MONCTON, N. B., April 11.-News has been received here of the killing of William Sutherland, formerly of Shediac, in a train wreck at Wayland, 20 miles from Boston. He was head brakeman of a freight train on the Central Massachusetts division of the Boston and Maine railway at Wayland station. The train, which was running at eighteen miles, left the main line at a disarranged switch and the locomotive crashed into four cars on a siding, demolishing them and plough-ing through Wayland freight house, throwing it from its foundation. . Sutherland, who was on the top of the third car, was buried in the ruins and dismembered, death ensuing instantly. Engineer Fred Judkins of Charlestown was also killed. Sutherland was 42 years of age, a native of Shediac Cape, being a son of the late Donald Sutherland of that place. He had been a resident of Somerville some 15 years.
