

rain here than at Prince Rupert. Where they have snow and frost at Victoria, Vancouver ~~Victoria~~ we have rain.

Q. Well then if this property was cleared of timber, would it not be possible to raise a good crop of grass for pasturage?

A. Yes. We have Clover grass here 6 or 8 inches or a foot high.

MR. YOUNG: What is the quality of the land at the No. 2 Reserve on the right bank of the ~~10~~ 10th.

A. That is one of the Reserve I have not been to.

Q. What about Yagan (No. 5) 86 acre in extent, 12 miles east of Nassut ~~islet~~.

A. There is some Halibut fishing done on No. 5. It is poor timber land.

Q. What is the quality of the soil there?

A. The same as on this Reserve<sup>19</sup>, Poor and sandy.

Q. Are there any houses on either No. 2 or 5. ~~Is there any house on No. 2~~

A. I have not been on No. 2. There are three houses on No. 5.

THE CHAIRMAN: Are these houses on No. 5 occupied temporarily or permanently?

A. Temporarily?

MR. YOUNG: No. 4 (LANAS) On the right bank of the Yakoun River. Have you been on that Reserve?

A. Yes. It is pretty much the same as No. 1., but things would grow better there. I saw a plum tree growing there. The soil would be better because there is more float from the River.

Q. Is there timber on it?

A. Yes on the back part of it.

Q. Any swamp.

A. Yes considerable swamp at the back.

Q. A portion of it is overflowed by the River?

A. Yes?

Q. What use do they make of it?

A. They go there and camp while carrying supplies to others. ~~They~~ They also go fishing trapping and hunting.

Q. Any houses there for temporary use?

A. Yes ~~many~~ several.

Q. Does anyone live there permanently?

A. Not now. They go there every year.

Q. Is there any muskeg in it?

A. Well. It is not very dry. It is a fair reserve though.

Q. How about No. 5, about 9 acres in extent (also on the Yakoun River?)
