Although the Canadian Pacific industrial department has beet sugar factories in sight for the Province of Alberta. It is improbable that actual construction work will start for another year or so because of the fact that it is impossible this year to get sufficient sugar beet seed to plant sufficient ground to guarantee a certain acreage which the factory asks.

The Davidson and Smith elevator at Fort William will be increased to another 1,000,000 bushels capacity; there will also be installed a marine leg of large capacity capable of unloading from any ship 18,000 bushels of grain an hour. This leg will be equipped with automatic power shovels, of the most modern type, and capable of unloading any type of vessel afloat. Mr. Smith will purchase two more lake carriers. The new additions to the D. and S. plant will increase the shipping and handling capacity to three times its present efficiency.
