Made and strictly selected for the St. John Business College. Mr. Joseph Morse, of Paradise, has sold his apples, the produce of his orchard for the present year, for the sum of \$2000 cash. All the Halifax freight porters and laborers on the I. C. R. will receive an increase of fifteen cents per day, dating from the 1st inst. One thousand, eight hundred and eight barrels of oysters were shipped from Summerside by steamer to Point du Chene in the week ending the 6th. The potato shipments along the northern division of the N. B. R. have been so large the past fortnight that cars can not be obtained as fast as they are wanted. Scott Act business seems to be lively in Kensington, P. E. I. The Summerside Agriculturist is informed that there are no less than twenty-five cases against one man alone, which are about to be tried there. The chimney of the Canada Electric company's building at Amherst is 88 feet high and contains 63,000 bricks. The building is 67x40 feet, one and one-half stories high, and will soon be filled with machinery. The annual session of Grand Division, S. of N. of New Scotland, closed Tuesday, 23d, of November, has been postponed until Tuesday, 12th of November, in consequence of the 7th being Thanksgiving Day. The N. S. C. Railway is now a continuous line from Middleton to Bridge-water. Some ballasting remains to be done before it is opened for traffic. The first engine has passed over the entire road to Brigowater. An apple of the Baldwin variety, grown in the orchard of Mr. David Bath, Bridgetown, deserves notice. Its greatest girth is nearly twelve inches, and it weighs three-fourths of a pound avoirdupois, is finely formed, and beautifully colored. The steamer Rochampton, which sailed at Halifax for London Saturday morning, took a cargo valued at about \$85,000. The principal shipments were 12,855 barrels of apples, worth \$38,589; 37 hogheads of fur, worth \$10,000, and 1,274 crates of lobsters. From January to the end of December 24,822 emigrants have arrived at Montreal by water and rail, and those arriving since last March have brought \$270,000 with them. The officials state that the demand for domestic servants far exceeds the supply. Twenty-four thousand six hundred and seventy-three bushels of potatoes were shipped from the stations of Carleton Place, Fort Fairfield and Presque Isle during the first six days of October. It is estimated that at least 125,000 bushels will be shipped during the present month. A preliminary railway meeting at Yarmouth, last week, a committee was appointed to promote railway extension eastward from Yarmouth, and the meeting was asked to call a public mass meeting to discuss the best means of obtaining such extension. A biscuit factory, four stories, 80x58, with a basement, is to be erected at Pictou. Says the Standard: The present factory has a capacity of 40 barrels of flour a day, and with new and increased facilities the capacity will be 90 barrels, which means three times that many barrels of biscuit. Small fishing will begin on the 1st December. Discretionary power is given to local overseers to authorize fishing after Nov. 24th, should the weather be suitable. Two overseers must sign the permit. The fishing season will close Feb. 15th. It is perceptibly stated that there will be no extension granted.—World. A German settlement was started near Dunmore, on the C. P. R., a few months ago, when 25 families were located by the company and money advanced to them. It is now in a prosperous condition. The colony contains 400 persons of German extraction which will likely be increased to 1,000 before next fall. The statistics at the port of Parrsboro make the following excellent showing: Value of goods exported from July 1st to 30th September, 1889, \$171,834. Number of vessels entered and cleared during the same time, 317. Amount deposited in Savings Bank during the time, \$11,936. Amount withdrawn, \$2,755.78. Total amount due depositors at Oct. 1, 1889, \$117,355.33. Says the Halifax Chronicle: Three pieces of gold quartz of extraordinary richness, just as they came out of the blast, were brought to the city on Saturday from the Amnand mines at Montague. Stone and all weighed only a few pounds and they were carried in a small box, but there was about \$70 worth of gold in the three small lumps, the precious metal showing in nuggets all over the stone. The Truro Gold Mining Company have lately been rewarded by the hand of some brick. A sample lot of quartz, selected as it came from the mine, was taken to a neighboring crusher with the result that it gave a return of one ounce of gold to the ton of quartz. The lead from which the quartz is taken runs from nine inches to sixteen inches in thickness, and it really does look as if this new company had a good thing.—Truro Sun. Why do men seek insurance on their ships, their goods, and their houses, yet wait to be solicited before effecting insurance on their lives? Can it be that it is because the loss in the former case would fall upon them personally, while in the latter it would fall upon the desolate family when their own struggles are over? discourse preached by her pastor on the 23d, after an illness of four weeks, Mrs. Howard Pufister, aged 29 years. Our pastor was by the bedside of the patient among us about eleven months ago. She was highly esteemed by her acquaintance. She was baptized at Chester three years ago, by the late Rev. Jos. Kempton. She spoke to her pastor of removing her membership from the First Baptist church of Halifax, and with her husband uniting with us here; but, O! how soon has she gone to join the church of the perfect ones above! Sermon on the occasion by the pastor, from Pa. 17: 15. May we all wake up in the likeness of Christ in that blessed morning. BURY.—It becomes our sad duty to record the death of Mrs. Allan Bray, who departed this life, 27th ult., at her house at Hopewell Hill. Our sister made a profession of religion and united with the Baptist church at Harvey, Albert Co., when quite a young girl. During the last 10 years of her life she was prevented by ill-health from regular attendance at church, but testified to the presence of Jesus all along through the trials of life. During the first part of her last sickness she was somewhat fearful, but "dying grace" soon came, and she was entirely submissive to the will of God. She leaves her husband, one son, two daughters and one brother to mourn their loss. PINKNEY.—At Victoria Bridge, Annapolis Co., N. S., Sept. 15, after a lingering and painful illness, Elizabeth, wife of Capt. Charles Pinkney. Mrs. Pinkney was a member of the late Joseph and Hannah Robbins, of Chebogue Point, Yarmouth Co. She leaves a son and daughter by her first husband, Capt. Samuel Cook, and two daughters by Capt. Pinkney. She was buried at Smith's Cove. The funeral services were conducted by Rev. W. H. Richan, who preached from Micah 11: 10. Arise and depart, for this is not your rest.

WHIDDEN.—At Halifax, N. S., Sept. 27, Eunice C., beloved wife of C. B. Whidden, Esq., of Antigonish, and daughter of the late Captain David Graham, in the 58th year of her age. Sister Whidden had been in delicate health for some time back, and during the summer she was confined for some weeks to her house; but somewhat rallying, she left her home for Halifax, hoping that change and special medical attendance might be the means of more perfect restoration. This, however, was not to be, for, notwithstanding all that medical skill and the kindest attention could do, she passed away. Her long affliction was borne with a spirit of filial acquiescence in the divine will, without a murmur or complaint. Nor did she breathe one word of doubt as to her acceptance with God or fear for the future, but was able to say, as so many of the Lord's loved ones have done before, "Yes, though I walk through the valley of the shadow of death, I will fear no evil: for Thou art with me; Thy rod and Thy staff they comfort me." Conscious to the last, her thoughts were occupied, as throughout her previous life, in planning for the welfare of others. When fifteen years of age she gave herself to God during an extensive revival in 1846, under the labors of the Rev. W. C. Rideout, by whom she was baptized. Her interest in the church she united with—Antigonish—never flagged, and she heartily shared with her esteemed husband in devising liberal things for the welfare of the church and denomination, without the least desire for show or human commendation. Now, where there

A Century of Talking is not worth a Minute's Proof. It don't take many minutes to prove that Pyle's Pearline will wash clothes, will clean house—will do it well—will save you time; labor; wear and tear; will reduce drudgery; will not hurt your hands; your clothes or paint, and besides will cost you no more than common bar soap. One honest trial will prove all that. Why not accept the testimony of the millions who use it as proof of its virtue. Among your friends you'll find those who have used Pearline for years—ask them—they will tell you "can't do without it." Beware. Pearline is the original Washing Compound—used by millions, but imitated by thousands who peddle their stuff or give worthless praise. Pearline is never peddled, but sold by all grocers. Manufactured only by JAMES PYLE, New York.
