Eight members of the cabinet, including Botha and Sauts, will be present and it is probable that efforts will be made to patch up the differences, but the opinion prevails that Botha will neither resign nor consent to Hertzog being received again into the government of the party fold. Hertzog has a small but determined following, but it is believed that Botha will carry 75 per cent of the congress.

The main floor of old St. Paul's, which is now covered by seventy-eight monuments, cannot accommodate more, the dean and chapter announce, and any more additions would encroach on the space required for worship. Daily hundreds of visitors pass over the floor examining the monuments and reading inscriptions over such men as Dr. Johnson, Sir John Moore, John Howard, Henry Hallam and Sir Arthur Sullivan. NECKTIES TO MATCH THE COLOR OF YOUR SOUL

Perhaps some men would have difficulty in choosing the right color—but if they consult the advertising columns of their local daily newspapers like The Telegraph and Times, they will find guides to an infinite variety of neckwear. Men's styles are becoming, each year, a more and more important factor. Maxims and dealers study them more closely. There is more news to tell.
