

NOTE.

All inquiries relating to insect pests, and packages (up to 11 ounces in weight) containing specimens may be mailed "Free" if addressed to the Dominion Entomologist, Department of Agriculture, Ottawa.

In all cases where it is possible, living specimens of the insects should be sent inclosed in a strong wooden or tin box to prevent damage in transit. Living insects should be supplied with a liberal quantity of their food plant, and in all cases they should be carefully packed.

The name and address of the sender should be written on the outside of the package, and a letter giving as full details as possible should in all cases accompany the insects sent in for report.

Farmers in the Prairie Provinces may communicate with either of the following Field Officers: Mr. E. H. Strickland, Dominion Entomological Laboratory, Lethbridge, Alta.; or Mr. Norman Criddle, Dominion Entomological Laboratory, Treesbank, Man., regarding insect injuries, particularly in cases of emergency. Letters and packages to these officers must bear postage and cannot be mailed free.
