

EACH WEEK SEES BETTER CONDITION

London Exchanges Maintain Equitable Price Level of Securities—Conditions Becoming More Nearly Normal.

Special to The Standard. London, Aug. 11—While dull, the price level of securities is well maintained. Everybody in the city feels that the tide of the war finally has turned and that a successful, steady pressure will be maintained henceforth.

Interment was made in the Methodist burying ground.

SEVEN YEARS TORTURE

Nothing Helped Him Until He Took 'FRUIT-TIVES'

ALBERT VARNER. Buckingham, Que., May 3rd, 1916. For seven years, I suffered terribly from Severe Headaches and Indigestion. I had belching gas from the stomach, bitter stuff would come up into my mouth after eating while at times I had nausea and vomiting, and had chronic Constipation. I went to several doctors and wrote to a specialist in Boston but nothing did me good. Finally, a friend advised 'Fruit-tives.' I took this grand fruit medicine and it made me well. I am grateful to 'Fruit-tives' and to everyone who has miserable health with Constipation and Indigestion and Bad Stomach. I say take 'Fruit-tives' and you get well.

ALBERT VARNER.

60c. a box, 6 for \$2.50, trial size, 25c. At dealers or sent postpaid on receipt of price by Fruit-tives Limited, Ottawa.

BRANTFORD TO GET ANOTHER INDUSTRY

Dominion Steel Products Company Ltd. to be Located there—City Makes Concessions.

Special to The Standard.

Brantford, Ont., August 11—Another big industry, The Dominion Steel Products Company Ltd., is now assured for Brantford. The city council at a special meeting granted the company a fixed assessment of \$10,000 to run fourteen years. They will locate in Holmesdale, where options have been secured on suitable property.

GRADY OF STUDEBAKER TALKS TO CAR OWNERS ON AUTOMOBILE SERVICE.

"While it is a fact that present day motor cars have been made more fool-proof than ever before, still it is unreasonable for owners to suppose that cars are magical or miraculous objects which will keep on giving 100 per cent efficiency in face of absolute neglect or abuse," says J. E. Grady, sales manager of the Studebaker Corporation, Walkerville.

"Suppose railroad companies allowed their locomotives to be handled the way some owners handle their automobiles. Suppose railroad companies allowed their engineers to run locomotives from 2,000 to 5,000 miles, without inspection or adjustment. What really happens is that after a locomotive pulls a train of cars anywhere from 150 to 300 miles, that locomotive is taken off and a new one continues the haul. That locomotive that is removed then undergoes a very thorough series of inspections and oilings, and any necessary adjustment or replacements are made before that engine is allowed to do any more work.

"It seems strange how some owners can lose sight of the fact that their cars are nothing more or less than machines, just the same as locomotives are. Furthermore, automobiles do not run over smooth steel rails, but are subjected to all kinds of roads, which sometimes furnish more strain on some parts of the mechanism than the locomotive ever gets.

"The so-called remarkable performance where an automobile makes a 500-mile run with the hood over the motor sealed is nothing alongside what some owners themselves try to do. They virtually stretch the distance to 5,000 miles; for although the hood is not sealed, it amounts to the same thing. In other words, the car receives no attention during the 5,000 miles.

"As long as the car runs too many owners are but little concerned with such matters as keeping the batteries charged, having enough oil in the motor, cleaning or replacing spark plugs or other forms of attention. "Now, a good automobile does not need a great deal of attention, or a great deal of time spent on it. But it does require some care. The Studebaker dealer organization is imbued with the spirit of so instructing and educating owners that their car troubles will be prevented, for we believe that it is far better and more satisfactory to forestall troubles than to attempt to cure them after they occur."
