

Bog Spavin

Cure the lameness and remove the bunch without scarring the horse—have the part looking just as it did before the blemish came.

Fleming's Spavin Cure (Liquid) is a special remedy for soft and semi-solid blemishes—Bog Spavin, Thoroughpin, Splint, Curb, Capped Hock, etc. It is neither a liniment nor a simple blister, but a remedy unlike any other—doesn't irritate and can't be imitated. Easy to use, only a little required, and your money back if it ever fails.

Fleming's Vest-Pocket Veterinary Adviser describes and illustrates all kinds of blemishes and gives you the information you ought to have before ordering or buying any kind of a remedy. Mailed free if you write.

FLEMING BROS., Chemists
75 Church St., Toronto, Ontario

W. A. DOUGLAS, Tuscarora P. O., Brant Co.

WOULD CAUSE LESS TROUBLE.
A fond mother in Valparaiso, hearing that an earthquake was coming, sent her boys to a friend in the country, so that they might escape it. In a few days' time she received a note from the friend, saying:

"Take your boys away and send along the earthquake."—Judge.

Heart Trouble

Caused Dizziness, Weakness and Smothering Spells.

Through one cause or another a large majority of the people are troubled, more or less, with some form of heart trouble. Wherever there are sickly people with weak hearts, Milburn's Heart and Nerve Pills will be found to be the most effective medicine on the market.

Mrs. F. Leslie Craig, 114 Erie Ave., Brantford, Ont., writes:—"It is with the greatest of pleasure I write you stating the benefit I have received by using Milburn's Heart and Nerve Pills. I suffered greatly from heart trouble which caused dizziness, weakness and smothering spells. I used a great deal of Dr.'s medicine but received no benefit. A friend advised me to buy a box of your pills, which I did, and before I had finished one box I felt so much better I continued their use by taking two boxes. I highly recommend these pills to any one suffering from heart and nerve trouble."

Milburn's Heart and Nerve Pills are 10 cents per box, or 3 for \$1.25, at all dealers, or mailed direct by The T. Milburn Co., Limited, Toronto, Ont.

QUESTIONS AND ANSWERS

Miscellaneous.

SOW SHOT.

I had a valuable sow which accidentally got out and strayed to a neighbor's place. It had never bothered him before, and his gate was open. He shot her, but did not kill her; but she is badly lamed—in fact, ruined for a brood sow. What steps must I take to recover damages?

F. G., Ontario.

Ans.—You should sue him in the Divisional Court.

STRAW.

1. A rents his farm to B in spring for three years, with no straw on farm. In meantime A sells his farm to C, buying B off to give up possession of farm to C November 1st, nothing being said about straw. But when A rented his farm to B, lease called for straw being fed on farm. C takes possession November 1st. Who is entitled to straw, B or C?

Ontario.

Ans.—We should say, C.

UNWARRANTED FENCING.

I am living in an unorganized township, and our cattle run at large. The road is made through our lots, and a bridge across a certain creek. Can the party owning the land on the side of the bridge be allowed to join his fence into the bridge and so deprive my cattle from getting water? The road was made by Government, and is supposed to be 66 feet.

Ontario.

Ans.—We do not think so.

CLOVER AND WESTERN CORN SILAGE.

1. Would it be all right to cut clover hay a little on the green side and put it into silo the same day you cut it?

2. Will Western corn, sowed in drills, do to put into silo without cutting it up? Will it cure and keep as well if packed and laid down?

M. A., Ontario.

Ans.—Green clover has been handled with fair success in the silo, but, as a rule, results have not been as satisfactory as curing in the usual way. Fill the silo with corn.

1. The late ripening "Western" corns do not make good silage. Ensiling corn whole has been done, but never commended itself to any extent to farmers. It is more difficult to keep well, and taking it out to feed is a very disagreeable job.

SILLO QUESTIONS.

1. Is a silo 14 feet wide by 22 feet high, out of proportion for a herd of 10 cows in summer, and 13 head in winter?

2. Would you advise to build inside as in draft, or at the end of draft, 10 feet in diameter and 30 feet high?

3. Which size requires the most material to build?

4. Which has the larger capacity?

5. Would an oil canvas, cut to fit, and spread over silage, keep it from drying and spoiling in hot summer months?

6. Is a silo built inside warmer in winter and cooler in summer, thus causing better preserving of the silage?

7. Are 1/2-inch rods heavy enough for hoops?

G. N. C., Ontario.

I would very much like to build inside if I can be assured the silage would keep with so big an air space and so small a herd.

Ans.—1. This silo is a little large for the number of cows stated, and the diameter is a little large in proportion to its height. Some trouble might be experienced in keeping the silage in first-class condition.

2. Only under very special conditions is it advisable to build a silo inside. We would prefer the outside location. The 10 ft. x 30 ft. silo would be a little large for the number of cows, but doubtless some other young stock is kept, and this would be a nice size.

3. A very little more material is required in the 10 ft. x 30 ft.

4. The 11 ft. x 22 ft. has the larger capacity.

5. Very little is gained by covering silage to prevent spoiling.

6. No advantage in keeping results from inside building.

7. These may be heavy enough in some cases, but 1/2-inch would not be too heavy.

WINDSOR CHEESE SALT

The man who took the first prize for Butter, said:

"The purest, richest cream in the world won't make prize butter without Windsor Salt."

Of course, I know how to make good butter and I am careful to use the best cream—but I consider Windsor Dairy Salt the biggest help that we dairymen have.

Practically every butter prize awarded at the Fairs last summer, went to those who like myself, used Windsor Dairy Salt". 40

ARTHUR J. HOWDEN & CO

WILLOWDALE STOCK FARM HAS NOW FOR SALE

a choice lot of young stock of each of the following breeds:

Clydesdales, Shorthorns, Chester Swine, Shropshire Sheep

Some extra good young bulls, descendants of Joy of Morning and Broad Scotch.

Write for prices and catalogue to: **J. H. M. PARKER, Prop., LENNOXVILLE, QUE.**

Robert Miller, Stouffville, Ont., Can supply young bulls and heifers of the very prices that you can afford to pay. The young bulls are by one of the greatest sons of Whitehall Sultan. They are good colors, and will make show bulls. I also have two good imported bulls at moderate prices and of choice breeding, and some cows and heifers in calf to Superb Sultan; the calves should be worth all the cows will cost. Some beautiful young imported Welsh Ponies still to spare. It will pay you to write, stating what you want. Glad to answer inquiries or show my stock at any time. Business established 74 years.

High-class Shorthorns

I have on hand young bulls and heifers of high-class show type, pure Scotch and Scotch-topped, sired by that sire of champions, Mildred's Royal. If you want a show bull or heifer, write me. **GEO. GIER, GRAND VALLEY P. O. AND STATION, ALSO WALDEMAR STATION.**

SPRING VALLEY SHORTHORNS

If you want a good Short-horn bull, we have them. Canadian-bred and imported. Females all ages. Also a few good YORKSHIRES—boars and sows. Prices right.

Phone connection. **Kyle Bros., Ayr, Ont.**

Springhurst Shorthorns and Clydesdales

I am now offering a number of heifers from 10 months to 3 years of age. Anyone looking for show material should see this lot. They are strictly high-class, and bred on show lines. Also several Clydesdale fillies, imp. sires and dams, from foals 2 years of age off. **Harry Smith, Hay, Ont., Exeter Sta.**
