TORONTO, Nov. 4.—Hon. Manning Doherty, whose firm, the Doherty, Eason Company, Limited, holds an option to purchase the Seagram distillery, stated that no company has been formed to buy the distillery, nor has anyone been engaged for the purpose of manager. He had nothing definite to announce. A morning paper carried a report that a deal involving the distillery was under negotiation and that W. B. Cleland of Hamilton had been invited to become manager in the event of the consummation of the transaction.

BRUSSELS, Nov. 4.—The Belgian budget for 1927, submitted to the cabinet yesterday by Premier Jaspers, contemplates a surplus of 1,500,000 francs. This will be devoted entirely to debt funding. The Premier told his ministers that it was necessary to cut down expenditures sharply.

This Took Smack Down a Peg

A young man has been trying his wit on his fellow-passengers in the train, and they were getting rather tired of it. When he came in the corner spoke up, they listened with interest.

"Here, young man," said he, "two persons were walking down the street. One was tall, the other short. The tall one was the short one's son, but the short one was not the tall one's father."

"That's impossible," said the young fellow, after puzzling for awhile.

"No, it's a fact," said the older man.

"What relation, then, was the short one to him?"

"His mother."

ACROSS CANADA

BERWICK, N. S. — Lightning, passing over this town before daylight, struck a chimney of the residence of H. D. Patterson, entirely demolishing it, knocking out the fireplace, tearing apart the kitchen stove pipe and stove, and tearing the telephone from the wall. Mr. and Mrs. Patterson suffered no harm.

UPPER STEWACKE, N. S.—Wm. Brown, of Eastville, is improving slowly after having been kicked by a colt, which he went to water after having skinned a wildcat, instead of a coon, as reported. The colt knocked him over and jumped on his leg several times.

TORONTO — When the burglar alarm in the premises of the Bank of Toronto set up a clamor, residents and pedestrians fled to the scene, in eager expectation of a battle between desperadoes and police. Search of the premises yielded no sign of burglars; and it was concluded that rats gnawing at wires attached to the alarm caused the uproar.

OTTAWA — Canada's automobile exports increased. In the last 12 months the value of these exports was \$40,706,948. In the previous corresponding 12 months the value of automobile exports was \$38,819,829.

OAKVILLE, Ont. — Polam Maxin, international champion Alfrede dog, is dead. He had completed dog shows all over the continent with remarkable success. Norman McKenzie, K. C. of Regina, Sask., was the owner.

BRANDON, Manitoba — Julian Gaucher, Cree half-breed, who was acquitted of murder, growing out of a lemon extract spree at Whitefish Lake, Alta., was sentenced to life imprisonment for wounding his brother-in-law.

WINNIPEG — Alderman Sam Carson, representative of the St. Boniface city council, and ex-Alderman D. C. McFee have traded houses. For Alderman Carson's residence on Eugene street, Norwood, the former alderman will exchange his own residence at 151 Horace street, Norwood. They were opponents in the last elections.

VANCOUVER — As aftermath of a fire which destroyed the house of her mother, near Alet Bay, sentence of two months imprisonment at Oakalla jail was imposed on Mrs. Cook, who is an Indian of the Nimpkish tribe, for drinking liquor on an Indian reserve. For supplying the liquor to her, Billy Hunt, an Indian, was fined \$20 and costs.

FEAR UNFOUNDED EARTH SETTLING

Dr. A. P. Coleman Sees Its Connection With St. Lawrence Earthquakes

OTTAWA, Ont., Nov. 4.—According to W. H. Collins, director of the geological survey branch, department of mines, there is no noticeable sinking movement in the North American continent. Mr. Collins asserts that there is always a certain amount of movement which takes place all over the world, more so in a mountainous country. As this country, there is a rising in the lowlands, but a sinking movement is general continuously in the high sections. The adjustment of the earth's surface is a natural year in and year out. No record of unusual sinking movements have been received at the geological surveys office.

According to Professor A. P. Coleman:

"The St. Lawrence valley earthquakes probably have some bearing on whatever is taking place, and there are two opposing theories as to the cause of the deposits of sediment that are constantly being made by the rivers that flow into the sea. But whatever changes are taking place are operating very slowly, and I don't think there is any cause to worry for a few more thousand years."

FISHERMAN FIRED AT IN MACHIAS, ME.

Believe Retreating Men Sought Money Received From Sale of Lobsters

MACHIAS, Nov. 4.—Samuel Wright, a fisherman living alone on Cross Island, one of the islands in Machias bay, had an unpleasant experience on morning last week when at dawn as he was making preparations to go and pull his lobster traps, he heard a noise outside his camp, and thinking it was his son who had come from the mainland, called for him to come in. Almost immediately as he arose there was a shot and a bullet penetrated the camp, coming in at one side and going out at the other, just missing Mr. Wright's head. He went to the door and could see the figures of two men making off, but at the gray daylight could not distinguish who they were. Shortly afterward he went to the Cross Island Life Saving station about one-half mile, and related the incident, but it meantime the intruders had had time to make their escape and no clue to their whereabouts was found. It is believed that robbery was the motive. Mr. Wright had just sold a quantity of lobsters and had a large sum of money in his possession in the camp.

TO OPERATE BUSES

Boston Street Railway Company Prepares For Strike

BOSTON, Mass., Nov. 4.—The Boston and Worcester Street Railway Company will continue its service by motor coach when its 200 operatives go on strike Friday, it was stated in a statement issued here last night by the company's receiver.

The statement declared that the demands of the motormen, conductors and other operatives who have elected to strike would amount to an increase in wages of \$100,000 annually through union contracts which could not be met by the company.

The men seek recognition of their union and charge that the company has blocked every effort they have made to gain its recognition by the railway.

HATES MOONSHINER

RENFREW, Ont., Nov. 4.—"The moonshiner, the man who distills death in a swamp, is the lowest and most detestable type of human being. He is a desperado and murderer rolled in one. I would have more mercy upon a man who brought a carload of beer into Renfrew and sold it openly, than I would have towards a moonshiner." These words were engendered into remarks by County License Inspector Haycock, in the course of an interview regarding the report that 30 stills were operating in this county at the present time.
