St. Stephen Defeats Fredericton.

Fans were given a great treat last evening when they witnessed a thrilling and fast game between St. Stephen and Fredericton on St. Peter's Park. The border town boys administered a cost of white-wash to their opponents winning by a score of 2-0. Shields for the winners with his best underhand and side arm delivery had the Fredericton batters baffled and fanned thirteen. His work with men on was especially noteworthy. Paynter for the capital team also pitched a good game and like his opponent allowed only four hits, but his support at critical times was wobbly and this with timely hits by his opponents resulted in his defeat. A large number of fans were in attendance and thoroughly enjoyed the contest.

The St. George's took the lead in the City Senior Amateur League when they trimmed the Commercial in the West End diamond last night to the tune of 5 to 0. FOOTBALL.
Accept Challenge.
The St. John S. O. R. Football Club has accepted the challenge of the Central Athletic Association for a game of association football on Labor Day, to be played on the Allison grounds, kick-off at 3 p.m. These teams have been doing a good deal of practicing during the last few weeks and a good game is assured.

British Matches.
London, Aug. 31.—Association football league games played yesterday resulted as follows:
First Division—Sunderland, 1; Liverpool, 10.
Second Division—Crystal Palace, 0; Coventry City, 0.
Third Division, Southern Section—Exeter City, 1; Brighton and Hove Albion, 0. Reading, 4; Swansea Town, 4. Watford, 0; Millwall, 0.
Scottish League—Airdrieonians, 4; Raith Rovers, 0.

ATHLETIC.
Harold Lapere Wins.
The five mile road race, which was conducted on the west side last evening under the direction of St. George's Amateur Athletic Club, excited much interest and was declared by everyone in connection with the event to have been a great success. The weather man could not have been more kind for the occasion, his product last evening being in sharp contrast with what has been handing the citizens lately. The roads along the route of the race were in exceptionally good condition.

Harold Lapere, star runner of the St. John Commercial Club, won the race easily, although he started two minutes behind the first men to start. Lapere's time was twenty-one minutes and thirty-one seconds. Earle Friars, Sussex A. At 7.45 o'clock Fowler Perry and Craig started and were followed by Jones and Yeomans twenty seconds later. George Sprague started ten seconds after Jones, and Yeomans and Harold Leclair and Earle Friars followed fifteen seconds behind Sprague, just one and three-quarters minutes ahead of Lapere, the only man on scratch. The route of the race was from the Queen square to Lancaster Heights, to Fallowfield, and the Manawagangish to Manchester's corner, turning there and coming back to Queen square by the same route.

Two silver medals have been donated for this event, one by M. E. Agar and the other by J. Firth Britain. One medal was to be given to the man who made the fastest time in the race and the other was to go to the contestant who came in first. Provision was made that should one man come first and also have the fastest time the second medal would be given to the second man in the race. Thus, although Lapere made the fastest time and also came in first, he will only get one medal, the other going to Friars. It is fairly well understood that an organization in the city will donate a cup for this event, and it is expected that the race will be run yearly for the trophy.

The officials at last evening's affair were: Starter, A. W. Cory; Judges, E. H. Vickers, Sussex; A. W. Cory, Captain A. J. Mulcahy and Lieut-Col. Norman McLeod; timers, Frank White, Kenneth MacRae, Lieut-Col. Norman McLeod; clerk of the course; P. J. Legge; referee, Kenneth MacRae; medical examiner, Dr. F. L. Kenney.

TENNIS.

The match is expected to be a play, Johnson playing Patterson, while Tilden will meet Anderson in that order.

AQUATIC.
Postponed Channel Swim.
Dover, Aug. 31.—Henry Sullivan of Lowell, Mass., and Charles Toth of Boston, who intended to start last evening in an attempt to swim the English Channel from Dover to the French shore, postponed the swim until today on account of a strong wind which was blowing at the time they intended taking to the water.

Dinghy Championships.
Halifax, N. S., Aug. 31.—The maritime dinghy championships will be held here on Friday and Saturday under the auspices of the Royal Nova Scotia Yacht Squadron. If a third race is required it will be sailed on Monday.

There will be no St. John entries in the race.

RING.
Carpenter to Retire.
Paris, Aug. 31.—Announcement comes from London that Georges Carpentier, European champion, will retire definitely from the ring within six or eight months. This has created only mild interest, as Carpentier is not the idol of old among the fight fans, who rightly or wrongly charge him with snobbishness and an exaggerated ego.

THE MARITIME CHAMPIONSHIPS

Entries to Close on Saturday for Competitions a Week Later in Halifax—No St. John Names Yet.

Official entry blanks for the Maritime Branch of the Amateur Athletic Union of Canada track and field championships sports, which are to be held on the Wanderers' grounds in Halifax on September 9, have been received in this city along with display advertisements giving details of the events to be held. The entries are to close on September 2 and all communications must be sent to G. H. Liddell, business manager of the Wanderers A. C.

The Rotary Club of Fredericton is sending Seely to participate in several events, but so far there has been no announcement of any St. John athletes going to represent any local clubs. No organization in the city appears to have become organized for field sports and there has practically been only one field meet here this summer. Until there is more definite organization for field sports there will of course be difficulty in securing funds for sending men abroad. This is a matter that ought to receive some attention before next year.

(Halifax Chronicle.)
The maritime track and field championships which will be held at the Wanderers' Grounds on Sept. 9, promise to outshine any track meet held in the maritime provinces since the war. The officials are receiving entries for different events every day and a big string of performers, including the best talent in the three provinces, will be on hand to answer their names to the clerk of the course when the big meet gets under way.

The programme will include all the standard athletic events usually associated with championship track meetings. Everything from the "Hundred" to the pole vault will be on the card, and specialists in every event will be on hand to challenge for or defend titles.

Some followers of track athletics seem to think that several records will be broken, but the only one that is at all likely to be smashed is the hammer throw. Parker Hooper's 50% for the quarter" ought to stand, and "Billy" Rose's 1.59 for the half will take a lot of beating. The hundred mark of ten seconds might be equalled but it will not be improved. Frank Stephens' 22 seconds for the 220 will certainly stand up against even the best competition in Canada, and there is not a lot of danger threatening Freddy Cameron's 26 min. 1 and 4-8 secs. for the five miles. The bicycle marks look good to stand, and unless Len McLeod of Pictou comes back and does it himself the pole vault will not be broken.

The "dope" says that the New Brunswick entries are likely to shatter several jumping records, but when the figures that grace the board at the present time are carefully noted it will be seen that there will have to be some awfully good jumping if they are to be equalled let alone beaten.

MAKES GRAMOPHONE BREATHE LIKE MAN
Inventor Has Machine Which Will Synchronize Movies

London, Aug. 31.—A gramophone that "breathes" like a human being is shown here for a scheme of synchronization of motion pictures with the talking machine. Its invention is claimed by E. H. Verity, who long has been trying to find a method of synchronizing the two.

In discussing it he says: "After experiments lasting over fifteen months, I realized that the gramophone must breathe in order to get the proper effect. I employ an ordinary sound box which is attached to a tone arm, at the end of which is fitted an amplifying chamber, or throat. In this throat is fitted an electric element and a suitable arrangement of holes induces a draft which is so placed that the entire apparatus works under conditions similar to the human throat, while speech is in progress."

Birmingham Age-Herald.

A young lad named Duplissier, of Duke street, west, had a narrow escape last night when he fell from a scow at Wiggins wharf. He was rescued by John McCausland, 181 Queen street, west, the caretaker of the scows. Mr. McCausland was informed that the lad had fallen in, and at once jumped in and held the lad up until aid came. Ten years ago Mr. McCausland rescued a lad named Bilsard at Wellington Cove, near Blue Rock.
