Mr. Fielding and other members of the House of Commons regarding the importation of construction material for the Grand Trunk Pacific Railway, the members of the Executive of the Canadian Manufac the Executive of the Canadian Manufacturers' Association yesterday, at their annual meeting, despatched a telegram to the Premier, protesting against the free importation of foreign materials to be used in building the line. Yesterday was the annual meeting of the Executive, and, while evidently misunderstanding the provision of the contract between the Government and the G. T. F. on this point, the Executive believed that the epocytainty to set forth the attitude of the association should not be lost. In Handing a copy of the despatch to The Globe, Secretary Younge said: —'Leat the view of the association should be misunderstood and without making any condemation of the action of the Government until their position is made clear to us, the fellowing message was despatched to Sir Wilfrid Laurier: —

ENOUGH MEN IN THE WEST. Railways Will Not Run Supplement

ary Excursions. Toronto, Aug. 28. - From the returns made to the Canadian Pacific Railway it would appear that nearly eleven thousand people were taken from Ontario, Quebec and the Maritime Provinces on the reand the Maritime Provinces on the re-cent harvesters' excursions, a number some seven thousand less than last year, but still sufficient to harvest the crop of the west. It is understood that no supplementary excursions will be run, as the west has now all the harvest hands it requires. Last year, after the first excursions, two supple-mentaries were run, which brought the total number of harvesters up to near-ly 18,000.

Express Train Dynamited.

Sofia, Bulgaria, Aug. 28.—The eastsona, Bulgaria, Aug. 28.—The east-bound daily express from Budapest to Constantinople was blown up near Kuleli Burgas, about twenty-five miles south of Adrianople, early this morning. The dead include two women and two children.

Constantinople, Aug. 28.—It is stated that the Porte is preparing an answer to the recent Bulgarian memorandum to the public by a note declaring Bulgaria to be directly responsible for the rising in the Vilayet of Adrianople and declining to be answerable for the consequences. On Tues.ay three army Colonels, two Captains and a newspaper editor were condemned to death for participating in a plot which was discovered and rendered abortive. Despite this, however, says the correspondent, the King is obviously in the hands of the recent regicides, who are causing a veritable reign of terror

THIRTY-YARD TUNNEL DIS-COVERED AT SOFIA.

Turkish Officers Ordered Back to Constantinople—Appointment of Ibrahim Pasha—A Governor Dis-

Vienna, Aug. 28.—It is reported from Sofia that'the police have discovered a tunnel leading under the konak of Prince Ferdinand. It is 30 yards long, and it is believed was constructed with the intention of blowing up the palace. Forty Turkish officers have been ordered to return to Constantinople to answer for the outrages, committed at Krushevo. The continued absence of news from the interior of Mecedonia is causing great uneasiness to the Turkish officials here and much unrest among the public.

The appointment of Marshal Ibrahim Pasha to command the troops in Macedonia has been cancelled and the command has been given to General Nassir Pasha, a capable officer, who commanded, the brigade sent to pacify the Albanians earlier in the year.

The Governor of Ipek, Albania, has been dismissed for incapacity and misconduct, and is succeeded by Said Bey, who commanded the troops at Milrovitza when the Albanians attacked that place in the spring. Prince Ferdinand. It is 30 yards long,

Hill, the one party endeavoring to secure an entrance for the Great Northern to Vancouver and the other blocking that scheme, for very obvious reasons, culminated in a pitched battle in the dark hours of last night, when a gang of men, personally commanded by Managing Director A. E. Wood of the Vancouver, New Westminater & Yukon (the Great Northern's subsidiary road in Canada at this point), quietly lifted a considerable section of the Canadian Pacific track, near Sapperton (New Westminster), and provided for the much apposed crossing by putting in a diamond. The entire work was completed when the C. P. R. rackmen went to their day's employment, the first item of which was reporting the astonishing news to Vancouver, whence a special train load of officials come post haste. A locomotive of the C. P. R. was stationed on the diamond to bar the passage of Great Northern work trains, and then a rush was made to the course for hasty injunetions.

Mass Meeeting Says Commissioners'

Vancouver, B.C., Aug. 28.-The Treadgold Commission is now holding sell for night sessions. The Matson & Doyle has closed. protest was taken up yesterday. The opposition had a good case in the former, greatly strengthened by the evidence of Emil Weinheim, who was interested in the concession and got muddled up on the witness stand. Strange testimony was disclosed, to the effect that an endeavor had been made to hold up miners to the extent of a claim, known as Evans' claim, for the use of waste water from the

Joseph Clarke, Dr. Gafto, Mr. Reddo of The News, and other opponents held a mass meeting last might and endeavored to cast odium upon the work of the commission, saying it was unsatisfactory, and appointing a committee to wait on the commissioners, requesting that the Treadgold case be reopened.

The best people in Dawson give the commission credit for fair, just and honorable dealings. The same applies to Messrs. Woodworth and Walsh, the barristers employed by the Board of Trade to represent the cause of the people against Mr. Treadgold. Their case is handicapped by Clarke, who is determined to make political capital.

Charles Blondin, a notoriously disappointed office-seeker, at the meeting last night created much amusement by offering a resolution demanding the immediate resignation of Hon. W. H. Ross, M. P.

RAIDERS ON THE ROAD.

Perrorise the Residents on the North

Shore.

White River, Aug. 28.—There was great excitement in this settlement. For the past week there have been half a dosen "specials," taking harvesters from eastern Canada to Manitoba and the west, passing through White River every day. To-day the Nova Stotia contingent came on the scene. They have rut things pretty much as they like since a burger was not a scene. They have rut things pretty much as they like since it was the pretty much as they like since a warmed being by the things on around bie, depot, and as a result eight mean was lecked up. They held high finks at Cartier and some ether smaller stations along the line. At Chapleau they demanded that the railway restaurant be assessed up, and when it was they ate yearything seatable in sight (without paying for the sa...). They then broke all the dishes, lamps, mirrors and windows, and even pulled up part of the station platform. Every male citizen in the place was sworn in as a special constable, but with such a crowd they could do nothing. The railway sutherities is sted instructions to their employees further along the road to prepare themselves for the coming of this gang, and later sent messages to close all restaurants and station buildings as far as Portarthur. Although the train which was bringing this gang left North Bay yearday afternoon, it was late to-day before it reached White River. Instead of soming into the railway yards—as this is a divisional point on the railway—an engine and train crew met the harvesters outside the settlement, intending to change engines and pass through without stopping at the platform. This plan proved successful, though some of the crowd get off and entered the houses and gardens in the vicinity. They stripped clothes lines, pulled up potato plants and anused chemselves shooting chickens with revelvers. There is a Swedish farmity named Cremen living here.
