

ARE you blaming your tires for faults that lie other-where? Have they done those things which they ought not to have done, and left undone those things which they ought to have done, in your opinion?

Look to your tubes!

Be Fair To Your Tires

Too many motorists think a tube is a tube. It is only to hold air.

That has been an expensive thought for thousands. A tube's single duty is to hold air, but it must perform that duty honestly, loyally, or the casing suffers.

For a poor tube causes slow leaks. Slow leaks cause under-inflation. Under inflation ruins tires.

That is why **Goodyear Tubes** are laminated—a quality giving **Goodyear** process.

By rolling the pure gum out into transparently thin sheets we are able to detect sand or other foreign matter. Then the perfected sheets are built up, layer for layer, into an extra thick, extra good tube that holds air longer and better, saving trouble and tire expense.

For added protection we vulcanize the valve patch in instead of sticking it on.

So **Goodyear Laminated Tubes** give longer, more satisfactory tube service.

—and save tires.

—and it is easy to say "Goodyears" when you buy tubes.

Goodyear Tubes, along with Goodyear Tires and Tire-Saver Accessories are easy to get from Goodyear Service Station Dealers everywhere.

Vanstone & Rogers

We have, we believe, landed the best bunch of Belgian Mares that has ever come to Canada. These mares include a Top Mare that won 12 Firsts at 12 different State Fairs, and several of her daughters. We have also landed a splendid lot of Clydesdale Mares and shall have Percheron Mares in shortly.

We are getting these mares cheap for cash and do not want to winter any of them as we are short of room. We have an exceptional lot of yearlings and two year olds as well as a full line of older horses. Anyone wanting an exchange of stallions should write us at once. We can deal with you much better in the fall than in the spring. Ample time on any stallion sale.
