

the way of concessions
to Nova Scotia.

Carter had made
great progress in England,
and would, I think
have succeeded, had it
not been for the change
of Ministry. He has
to commence again
de novo, but I should
think that he will get
the same support from
the present as from the
outgoing Cabinet.

What a glorious
programme it would
be to go down to Parliament
next session with Nova
Scotia pacified, New-
foundland voluntarily
joining & the acquisition
of Hudson's Bay! I
