Standard Wire Fence

No trouble with cattle breaking through and destroying crops. No fear of fences being down after an ordinary storm. There are no soft wires—no weak spots in the "STANDARD." "Standard" Wire Fence is all No. 9 Hard Steel Wire, that has the strength and lasting qualities which every farmer wants. All wires are well galvanized. That means no rust and long wear—and the crimp in the wires allows for contraction and expansion.

Then there's the "Tie That Binds"—the greatest little invention of recent years. This tie hooks on the running wire and locks smooth on both sides. Being a long oval loop, it permits of a long bend in the line wires. This tie does not injure the running and upright wires, yet holds the wires absolutely secure at the point of crossing. Get the true facts about wire fences. Write for our book and sample lock.

Absolute Cure for Sheep Scab

1/2 of the woollen cloths worn in the world are made from wool obtained from Cooper dipped sheep. Cooper's Dip is used on King Edward's famous prize-winning Southdowns. It is imported into Australia and the Argentine free of duty, because the sheep-owners know it is an absolute necessity. Cooper's Dip is the dip officially recognized by the United States Government. By Royal decree, every man in Spain, growing Merino wool, must dip his sheep in Cooper's Dip. At the Royal Show, England, in 1908, in the breeds of sheep, every prize-winner used Cooper's Dip. Last year, enough of Cooper's Dip was used to dip 250,000,000 sheep.
