

REPORT
OF THE
TREASURER OF THE ST. GEORGE'S SOCIETY
FOR THE YEAR 1854.

The Treasurer, in presenting his Annual Report, has again the pleasure of congratulating the St. George's Society upon the great extent of usefulness, which the transactions of the Charitable Committee, during the past year, will amply testify. No less a sum than £88 6s. 6d. has been expended in charity, and also the sum of £50 was voted by this Society towards the Meyer Fund.

The Treasurer has much pleasure in informing the members that the sum of £1,513 9s. 11d. has been expended in charity since the formation of the Society, being an average of £75 each year.

The expenditure of the Charitable Fund has exceeded the income by £12 5s., to which amount it now stands indebted; the small sum of five pounds has been added to the permanent fund, being for one life member: the total amount being £1,381 8s. 9.; £1,800 of which is invested in Bank Stock and other securities, and the balance remains to be invested.

One life and one ordinary member have been added to the Society since the last Annual Report.

The interest of the permanent fund this year has been £91 16s. 9d., being £3 10s. 3d. over the sum expended by the Charitable Committee, and to this fund only are the Society able to meet the demands for charity.

WILLIAM COLE,
Treasurer.

Quebec, 5th January, 1855.
