

## PROVINCIAL.

A Large Bequest to the  
Fredericton Cathedral.And a Still Larger One to the  
Bishop of Dublin.General News of Interest From Many  
Sections of New Brunswick.

(Continued from page 5.)

**CHARLOTTE CO.**  
Grand Manan, Sept. 22.—On the morning of the 18th inst. Julia Nagle of Chelsea, Mass., cook at the Marble Ridge house, North Head, was found dead in her bed. Her death was caused by apoplexy. She was buried at North Head on the 19th inst. by Rev. W. S. Covert, B. A.

Newton Brothers have taken their vessel, the *Freddie A. Higgins* of Eastport, Me., to St. Andrews to enter her and take a new register for her, converting her into a British bottom. She was formerly owned in Boston.

On the 19th inst. eighty-five or a hundred herring of herring were taken out of the Whale Cove weir at Two Islands.

Pollock fishing is reported fair. Last week hake fishing was fair at Nosed Head. Herring are still somewhat scarce and it is feared the herring catch of this season will be somewhat similar to the mackerel catch, not a large one.

Arthur Covert, youngest son of Rev. W. S. Covert, is going to attend the Collegiate school at Rothesay soon.

The strawberry blite recently found by some of our amateur botanists proves to be rather a rare plant in New Brunswick, mostly found in the northern part of Carleton county.

Roy L. Carson, who had his foot badly injured some time ago, is about again.

Miss Minnie E. Fraser of Woodward's Cove is teaching school at Two Islands. Miss Fraser is a daughter of Capt. Henry E. Fraser.

Mrs. J. W. Wooster of Seal Cove is ill. It is reported Capt. James Brayley of White Head is looking for a chance to go into business in the mainland.

Miss Augusta Osborne of Waltham, Mass., is visiting her sister, Mrs. Lemuel Benson, at Seal Cove.

F. M. Gordon of Seal Cove has invented a folding herring house, which is a very handy and useful piece of apparatus for the curing of herring. A herring house is used to hold the sticks strung full of herring while drying, and before being hung in the smoke house to smoke or cure.

Peter P. Russell, postmaster at Seal Cove, has a relic of revolutionary days in the shape of an old flint-lock horse pistol, which is over a hundred years old, and was brought from New York by his great grandfather, who was a U. E. Loyalist, when the old gentlemen settled on the St. John river near Fredericton.

St. Andrews, Sept. 25.—Since the opening of the Algonquin for the season of 1894 over one thousand guests have been recorded on the register. Most of the time the house was filled to its utmost capacity and a large number, for lack of room, had to be denied admittance. Next season, with the completion of the addition to the building now decided upon, accommodation for a much larger number of guests will be provided. The new part will consist of an extension of the western end of the present structures in which will be situated the dining room, 44x24 feet, with seating capacity for 300 persons. The present dining room will be made into three rooms, a carving and serving room, a ladies' reading room, and a dining room for the nurses and maids of the guests. The rooms now occupied as gents' smoking and writing rooms will be thrown into one. The glass doors at the north end of the present building will be closed, together with the door leading into the gents' washroom, which will make the hall space a pleasant lounging place. The walls on the ground story of the new wing will be of stone and those of the second story of brick.

On the second floor and immediately underneath the dining hall will be a large room with 1,400 square feet of floor space, to be devoted to purposes of amusement for concerts, lectures or amateur theatricals, for which a stage will be built, and can be used for a ball room. There will be a room for the developing of photos taken by amateur or professional photographers, guests of the house. On the ground or basement flat will be situated a room for the storage of bicycles and baby carriages, and in each flat sixteen rooms for the accommodation of the house servants. In the flats over the dining hall there will be fifty-two guest chambers, most of them "en suite," with bath rooms, etc. For the security of the guests and to provide a ready way of escape in the event of fire, fire-escapes easy of access will be erected outside the building. The new part, which has been designed by Henry W. Nourse, architect of Boston, and who is at present here, will harmonize with the present structure. The whole when completed will present an imposing as well as an ornamental appearance. Messrs. (Stevens) and McKenzie of St. Stephen, contractors for the work, and who so satisfactorily carried out their contract in the building of the Algonquin, hold the contract for the new work, and will probably commence operations sometime during the coming month. They were recently in town in consultation with architect Nourse. The proposed addition built with Albert Miller in charge, next season will doubtless bring a larger number of guests than ever before came, who will find ample accommodation in the enlarged structure. With the golf links, spacious tennis and croquet grounds, a cricket crease, a ball and concert room, photograph developing room, billiard hall, etc., etc., the facilities for yachting, bathing and driving, together with a total exemption from that distressing malady, hay fever, all combine to make St. And-

rews the mecca of all in search of health and relaxation.

S. J. King of St. John, post office inspector, was in town Monday afternoon.

Dr. N. G. D. Parker and William Snodgrass, merchant, in response to the prayer of a largely signed requisition of the ratepayers of the town and parish of St. Andrews, have consents to act as councillors. They filed the necessary papers today with the town clerk, and as no other candidates were nominated their election followed by acclamation.

A boat which was with two young lads, sons of Capt. James Starkey, was upset in the harbor about six o'clock this evening. The boys hung on to the boat and were rescued by boats that put off from vessels lying near by.

Frank Gove, after a very pleasant visit to his old home in St. Andrews, has gone to New York, en route to Shanghai, China.

Sir Leonard Tilley returned to St. John yesterday. Lady Tilley will follow tomorrow.

Rt. Rev. Dr. Nealey, bishop of Maine, and Mrs. Nealey, arrived here yesterday by steamer *Arbutus*. They were met at the wharf by Rev. Canon Ketchum, who drove with them to the rectory.

The Algonquin will be closed on Saturday. Most of the guests have departed for their homes. A few, however, desirous to linger for a while longer in St. Andrews, have arranged to stop at Kennedy's.

Angus Kennedy has men at work developing his black granite quarry.

**ST. JOHN CO.**  
St. Martins, Sept. 25.—The Women's Aid association of Holy Trinity held a sale and high tea in the Temperance hall on Friday evening. An efficient committee, with Mrs. J. B. Hod-smith, the president of the society, at its head, made the affair most enjoyable, and was perhaps more important, successful from a financial standpoint, over \$90 being realized.

Mosher & Rourke's mills, shut down for some time for want of water, have been enabled by the recent heavy rains to resume operations.

Rev. Mr. Howard of Hampton has declined the call forwarded to him a short time ago by the St. Martins Baptist church.

Rev. D. B. Bailey, formerly pastor of the Methodist church here, paid St. Martins a short visit last week and was welcomed by Miss Ella St. Martins Agricultural society will hold its annual fair on the 14th Oct.

**KENT COUNTY.**  
Richibucto, Sept. 25.—The circuit court opened this morning. Judge Landry presiding. There was no business before the grand jury. The case of Riley Cochrane v. Hennessey is now before the court. This action is brought in connection with the seizure of sheep by the defendant in his capacity of constable.

The case of Andrew Dunn v. Edward Walker was settled today. There is still a large docket.

**CARLETON CO.**  
Coldstream, Sept. 25.—A very pleasant event happened at the home of Sylvanus London, Gordonsville, Carleton Co., on the 20th inst., when his sons, W. W. London, and Miss Ella Scarrak, all of Gordonsville, were united in marriage by Rev. J. J. Barnes of Rockland. In spite of the furious storm of rain and wind, forty-five guests were present to witness the ceremony. The wedding supper was fine and the presents to the bride were numerous and suitable. Altogether it was an enjoyable time.

Benjamin H. Smith, of the law firm of Smith & Sawyer, saw his mill have resumed operations. The harvest supper and fancy sale held on Thursday proved a success. Messrs. C. & Co. kindly entered their spacious warehouse for the occasion, and a social dance was enjoyed until a late hour. The sum of \$42 was realized towards repainting St. Mary's church.

The Royal Templars of Temperance here are in a flourishing condition, the weekly meetings are well attended, and the membership increasing. A subject for debate in which good interest is manifest, will be opened at next meeting and a lively discussion is expected.

The oat crop here is poor, proving so far an average yield of five bushels to one.

The heaviest frost yet this season fell last night.

**KINGS CO.**  
Snider Mountain, Sept. 26.—The farmers here are through with their fall crop. They have a very poor crop.

Alex. Patterson is now in Quaco looking after his lumbering interests. He has purchased a site and has begun the building of a mill there.

Miss Alice Snider, teacher, has gone back to her former school at Harcourt, Kent county.

Clarence Berry and wife, of Ager, Mass., are visiting her father, Geo. R. Kierstead of this place.

Capt. McKay of Sussex is visiting friends here. He thinks that the children of this place are the best singers he ever heard, and upon the strength of it he will give two prizes, one to the boy under 15 years of age who sings best, and one to the girl who sings best. He organized a class of 12 boys and a class of six girls in practice. The boys are Herman Redstone, Robert Evans, Angus Evans, Dee Patterson, Howard Johnson, Walter Johnson, Silas Grigg, Horatio Gregg, Charlie Gregg, Arlie Ganong, Winfred Ganong and James Redstone. The girls are Sophia Ganong, Lottie Patterson, Ethel Northrop, Hattie Northrop, Essie Gregg and Maud Redstone.

Apoahqui, Sept. 27.—The death took place on the 24th of Miss Lizzie Lodge at her home, which has of late years been in the hands of her late husband, who was a much respected lady and was in her 72nd year. She was a native of Cranberry county, N. S. Deceased was an aunt of Rev. W. W. Lodge of Marysville, and also of Mrs. Job Shenton of St. John. The funeral took place this morning and was quite largely attended. The services were

conducted by Rev. Thomas Pierce. The remains were interred in Goslin's burial ground at Smith's Creek.

Sussex, Sept. 29.—The long talked of sports came off on the grounds of the Sussex park at Upper Corner yesterday under the auspices of the Sussex fire brigade and hose company, and was one of the most pleasing and successful events which has been held here for many years. The large programme which had been carefully prepared was successfully carried out in the most satisfactory manner. The day was very fine and the attendance was large. It was the defeated members of the tug of war team take the affair badly, it being well known that they were very much the heavier, while the light weights were correspondingly blessed. The breaking into the tug of war team take the affair badly, it being well known that they were very much the heavier, while the light weights were correspondingly blessed.

W. B. McKay & Co., Huestis & White, and John S. Trites were considerably startled this morning when they found the front doors of their store had been forced open, and the drawers of the counters had been ransacked. It is evident the perpetrators of these acts were after money or small articles of value, as up to time of writing nothing of importance had been discovered.

Accepting small sums of money is missing. Chisels taken from Mr. Halsey's carriage shop were used in forcing open the doors. While tramps have been seen in the streets, for breaking and entering our buildings, there are those who are unwilling to believe the breaking into these stores was the work of the tramps.

Arthur Wetmore, who has been residing at Moss Glen for the last two years, has returned to Hampton and is moving into the Tweedie house at the station. John Scovill, of Damascus, met with a serious accident a few days ago, while working in a mill. He slipped, blowing off parts of the thumb and fingers of his right hand. Dr. J. N. Smith attended him.

The county court was engaged Friday afternoon in hearing the case of Wallace v. Dwyer. Fred L. Fairweather for plaintiff, and George W. Fowler for defendant.

The revising barrister has lately been engaged preparing the electoral lists for publication. Applications are being received slowly, and there is less interest manifested than will probably develop before the time limit expires. There are a progressive whist party at the residence of Wm. Langstroth, jr., Thursday evening, which was very much enjoyed.

**ALBERT CO.**  
Hopewell Hill, Sept. 27.—The annual session of the Albert District lodge, I. O. G. T., met with Hopewell lodge at Albert on Tuesday, both sessions being held at the residence of delegates from ten lodges throughout the county, including four representatives from Dorchester lodge, which is now included in the Albert district.

The case of D. C. T. Rev. M. Gross; D. C. W. A. Trueman; D. V. T. E. H. Robinson; D. S. G. T. Miss Robinson; D. S. W. K. Keating; D. T. J. T. Steeves; D. Chap. C. W. Johnson; M. H. Herman Connon; D. G. J. H. Berry; D. Sent, D. C. Cleveland; D. Dep. M. Bertha Connon; D. Asst. S. Maggie Atkinson.

Miss M. Bishop of Mountville has gone to Hillsboro to take charge of Miss Dobson's millinery establishment there.

The Frontier house at Albert is having its appearance greatly improved by a tasty coat of paint. A. C. Lawson, of P. W. F. Brewster's establishment has been given the contract for painting the interior of Manning Hotel.

The fever patients at Albert are improving.

Sch. Jessie went to Harvey Bank today's tide, where she will have a new shoe put on. Times are unusually slow for the coasters at the head of the bay.

Potato digging began this week. The crop, generally speaking, will be light.

The time table of the Salisbury & Harvey railway changes on Monday, October 1st. The new time table will be similar to that run on before the change, the train remaining at Harvey overnight.

The marriage of Miss Mary Matthews, daughter of James Matthews of Chemical road, to Harding Dwyer of Curryville, took place this evening at the residence of the bride's father, the Rev. D. H. Lodge of Hillsboro officiating.

**WESTMORLAND CO.**  
Joliceur, Sept. 27.—Amasa Tingley, son of Obed Tingley of Upper Point de Bute, with his wife and family, is making a tour of the province. They will be much missed.

Edgar Copp, son of Edwin Copp of this place, has gone to Philadelphia to complete his medical education. Al. Duffy leaves on Monday to pursue his studies at the Boston Dental college.

John Bent, son of the late Calvin Bent of Leicester, Cumberland Co., but now of Miramichi, has been visiting relatives in this vicinity. Mr. Bent, who is a retired business man, is in very poor health. He was accompanied by his wife. They intend residing with their daughter, Mrs. Snowball Rayworth, at Moncton.

Moncton, Sept. 30.—The report of Mr. Power, secretary of the Intercolonial Railway Employees' Relief and Insurance association, for the month ended 24th September, show three deaths and six cases of total disability, as follows: Jos. Unsworth, retired member, Charlottetown, died of cancer, insured for \$500; Wm. Cammer, apprentice, Moncton, died of pharyngeal fever, insured for \$500; R. McDonald, station master, Halifax, died of cancer, insured for \$1,000; E. F. Wetmore, retired member, Acadville, total disability, \$500; Robert Lynch, retired member, Berry's Mills, total disability, \$250; Joseph Landry, laborer, Moncton, total disability, \$500; W. L. St. Pierre, clerk, River du Loup, total disability, \$250. The sum of \$4,000 is required to pay those claims, of which \$2,500 is raised by assessment, and \$1,500 is taken from the surplus on hand. The total membership is now 3,487.

**Children Cry for**

**Pitcher's Castoria.**

Only the vulgar are overpolite.

An idle man hurts any cause.

Moncton sent large contingents to the Charlottetown and Halifax exhibitions. The majority of the visitors returned home yesterday and report having had the warm weather and plenty of sight seeing.

Manager Evans of the St. Martins and Upham, Central and Buctouche and Moncton railways, came to Moncton on Friday on business connected with the latter road. He went to Buctouche on a special and returned to Moncton on Saturday. Work on the Buctouche bridge is progressing quite favorably, but it will be some time before it is again in condition for regular traffic.

The drought still continues in this vicinity. The rains of last week, although quite heavy, had little effect on the wells and brooks, the parched ground sucking it all in. The water in all streams dependent upon the rainfall is very low, and wells and springs in many places have gone dry, so that farmers experience considerable difficulty in getting water for their stock. The water in the reservoirs is also getting very low and rain is greatly needed.

Geo. C. Allen, druggist, has been spending the past few days in St. John and up river districts. He is recuperating after a lengthened illness of typhoid fever, which left him in a rather weak condition.

The watering cart, which was badly damaged in the fire of Monday last, has been repaired and was again in service today, greatly to the delight of citizens, who have been almost smothered in dust during the past few days.

The ceilings of the post office building, which were badly damaged by a flood from the sink in the caretaker's residence some time ago, are being repaired.

A court of the Independent Order of Foresters was organized at Buctouche yesterday, with a good membership. Some eight or nine Monctonians went to participate in the ceremony, including A. Y. Clarke, H. C. Hamilton, J. C. Stewart, A. Irving and others.

Although the discontinuance of the lights, the presence at night of a floating boom and the laying of torpedoes, are obvious hindrances to the coming and going of vessels, nevertheless, with the exception of the Chinese line, shipping is being carried on as usual, and there are no indications that the merchant service are withholding their cargoes. Trade to ensue, however, is being adversely affected, cipher telegrams are no longer accepted, although they can be sent from Shanghai.

Feeling of timidity as to the safety of business ventures with Tien Tsai is naturally pervading the business world. The Chinese themselves will not block the port, but the Japanese are likely to do so at any time. An effort was making to secure immunity from the capture of Japanese and Chinese vessels plying respectively between their own ports and in common to neutral points, but the content of the Japanese had not, at the date of advice, been received.

There was, however, a very great menace to the trade from another quarter. It was this that led to the appearance of foreign merchants to their home governments for the presence of war ships in the treaty ports of China. It was generally expected by them that should the Chinese be defeated on their own soil, exactly what happened yesterday, according to cable reports, the Chinese soldiers would be demoralized and fall to scouring the country in every direction, committing outrages. In this event, according to the advices, the slender thread which sustains the obedience of the masses to the vicerey would be snapped and pandemonium would reign supreme.

The great treaty port of Tien Tsai is believed to be specially threatened in such case. One prophetic statement in the mail advices is as follows: "In proportion to the disasters of war that will surely overtake China will the influence of the vicerey wane and should the defeat of the Chinese be complete, the vicerey will be absolutely incapable to maintain order. Li Hung Chang has been a severe disciplinarian, and with reverses, the masses will turn upon him with the pent up hatred of years."

As these defeats are coming to pass, and as the prophecy has also been verified, as to Li's degradation, it will be a matter of serious interest to know how far their number of this prediction shall be justified by the events of the future.

Yokohama, Sept. 28.—The public is in favor of continuing the war against China and is urging a desperate attack upon Peking.

**GETTING OUT OF SIGHT.**  
Great Areas of Earth in Kansas Cave In.

Wichita, Kas, Sept. 21.—Land is caving in toward the centre of the earth in the vicinity of the junction of Harvey, Butler and Marion counties in this state. Great excitement prevails among the people, and many of them are getting away. The state officials have been summoned to investigate the disturbances of the earth. There was no shock felt until the earth caved in, nor did it bear any resemblance to an earthquake. Near Whitewater, on the farm of Thomas Essington, an area 40 by 90 feet sunk to a depth of 28 feet, and when a man was let down into the hole his weight alone sank it nearly three feet more. This occurred yesterday, and about the same moment an area of 75 feet square sunk at Plum Grove, a depth of thirty-five feet. This was on the farm of Sid Jones, the sliding-in carrying in a threshing machine and separator with it. Water poured into the latter hole from underground till it is filled nearly to the top, but the hole at Whitewater is still dry, though it is supposed that the caved-in earth is resting upon a vast body of water. Both places are some seven or eight miles apart.

At Ahnelly, some miles from Whitewater, there were several small cave-ins, ranging in depth from six to forty feet. Not long since a man was digging a well in the vicinity of Plum Grove, and when he had reached a depth of twenty-six feet the drill shot into an apparent vacuum and could not be recovered. All the cave-ins, great and small, extend in a crooked, stream-like course a distance of about twenty-five miles.

Even the thunder growls at the weather clerk.

A waiting game is one which two can seldom play.

An idle man hurts any cause.

## ATTACK ON PEKIN.

## The Japanese in favor of Continuing the War Against China.

## A Report That the Emperor is Dissatisfied with the Course of Events.

## Mail Advices Show that Matters Have Turned Out as Predicted.

London, Sept. 28.—Advices from Shanghai say the emperor is dissatisfied with the course events are taking and that affairs are gradually working toward a coup d'etat. The Chinese warship Kwang-Chia is reported to have been lost while running from the fight off the mouth of the Yalu river.

Washington, Sept. 28.—Mail advices received here from China from sources specially entitled to credit, of a date early in August, are almost prophetic of what has already occurred there since that day, and if the predictions for the future hold good, Secretary Herbert's action in largely reinforcing the United States warships in Chinese waters will be found to have been a very wise move. The advices described the measures which have been adopted by the Chinese to block the navigation of their rivers, and the resulting effect upon commerce. For one thing, in the Ningpoo district the Sessastus rock buoy, the Seanyu spit buoy and the Nemesis rock, Blonde rock and Tiger's Tail beacon have been temporarily removed. Lights have also been removed and obstructions placed at the mouth of the river Peiko. Although the discontinuance of the lights, the presence at night of a floating boom and the laying of torpedoes, are obvious hindrances to the coming and going of vessels, nevertheless, with the exception of the Chinese line, shipping is being carried on as usual, and there are no indications that the merchant service are withholding their cargoes. Trade to ensue, however, is being adversely affected, cipher telegrams are no longer accepted, although they can be sent from Shanghai.

Feeling of timidity as to the safety of business ventures with Tien Tsai is naturally pervading the business world. The Chinese themselves will not block the port, but the Japanese are likely to do so at any time. An effort was making to secure immunity from the capture of Japanese and Chinese vessels plying respectively between their own ports and in common to neutral points, but the content of the Japanese had not, at the date of advice, been received.

There was, however, a very great menace to the trade from another quarter. It was this that led to the appearance of foreign merchants to their home governments for the presence of war ships in the treaty ports of China. It was generally expected by them that should the Chinese be defeated on their own soil, exactly what happened yesterday, according to cable reports, the Chinese soldiers would be demoralized and fall to scouring the country in every direction, committing outrages. In this event, according to the advices, the slender thread which sustains the obedience of the masses to the vicerey would be snapped and pandemonium would reign supreme.

The great treaty port of Tien Tsai is believed to be specially threatened in such case. One prophetic statement in the mail advices is as follows: "In proportion to the disasters of war that will surely overtake China will the influence of the vicerey wane and should the defeat of the Chinese be complete, the vicerey will be absolutely incapable to maintain order. Li Hung Chang has been a severe disciplinarian, and with reverses, the masses will turn upon him with the pent up hatred of years."

As these defeats are coming to pass, and as the prophecy has also been verified, as to Li's degradation, it will be a matter of serious interest to know how far their number of this prediction shall be justified by the events of the future.

Yokohama, Sept. 28.—The public is in favor of continuing the war against China and is urging a desperate attack upon Peking.

**QUEEN'S CO.**  
Petersville, Sept. 27.—John Martin, on old and highly respected resident, died at his home on Monday of paralysis. He leaves one son and a daughter.

McKee and Woods' grist mills are shut down owing to scarcity of water. On Tuesday evening an unusual sound aroused some of the residents, and a party armed with guns, axes and knives started out to render any assistance required, thinking it might be a man attacked by a bear. On arriving on the scene they found that the noise was caused by two boys who were concealed in a hay stack, and were screaming for their own amusement.

**YORK CO.**  
Fredericton, Sept. 30.—The interest of C. H. Fisher in the property lately assigned by him to H. H. Pitts for the benefit of his creditors, was sold this morning at eleven o'clock by Auctioneer Hatt on Phoenix square, subject to the mortgage encumbrances upon these premises. The residence of Mr. Fisher, as well as the brick block on the corner of Queen and York streets were both purchased by Willard Kitchen at a nominal bid, who, it is understood, was acting in the interests of the mortgagees. The stocks, shares, in the Central Fire Insurance company, was also advertised for sale at the same time. This, however, was not at this stock for an indebtedness due them by Fisher for something like \$1,200 and forbid the sale. What will be done with this stock now remains to be seen. The company claim that it can only be sold with their consent, and they will not consent until the debt due by Fisher to them has been paid.

The will of the late Rebecca Calogline Gordon has been admitted to probate. The estate is estimated at about \$20,000, and with the exception of a few small bequests of personal articles, goes in bulk to Christ church cathedral, Fredericton. Bishop Kingdon and Wesley Vanwart are the executors, each of whom gets \$50, and the latter a diamond ring. Mrs. Gordon was the late Judge Minchin of this city, and under his will had the entire income from her brother's estate during her life. She is the last of the Judge Minchin family, as by the terms of Judge Minchin's will the whole of his estate remaining at his sister's death is bequeathed to the lord bishop of Dublin, Ireland. The value of this estate is variously estimated at from \$75,000 to \$90,000.

Justus Neilson, a German, stole a coat from the store of Samuel Owens last night, but was captured by Owens and the coat taken back. Neilson afterwards took a coat from Lucy's and was boarding a Marysville train when he was discovered and arrested.

The Gleason intimates that Fredericton is to have two divorce cases. One plaintiff is a lady well known in social circles and the other a well known husband.

An inmate of the deaf and dumb institution, named Blakely, attempted to escape today, but was taken at Marysville from the Canada Eastern train and sent back to the city, where the authorities of the school took him in charge amid much kicking.

If you run after two horses, you will catch neither.

Only the vulgar are overpolite.

An idle man hurts any cause.

Moncton sent large contingents to the Charlottetown and Halifax exhibitions. The majority of the visitors returned home yesterday and report having had the warm weather and plenty of sight seeing.

Manager Evans of the St. Martins and Upham, Central and Buctouche and Moncton railways, came to Moncton on Friday on business connected with the latter road. He went to Buctouche on a special and returned to Moncton on Saturday. Work on the Buctouche bridge is progressing quite favorably, but it will be some time before it is again in condition for regular traffic.

The drought still continues in this vicinity. The rains of last week, although quite heavy, had little effect on the wells and brooks, the parched ground sucking it all in. The water in all streams dependent upon the rainfall is very low, and wells and springs in many places have gone dry, so that farmers experience considerable difficulty in getting water for their stock. The water in the reservoirs is also getting very low and rain is greatly needed.
