Principal Office: Imperial Bank Building, MONTREAL

**REINFORCED CONCRETE BRIDGES**This cut shows ONE of SEVEN arch bridge spans which we are now completing at Ottawa, Ont.  
All parts including arches and railings are in concrete thoroughly reinforced with steel bars imbedded in  
same. This construction is very rigid under heaviest loads, and will resist any flood or ice flow. No  
painting or maintenance; they are there to stay as long as the native rock. Cost about same as for steel  
bridges, and superior beyond comparison. Plans and tenders promptly submitted.**STEEL CONCRETE CO., Limited**  
Merchants' Bank Building, MONTREAL
