The King of Sewing Machines

MACHINE E S 黨 ANS

롰

THE OSBORN LOCK STITCH

Sewing Machine

Has now been tested beyond all question, and the verdict of the public is that to-day it stands without a rivale. It is the most substantially built, has the fewest working parts; and is beautiful in design and finish. Has the best design of a shuttle, and by far the largest bobbins. It is capable of performing a range of work hitherto thought impossible for Sewing Machines, is sold at about one-half the price of other Machines doing the like work, and is equally at hone on leather as on fine goods. A perfect machine guaranteed or no sale. It is the best made, simplest, more durable and reliable than any other single thread Machine. Larger and works with greater case. Will do all kinds of domestic Sewing in a perfectly satisfactory manner. Has taken first prize wherever exhibited.

Agents wanted everywhele. Splendid Inducements.
