PREMIER VISITS CAMPOBELLO GRAND MANAN AND DEER ISLAND; FINDS PROGRESSIVE PEOPLE

The Attorney General returned on Saturday from a tour on the Islands of Charlotte County. Mr. Hazen went down to St. Stephen Tuesday, and in company with the Surveyor General, Speaker Clarke, and Mr. Hartt, M. P., visited Deer Island. A motor boat conveyed the party la-ter to Campobello, where they visited Wilson's Beach and Welchpool, re-maining Wednesday night at the latter place. Thursday they went to Grand Manan, visiting first the North-ern part and then traversing the South Shore. The trip also took in Whitehead Island. The party spent the night at North Head, crossing to the mainland on Friday.

Mr. Hazen speaks in the highest terms of the beauty of the scenery, and of the kindness and cordiality of the people he met. He does not believe that there is a greater av-erage degree of prosperity and con-tentment anywhere in the province than on these islands. They are up to date in everything, and lead many other places in public spirit. They have fine school houses, and the Attorney General was glad to notice that the flag was flying over them. The close neighborhood of the United States made this use of the British emblem more noticeable.

Sardines Plentiful. The Deer Island people are reaping a good harvest from sardine fish,

which are plentiful and bring extra high prices. Grand Manan and Campobello are, perhaps, not faring quite so well, as the price of their special product of fish is not quite up to the average.

At Grand Harbor, when Mr. Hazen and his friends arrived, though it was a busy time in the day, a good gather-ing of people were waiting and in-sisted on an address. The Premier spoke briefly as did some of his com-panions.

At North Head there was another gathering, but through some misun-derstanding of the date Mr. Hazen was unable to meet them. Wet weather interfered with a proposed demon-stration at Seal Harbor, but the At-torney General was able to meet and talk with many of the people in all the villages, and passed a remarkably pleasant week.

The Campobello corporation, which has taken over the large summer hotels, is displaying great vigor. The old hotel will be opened next week and the prospects are that it will be filled with tourists for the whole season. The other hotel will probably be ready next season.

The party met School Inspector Carter at Deer Island, and at several other places where he was making his last visit as inspector. He is very popular in Charlotte county, and his promotion gives general satisfaction.

TRINITY HEARS REV. MR. RAYMOND

A large congregation assembled in Trinity church last evening to listen to the Rev. W. D. Raymond, son of Archdeacon Raymond. The speaker took for his text the words of Micah:—"Arise ye and de-part for this is not your rest." In a well thought out discourse the speaker traced the Jews' gradual de-moralization in the ancient Babylonish times and the retributive justice which followed and by way of analogy drew attention to England and its progress under the modern Christian dispensation. He also made a brief allusion to the manner in which Cana-da was entering on the epoch of a nation. He entreated his hearers to avoid selfishness.

The sermon was listened to with rapt attention and the scholarly way in which the facts were marshalled was the cause of much favorable com-ment on the conclusion of the ser-vice. Rev. Mr. Raymond has been visit-ing here for a short while, while en-joying a vacation from his regular work at Ann Arbor, Michigan. After his graduation from the University of New Brunswick and McGill Dicoe-san College, he was stationed for a time at McAdam.

HAD NARROW ESCAPE WHEN BOAT SANK

Sailing craft of small dimensions would think twice before making an attempt to venture into the harbor on a day like Saturday. Nevertheless there was one yacht, flat bottomed, with a centreboard that had been purchased from Shelburne, N. S. parties by Mr. C. O. Foss, dis-trict engineer on the Grand Trunk Railroad, that did make a bold at-tempt to get around Reed's Point from Lover Cove slip in command of Cap-tain N. A. Withers, who had with him Dr. James H. Grey's son, of Fairville.

The result was that the yacht was upset by the heavy wind and immed-ately filled and sank leaving the ac-cupants up to their shoulders in the water. Fortunately the water was shal-low enough to leave the mast head of the yacht sticking out. To this the two men held on until a boat which was held in readiness at a nearby wharf in case an accident did occur, picked them up and took them ashore. The yacht was floated and towed again to the slip.

WELSFORD MAN WAS BADLY CUT IN BACK OF LEG

Stephen Speight, a Welsford man who is employed by Mr. John Kane at the breakwater, Lorneville, cut him-self severely in the back of the calf by an adze which he was using to chop wood. A high wind was blowing at the time, and the block which Mr. Speight was chopping at toppled over, so that the adze in striking it, was deflected, and inflicted a deep gash six inches in length. From Saturday afternoon until Sun-day afternoon, Mr. Speight was with-out surgical assistance, and he be-came greatly weakened from the flow of blood. He was driven in to Fairville yesterday and Dr. L. M. Cur-rien attended him.

ARM FRACTURED AT ST. DAVID'S S.S. PICNIC

About four hundred and fifty per-sons attended the St. David's Sunday school picnic which was held Satur-day afternoon at Westfield. The fine afternoon made the picnic a grand success. A painful accident happened to the 12-year-old son of Mr. Frank L. Worden. The boy was climbing a tree when his foot slipped on one of the branches and he fell striking the ground with great force. His arm when he struck was underneath him, so that the force of the contact caused a fracture between the wrist and the elbow. Dr. Arnold of Westfield treated the boy and he was able to come into town when the picnicers came in on the seven o'clock train.

Mr. H. V. McKinnon, of the St. John Star, arrived in the city on Sat-urday, after spending a two weeks' vacation in New York.

HERE'S A JOB FOR BAT-PROOF BALL UMPIRE

There's a good job waiting for some-one at the Shamrock grounds, but it would not be a good one for a man who is bat-shy. Umpire Carroll found on Saturday that one of the qualifications of a man in his position is that he must not mind a little thing like a bat or two flying through the air in his direction. Throw Bat at Umpire.

In the eighth inning of the St. Peter's-St. Joseph's game, Long, the St. Joseph's short stop, so far forgot himself as to throw his bat at Mr. Carroll when the latter decided that he was struck out. Long was not put out of the game, but fielded and batted again in the evening game, but From the crowd Long received an outspoken expression of their opinion of his conduct. His action would have been bad enough in a profes-sional game, and he would have been put out of the game and fined, had such been the case. In an amateur game, where pure sport is supposed to reign, however, his work was dis-graceful.

Umpire Carroll had a slight argu-ment with Long when the latter went out to field in the ninth inning, he announced that his official connection with the league was at an end. He was present at the evening game, but Tommy Howe held the indicator. The society league offered the po-sition to several, but is still without an official umpire, although it is ex-pected that one will be on hand by this evening.

HEBER VROOM IN DANGER AT BAYSWATER

Mr. Heber Vroom met with an ac-cident at Bayswater on Sunday after-noon, which caused some apprehen-sion for a time among those who saw him from the shore. He and Mr. F. P. Johnson were on board the salmon boat Juanita, which they sailed in Saturday's race. They came about some fifty yards from the shore, and Mr. Vroom got into the tender to go ashore. He missed his footing as he was entering the small boat and fell into the water. The boat filled and would not bear Mr. Vroom's weight, but he clung to it, while Mr. Johnson tried to reach him in the yacht.

Mr. Vroom could not swim, but the wind was fortunately blowing strong-ly towards the shore, and he was in short time inshore. He touched bot-tom just as some of the spectators were putting out to his assistance.

WORMS

When children get gross and peev-ish, with poor appetite, we are in-clined to think of everything and but worms. But worms are more than likely the cause of the trouble. Nyal's Worm Syrup has been kill-ing and eliminating worms from chil-dren for a good many years. It is perfectly safe, and it is a wise precaution to give the child a course with Nyal's Worm Syrup where there is only a suspicion as to the presence of worms. It works well on grown-ups who are still troubled that way. 25 CENTS BOTTLE.
