## "THE JEWEL:"

A Collection of SUNDAY-SCHOOL HYMNS and SONGS selected from all the Books now in use!

TWO years ago we put forth the GEM, in which the principle was adopted of selecting the best pieces from all the compilations then before the public. The success of that Book, so great and gratifying, has led to the issue of the JEWEL. This will consist principally of Tunes that have been issued since the GEM was published, and which are of a character likely to live. They have been carefully collected from every available source, English and American. In addition to the pieces of Sunday-school Music, more than one hundred in number, the Book will contain a selection of the best known Hymns of the Church, which, as was stated in the preface to the "Gem," will, it is hoped, be "that link in the worship of the Church and of the Sabbath-school which it is so desirable to preserve."

The size and price will be the same as the "Gem." No Piece or Hymn found in that Collection will appear in this, so that the two together will form the richest collection of good Sunday-school Music yet issued.
