"DERBY PLUG," 5 and 10 cts., "THE SMOKERS' IDEAL," "DERBY," "ATHLETE" CIGARETTES, ARE THE BEST.

D. RITCHIE & CO., - - - Montreal.

Drug Reports.

Canada.

Business remains quiet, purchases being small, and there is a general disposition to hold back, awaiting the opening of spring trade. There have been but few failures in the drug trade during the last month, the worst feature being the increase in "cutting" which has developed in several additional places.

In prices there is not much of change to note.

Quinine is steady at former prices.

Opium remains as before; the tendency in foreign markets is downward.

Citric acid is advancing; tartaric acid, easy.

Camphor is firm.

All preparations of bromine are higher, that article having advanced very much in price.

Linseed oils remained unchanged.

Spirits of turpentine again advanced.

England.

LONDON, March 27, 1895.

There has been further improvement in the chemical and drug markets during the month, and a fair export demand.

Carbolic acid is easy, but held firmly for the summer months.

Chlorate of potash is weak, and borax lower. Mercurials remain unchanged.

Cochineal is dearer, and coriander has advanced.

Cocaine is very firm at a recent advance. Cod-liver oil has been tending downwards during the last fortnight.

Camphor was advanced slightly by English manufacturers early in the month, and almond oil was also raised a point.

Opium is dull. Quinine steady, and prices well maintained.

Saffron is dearer, *Lut jalap, senega, and ipecacuanha* are easier. Turpentine has shown an increased value during the whole month

An Expensive Substance.

One article which does not yet appear in our Price Current is the new element Argon. We might state, however, for intending purchasers, that at present quotations it is worth \$20,000 per cubic inch.

Pure insect powder has commenced to be in demand. Prices are about the same as last year. We would warn our friends not to be induced by a few cents a pound to buy any powder on which they cannot entirely rely. Its a "penny wise and pound foolish" policy. Paris green will bring about same money as last year. Canadian samples offered are much ahead of last year; it is a nice color and runs freely. We would advise supporting home manufacture, everything being equal. Cocaine has made a decided advance in price. Disinfectants will likely stiffen in price as the season opens.

Valerianate of ether is claimed to be a specific in persistent hiccough.
