

THE EVENING TIMES AND STAR, ST. JOHN, N. B., TUESDAY, MARCH 1, 1921

LOCAL NEWS

Charles S. Martin of St. John has been appointed railway mail clerk.

W. H. O'Dell, of 54 Bridge street, has been presented to the Natural History Society large metal souvenir of the marriage of Queen Victoria and Prince Albert on Feb. 10, 1840.

John J. Jennings of St. John and John McIntosh of Fredericton have been placed on the eligible list for senior clerk, department of trade and commerce, at an initial salary of \$1,320 per year.

Mrs. Lockhart, of 147 Union street, yesterday received word that her brother, Randall Gray in Vancouver, had been shot in the head and dangerously wounded. He is a member of the mounted police and a great war veteran.

The missionary committee of the Epworth League, of Exmouth street church, held an illustrated lecture on China last night. Frederick Myles was in the chair, and the slides were explained by Rev. F. Dawson.

An enjoyable assembly was held last evening by Carleton Union Lodge, No. 7, and A. M., when about one hundred were present. The committee was composed of H. S. Bisset, G. H. Allan, Fritz Brittain, D. F. Brown and J. W. Yles.

At a meeting of the Municipal Council of the I. O. D. E. yesterday afternoon

For real "honest to goodness" value you will use Red Rose Tea. The same good tea to-day as for over 26 years.

With Mrs. George K. McLeod in the chair, monthly reports were received and adopted. The secretary was requested to convey the good wishes of the chapter to the Family chapter, recently organized.

The Allenby club of St. Andrew's church last evening welcomed home their leader, Mrs. James McTavish, who has been absent for seven weeks. Rev. P. S. Dowling was master of ceremonies. A banquet was served by the ladies of the Beneficent Society.

The Dorcas meeting of the Women's Auxiliary of St. John's (Stone) church yesterday passed a vote of sympathy to Mrs. John A. McAvity in her recent bereavement. Mrs. Alfred Mortimer presided and those in charge of the tea

were Mrs. A. E. Flemming, Mrs. C. deForest and Miss Edith Skinner.

Before the Young People's Society of St. Paul's church, Archdeacon Crowfoot, last evening, gave an interesting description of the work of the great painter, Holman Hunt. The subject of the next lecture will be "Watts."

The city public works department has built a road from Lansdowne avenue across the old Shamrock grounds toward Adelaide street, for the purpose of hauling rock across the property. The suggestion has been made that this be made a permanent road.

Commissioner Jones has announced that horses in the water and sewerage department are a thing of the past. In the last few weeks all the horses of the department have been sold, doing away with the feed and shoeing bill. The work of the department is being successfully carried on by motor vehicles.

An eloquent contest was held last evening by the Young People's Society of Centenary church. The prize winner was Miss Calkin. Others who took part were Miss McAlpine and Miss Currie. The judges were Rev. Harry Charles, George A. Henderson and J. Hunter White. W. Grant Smith presided.

The Minnedosa Concert Party and Novelty Band gave a fine entertainment at the Seamen's Institute last night. Those who took part were: C. Casack, F. Baker, F. Lang, A. Daniels, L. Nolan, W. Haines, W. Calkins, P. Lacey, W. Powell, J. Walker, J. Jones and Miss F. Borden. Mr. Nickson, chief steward, occupied the chair.

MARINE NOTES

The Batsford arrived at London from St. John on Feb. 25.
The steamer Canadian Conqueror arrived at Calcutta on Feb. 20 from this port. She left here in December.
The Canadian Pioneer left Marseilles on Feb. 25 on the last leg of her voyage to this port from Calcutta.
The steamer Fangturm of the Houston Line is expected to sail on Thursday for the River Plate.
The steamer Fanad Head is expected to sail this week for Hamburg and Rotterdam.

VOCATIONAL CLASSES RE-OPEN

The vocational classes were re-opened last evening. Each pupil had received personal notification through the mail of the time when his or her class would begin again, and nearly all were on hand. The expense of the domestic science students is to be less than was at first estimated and pupils will probably have about half their fee returned to them.

"CRIME TRUST" DID \$12,000,000 BUSINESS IN CHICAGO IN 1919.
Henry B. Chamberlain Declares It Has Been Well Organized, Centralized and Commercialized.

Chicago, Feb. 28—Crime does not come in waves in Chicago, but is an established business and in 1919 the "crime trust" did a \$12,000,000 business in Chicago, Henry Barrett Chamberlain, director of the Chicago Crime Commission, told members of the executive club.
"It has been well organized, centralized and commercialized until it is as steady a business as any you gentlemen conduct," he said. "It is not the result of hard times, poverty or bad weather. It is just the plain choice of a majority of those who follow it as an occupation."
Methods of combatting crime in which he urged business men to take an active share, were explained by Mr. Chamberlain.

"The man or woman who believes that the existing criminal class can be tolerated and that 80 per cent. can be converted into useful citizens is a dreamer with faith in hope for the utterly impossible," he said.
The Crime Commission, of which he is operating director, is an organization backed by leading business men to keep check on the activities of courts, police and criminals, created in 1917 to investigate law enforcement.

DARING MEN AWAY THROUGH SNOW TO THE FAR NORTH OIL FIELDS.
Dawson, March 1—Arrivals from Mayo, the Yukon's silver metropolis, state that several parties have snowed on a long march over the snow to the Fort Norman oil fields. They travelled seventy miles up the Stewart River to Lansing, outfit there and then proceeded on their 800 mile journey to the McKenzie River.

U. S. SHIP DECISION

Washington, March 1—Merchant vessels which are the property of a friendly state or in its own service can be libelled in United States courts, so the supreme court ruled yesterday.
The opinion of the court was given in the cases of the Italian ships Pesaro and Carlo Poma, which had been libelled by shippers for damages resulting from losses to cargo. Decrees of the district court at New York dismissing the libel attachments were overruled.

DAIRY OUTPUT OF MANITOBA

It Has Considerably More Than Doubled Since 1912—Where Product is Marketed.

The 25,000 farmers engaged in dairying in Manitoba disposed of nearly \$16,000,000 worth of dairy products last year, according to the annual report of the provincial dairy commissioner. Milk alone was valued at nearly \$8,000,000; creamery butter at almost four and a half millions; dairy butter at over \$4,000,000; sweet cream at upwards of one and a half millions, and cheese at \$615,000.

"In the matter of disposal of creamery butter, this product," says the report, "found its way during the year into wider markets than ever before. While the great bulk of our butter was disposed of to Canadian buyers, both east and west, a large quantity was shipped to the United States markets, such as Chicago and New York, also to European countries."

The number of creameries in the province has increased from twenty in 1912 to fifty-three last year, and the output from less than 8,000,000 pounds to over 7,500,000.

NEW WONDER IN THE CLOCK WORLD

Chicago, March 1—Michael Bulka of Chicago has invented a remarkable astronomical clock which has attracted much scientific interest. In glass dome on top of it are a miniature sun, earth and moon whose movements duplicate those of those bodies in the heavens. The sun remains stationary, but the earth turns on its axis, the moon revolves around the earth, and both planets circle the sun. The globes representing the sun and moon are coated with phosphorus and show the night and days and the various phases of the earth's satellite. Eclipses of the sun and moon are clearly indicated.

The amazing thing about it is that the earth revolves every twenty-four hours, and the earth and moon take twelve months to complete their circle about the sun while marking off the four seasons. While these planetary movements are visible, a dial on the face of the clock records the changes in days, weeks, months and years. Another dial records time, as ordinary clocks do, in minutes and hours.
For all its complicated mechanism, the clock is of ordinary size and not too cumbersome to occupy the customary place on a mantelpiece.

SAYS WEST IS THE COAL FIELD

Montreal, March 1—That western coal is the guarantee of our national independence was the declaration made at a Canadian Club informal luncheon yesterday by F. W. Gray, editor of the Canadian Mining Journal. He said that in the west lies the future workshop of Canada, and that Canada had 17 per cent. of the world's supply and 71 per cent. of the empire's supply of coal.

The maritime provinces contained 0.7 per cent. of our coal reserves, he said, all good bituminous coal, while the western fields contained the balance.
