Here is a charming one for the mother and also a pretty one for the little daughter and both are smart, while they are absolutely simple and adapted to mid-summer wear and mid-summer materials. The woman's gown is especially designed for washable material. The skirt is made in four gores and the front gore can be either tucked or plain. The blouse is made all in one piece. Both making and laundering are simple matters, while the effect is a charming one. Dotted lawn is the material illustrated, with trimming of lace and finish of white lawn collar and cuffs, but every simple summer material is adapted to the model. When the skirt is made with the plain front gore, the gore can be made either of the same material or from contrasting. A pretty effect could be obtained by using
