Our SEPARATOR (capacity, four to ten horse power) for the coming season will be superior in every respect to any ever before made, as our aim is to excel every manufactory in the Province, in producing first class work. In their construction none but the very best materials are used—frames well put together—cylinders run in copper boxes, which is a great improvement,—babbet metal in boxes where necessary, and everything is get up in the very best manner and with the latest improvements.

The DOUBLE PINION HORSE POWER, by which we drive the Separator and

which we have much improved, is celebrated for g eat simplicity, case of draft or effective power, costs less to keep in repair, and is very strong and durable.

Parties who intend getting Machines for the coming season, are respectfully invited to examine ours before purchasing elsewhere, as we are satisfied that they are the best and most reliable in the Provinces.
