WINTER PORT

covered 17 years ago by Mr. Strong.

Last summer this gentleman again visited the place and removed 600 pounds of ore. The ore was free milling and this 600 pounds went from 11-000 to \$2,078 to the ton. The engineers report \$0,000,000 tons of ore on the property. It was assayed in England, Canada and the United States and in each instance a favorable report was given. The Thistle is taking in large report 80,600,000 tons of ore on the property. It was assayed in England, Canada and the United States and in each instance a favorable report was given. The Thistle is taking in large quantities of supplies at St. John and all appliances needed for the development of the property will be despatched to Labrador on this vessel. There will be no trouble in getting the ore away from Hebron, as the schooner selected for the accomplishment of this task will be able to lay along determine the rocky shore within 50 yards of where the ore will be got out. The property is on a grade of 25 degrees and is one mile square. There is no dirt on it, being all ready to be quarried with great despatch.

Sometimes troubles about unpopular post office changes blow over. But the Hampton trouble grows worse and worse. The people of the town, without regard to party, are element for removing the office from the station building. They do not blame the postmaster general for originating the idea. All they say against it is that he should have taken advice from the friends of the government in the neighborhood before acting on the request of outside politicians. The most violent kickers are men who have been the most active supporters of the government in the supporters of the government in the place and who think that their opinion might have been asked, and their in-
