THE
'IMPERIAL'
Marine Motor
Engine

"The Motor that Makes the Mark."

Well Designed
Well Built
Well Equipped

The "Imperial" is manufactured by a well known and reliable firm of Iron Founders. They also manufacture Steam Engines, Boilers, etc., in a city where living rates, taxes and labor are cheaper than in most cities. They are thus enabled to furnish a

Higher Grade Motor and Better Equipment

or the price charged than most manufacturers. The "Imperial" has been especially designed for the use of Fishermen, and is guaranteed by the manufacturers to be well built of the best material obtainable, and if properly installed and operated to give good satisfaction.

The "Imperial" is extremely simple in design, and all parts are easily accessible. The most improved muffler, giving the least possible noise, no heat, no muffler explosions, no back pressure, etc., is supplied with "Imperial" motors. You can run the "IMPERIAL" slow enough to set fishing gear or to fish on a line without any back-firing or other fuss. This engine has some other special features.

I have cancelled all my sub-agencies, and I will in future sell only the "Imperial," having been appointed by the manufacturers as their Agent for Newfoundland.

In order to introduce the "Imperial" to the Fishermen of Nfld. I am quoting a very special price on 3, 4, 5 and 10 h.p. for this season. Call and see engine, or write for full particulars and special price.

BAY ROBERTS, FRIDAY, JAN. 14, 1916.

Women's Health Club

It will be a great pity if the women whom Dr. Geisel organized here the past fall fail to get together to consider and discuss matters in reference to general health. In our opinion there are very few things which interest us that are more important to the people of this country than Health.

The women of our homes play a most important part in this matter as mothers, housewives and nurses.

In several places throughout Newfoundland Women's Health Clubs have been formed. Greenpond, for instance, has a Health Club with a membership of 112. Regular weekly meetings are held in the Courthouse, and a large class in Home Nursing, under the leadership of Dr. Jamieson, has been formed.

What the women of Greenpond and other places have done, the women of Bay Roberts can do. Will it be worth while? Someone asks. We answer, look around you and see the misery and suffering and loss caused by sickness in various forms.

See the numbers of little children who are weak and sick. Consider the number of boys and girls who are weak and sick. Consider the suffering of men and women who are suffering from one form of disease and another. Consider the high death rate in this district alone. Ponder over these things and the question is answered.

Disraeli once said, "Public Health is the foundation upon which rests the happiness of the people and the welfare of the state." Disraeli was right.

We will have as much health as we are willing to pay for. This does not mean that we are to pay for it in hard cash, but pay for it in studying the best way to live—to eat, to dress, to sleep, to cook, and the selection of foods that will best nourish and sustain our bodies.

How true it is that nations and people have been spending hundreds of thousands of dollars in curing, and endeavoring to cure, diseases that should never have occurred.

It is a well known fact that in some countries more money is spent and more attention is bestowed in caring for and preventing diseases in animals than is given to human beings.

A story is told of a delegation who went from a certain state to Washington to secure financial aid to help control the ravages of tuberculosis in their state. They were informed there were no funds available for that purpose. Soon after an epidemic of hog cholera broke out in the same state. As

soon as the authorities heard this a special car and agricultural experts were dispatched forthwith regardless of expense. This was done because hogs were considered to be valuable.

The mortality amongst infants is very large, due largely to lack of knowledge on the mother's part as to what is best and necessary to safeguard and develop her offspring.

While we are helpless to save the lives of those who are fighting our battles today, we are responsible for those who are dying amongst us every year from preventable diseases. It doesn't matter whether the life is crushed out by an automobile or train, drowned in the sea or poisoned by the germ of some contagious disease, or killed at the battle front. It is a human life just the same.

And because of these things, and many more which could be mentioned, the women of Bay Roberts would be doing a splendid thing for themselves and humanity by carrying out the objects for which the Health Club was organized some months ago.

Throw self and self-interest to the winds and broaden the scope of your vision, and act to-day so that those who are not blessed as you are, and those who come after you will honor and cherish your memory.

Can You Doubt These Words

Suffering for 18 Years

I was a sufferer for 18 years. I was so bad that the flesh was nearly melted off me. In fact, I gave up almost everything until I heard of this great cure and I decided to try it. I took five half pint bottles of A. J. C. I feel it was the best thing ever happened to me in my life, because to-day I'm completely cured of all stomach troubles. I have tried all doctors and all kinds of medicine that I thought would do me good, but it all failed to cure me. But now I can't help praising that wonderful Arctic Indigestion Cure, for I believe it saved my life. I recommend this medicine to any person suffering from any kind of stomach complaints.
