London Office, ROSSLAND MINER, 108 Bishopgate street (Within).

LONDON, Oct. 13 .- [Special.]-I have Quebec five per cent loans of 1874 and just come in from the market. There Westralians are still in the ascendant, and this has, of course, withdrawn a certain amount of support from the British Columbia section, owing to most of the dealers who have ventured into the new section, rallying in a large measure to the Westralian market. The revival of the latter department has conseof the latter department has consequently temporarily withdrawn their getting into ore. attention from British Columbia properties. They are so busy making money out of Westralians that they will pre-

sently be all the better able to exploit British Columbia, but for the moment business in Canadian mines is dull on the Colonna, and two additional drills have been purchased. The old boiler will be used in connection with. rather than depressed for the reason stated. Recorder's syndicates (Wood-house's company) after having been up to £5 yesterday, are back to £4 5 8. Vancouver syndicates are unchanged at

£1, British Columbia "Devels" remain

York cable to its columns describing the Le Roi mine as of Rossland, Pennsylvania (sic). I at once wrote to the editor of the Glasgow Herald to disclaim any connection, geographical or other-wise, between Rossland and the state founded by the old Quaker, but the mis-chief done to British Columbia in the

BOAT CHANGES

W. H. Tye Has Resigned the Position of Chief Engineer of the Columbia & Western-K. of P. Ball Was Great Success.

TRAIL, Oct. 26. - [Special.]-Freight Agent Peters, of the C. P. R., was in due on that date on the Province of conference with Superintendent Gutelius, of the Columbia & Western, today, in reference to freight and passenger To Examine the Coxey.

transportation and connection with the Bernard MacDonald of Butte, Mont., Slocan country, via the new Trail-Robson is registered at the Allan. Mr. Macroad, and it is likely that a schedule will Donald is chief engineer for the Montbe announced in a day or two. Up to this time no regular service has been established, although a freight train goes out daily, and carries much of the material used at the smelter. This the mine. The crosscut tunnel is now evening a quantity of coke came down from Robson, for the want of which there has been little done at the works New Compressor for the Colonna. A new compressor is being installed for the past day or two.

Changes Among the River Boats. Among the boats on the river there Among the boats on the river there have been several changes. The Nakusp has been launched, and is again doing service at Arrowhead, none the worse for her long lay on the beach. She has been completely overhauled and reno-vated, and looks as bright as a new dolthe new machinery. THRILLING RESCUE. lar in her coat of fresh paint. The accifirm at £26 to £24, Dundees are steady at 28. 6d., while Yukon-Klondike prop-A Young Life Saved in a Remark-able Manner. dent was an expensive one, in a way, but the boat, would have been docked for general repairs had she not been view held its own well. I expect that Florence Sturdivant, of Grindstone carried ashore by the current. Island, Saved From an Untimely Death-Her Parents Saw Her Dang-erous Predicament. But Were Helps erous Predicament, But Were Help-less to Aid Her – How She Was of lighter draft, are doing service again. The Trail runs from here to Robson daily at 2 o'clock, connecting there with Rescued. Among the Thousand Islands is one called Grindstone. It is seven miles there with for her hard rubs, is running from Trail that the don't ngure in the list of active stocks at all. A Disgusted Shareholder Sells Out.
The meeting of the Vancouver synth cashe, called for tomorrow afternoon, is shareholders, the British Columbia serving of the balance. It was at the state of the balance is best for the balance. It was state that and the server able was engaged in the land department in searching records and and elegible the boalsnee. It was state that an and of the formed and the secones who, in disgust, sold out his holding of Galenas at the state of the works of the father.

PROGRESS OF THE MINES

To the reading public interested in the mining industry of Kootenay and Boundary Mining Districts THE DAILY MINER and WEEKLY MINER are especially useful. A corps of local writers covers thoroughly the Trail Creek district, while the staff of special correspondents, located in all the leading mining centers in southern British Columbia, reviews the mining

matters of that section.

On Sunday morning THE DAILY MINER publishes an account of the week's work in the mines. The smallest working prospect and the greatest producer are mentioned together with the number of men employed and work in hand.

A HINT TO ADVERTISERS.

The value of an advertising medium is rated according to the amount. of circulation in the fields for which the advertisement is intended. To the local business man, who wishes to reach the people of Rossland and the Kootenay country THE DAILY MINER has no competitor. Its news service, both local and foreign, has built up a circulation in Rossland, Trail and Kootenay and Slocan points that admits of no comparison with the other papers of British Columbia. To the mining operator who wishes to reach the investing public in Eastern Canada, United States and Europe, THE WEEKLY MINER presents a circulation list that will satisfy the most sceptical that he is receiving full value for money invested in its columns.
