another, when a third shows the bases unoccupied.

All the plays that are made, such as strikes, balls, runs, out, passed balls, wild throws, muffed balls or fumbles, files caught, etc., are indicated by a system of movable designs, all of which are operated from the rear of the board, out of view from the audience. The list of players and their positions are conveniently displayed at either end of the board.

At the West End Y.M.C.A. to have senior and intermediate lacrosse teams in the C.L.A.? They want lacrosse players to play senior and intermediate C.L.A., and would be pleased to see any and all men who have not signed up yet, and are interested in lacrosse practice and organization on Monday night next at the Varsity Field.

SANTAL-MIDY

Standard remedy for Gleet, Gonorrhoea and Runny Eyes. In 48 HOURS. Cures Males and Female Troubles.

Cornwall Sports

CORNWALL, April 15.—The Cornwall Boat Club have elected the following officers for 1910: Hon. commodore, Judge O'Reilly; commodore, Dr. Ross Algrine; vice-commodore, Dr. Nichol; first vice-commodore, Sheriff MacKay; secretary, T. B. Fletcher; treasurer, G. A. Milten; executive, W. A. Stewart; J. B. Atchison; Dr. W. D. Knight; W. White. The season of 1910 promises to be even more successful than last year, and the members look for plenty of summer recreation and amusement, also a grand regatta.

Baseball is making forlorn hope struggle to get a foothold in Cornwall, and the local amateur league has elected the following officers: President, C. Degan; Nationals; first vice-president, H. R. Allen; Swastika; second vice-president, W. Malone; Maple Leaf; secretary-treasurer, C. Bates; Emeralds; Executive-C. Adams; Swastika; W. Lafleur; Maple Leaf; H. Mack; Emeralds; P. McAteer; Wanderers.

Don't forget the Saturday and Monday Specials in Spring Suitsing at \$14.75 and \$19.75. We honestly believe they are the greatest values in Toronto at the price. Men come from all sections of the city for these famous specials. Made to measure.
