In a recent issue of the Aroostock Daily News, printed in Houlton, Me., a tribute is paid to the ability of Eddie McPartland, a boxer of this city, who recently knocked out "Cave Man" Martin of Benicidia. An article published was in part as follows: Eddie McPartland clearly demonstrated the fact that he carries a mule kick in either hand. Martin was knocked down twice in the first round before the knockout, and was carried to his corner. Eddie, on the other hand, was untouched, and vaulted over the ropes when Finley's hand fell for the fatal "ten." Eddie Mac certainly showed the fans that he is as clean, clever and as fast a boxer as ever stepped into a ring in Houlton. Boxers of this lad's stamp and caliber are sure to meet with the approval of the public. Followers of the game are looking forward to see this boy in action again real soon. Mac is willing to meet all comers in his class and weight and after looking him over in his recent bouts one can rest assured that the lad that steps into the ring with this boy will have to travel from Houlton to Genoa. With the prices of most of the essentials of life advancing daily by leaps and bounds, the government will have to act quickly if the mark is not to meet the fate of the Austrian krone and Berlin follow Vienna to ruin.

8,500,000,000 MARKS PRINTED IN A WEEK. Berlin, April 13.—The Reichsbank printing presses broke all records during the last week by putting 8,500,000,000 marks of new paper money in circulation. This makes nearly 140,000,000,000 paper marks outstanding. It is believed here the only reason the mark has not gone down to 400 or 500 to the dollar is the hope still placed in Genoa.
