Tame Animals I Have Known. A thick-fleshed lamb came trotting by. 'Twas whittier now, my lamb quail I. 'Twas bawled, said he, with a wail, 'My wool clipped off at the la shee. 'Lamb the day, 'Why all this din?' said he. 'I'm fashioned outside in. And all my rights and days I've tried My best to get the bark, outside. A hen was cackling loud and long. I'd like to see, 'How strange your goin' field he. 'Twas under a rock, in fact. 'It's just a lay, to be exact. Lashed the cat. 'Pray tell me why You love to sing,' she blinked her eye. 'My purr pass, sir, as you can see. Is an account of what I've done. I've been to the bar, outside. 'What I must be before,' said she, 'So I can give whittier cream, you see?'

Three Ways. Aunt Jennie was propped up in bed in the east chamber. As she glanced over a paper her sister-in-law's heavy voice preceded its owner into the room. 'Well, how are you this morning? I'm all used up myself, and I've so much to attend to, but I know to-morrow would be just as bad, and I felt I must make the effort to come.' Aunt Jennie was nothing if not gracious. She smiled, but answered gently: 'You're very good, Sarah, but you mustn't have me on your mind.' 'Well, I thought I ought to speak about your doctor. I don't say anything against him, but you don't look as well, and he is so young!' 'I don't know how I look, but I feel better, and as for his being young, I don't like him any the less for that,' replied Aunt Jane, with a smile. 'Well, he looks dreadfully inexperienced to me,' insisted her visitor gloomily. 'As he heard her sister heavily descending the stairs a few minutes later, Aunt Jane sighed to herself, 'No wonder poor George looks depressed sometimes!'

Why Not be Well and Strong. When weak and run down DR. CHASE'S NERVE FOOD will help you back to health. This letter tells of two women who have proven that the medicine works. Mrs. D. Stott, Cobourg, Ont., writes: 'After recovering from typhoid fever I was left in a very low state of health. I was weak, nervous and not fit to do any work. A friend of mine, Mrs. O. M. Brown, had used DR. CHASE'S NERVE FOOD and told me that it benefited her wonderfully. I took courage and began the use of the medicine. After taking the first box I began to feel an improvement in health and now after using four boxes I am completely cured. I now feel like myself once more and believe that I can attribute the cure to Dr. Chase's Nerve Food.'

St. Vitus Dance in Young Children. A REMARKABLE EXAMPLE OF ITS CURE BY THE TONIC TREATMENT. St. Vitus dance is the commonest form of nervous trouble that afflicts young children, because of the great nervousness of the nervous system and development, and there is an additional strain caused by study. It is when these demands become so great that they impoverish the blood, and the nerves fail to receive their full supply of nourishment, that the nervous debility which leads to St. Vitus dance begins. The remarkable success of Dr. Williams' Pink Pills in curing St. Vitus dance should lead parents to give this great blood-building medicine to their children at the first signs of the approach of the disease. Pallor, listlessness, restlessness, restlessness and irritability are all symptoms which early show that the blood and nerves are failing to meet the demand upon them. Here is proof of the power of Dr. Williams' Pink Pills to cure this trouble. Mrs. J. W. Towns, Oshawa, Ont., says: 'At the age of eleven my daughter was attacked with St. Vitus dance, and despite all we did for her the trouble grew rapidly worse. Soon she was scarcely able to walk, her body and limbs jerked and trembled so, and she was quite unable to feed herself. When she would lie down she would be unable to rise without assistance. As nothing was helping her I wrote a friend whose daughter had advised the use of Dr. Williams' Pink Pills, which had cured her child. I at once got a supply of the Pills, and even the use of the first box seemed to show an improvement. By the time five boxes were used she was completely cured and has had no return of the trouble since.'

Hints on Entertaining. Don't forget that it's people that make a good time infinitely more than things. In other words, the prime requisite of a jolly party is a congenial crowd. Get a congenial crowd together. Just let them talk, and feed them nothing but luncheon and cake, and they'll have a better time than an unaccustomed gathering fed with the most delicious fare and offered the most elaborate entertainment. Be sure to have at least one of the folks who 'make things go on your list. Everybody has at least one or two such in his acquaintance. They may not be any cleverer, or more popular than other people, but they happen to have this gift. Look over your list of guests to see if you have invited one of these folks, and if you have, get hold of one by hook or crook. Be sure to have some game to begin with which will break up the ice; no matter how silly it is, so that it dispenses the slight stiffness which is apt to set, when they have been bidden to a formal gathering. Aid that brings me to my last suggestion. Don't have your party a formal gathering. To my mind, for merrily in the death blow to enjoyment, and I am delighted to realize that the formal party of the last decade is rapidly disappearing. Eleventh-hour inspirations and telephone invitations are the order of the Twentieth Century hospitality, and for my part I hope the pendulum will never swing back in the other direction.

Sore Nipples. Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by all dealers. Important Discoveries. One of the important results of the explorations made by the British School of Archeology in Egypt during the past season was the discovery at Memphis of an alabaster sphinx, 26 feet long and 4 feet high. The sphinx weighs 40 tons and the face is as perfect as when it was carved in 1500 B. C. Earthen fortress walls more than 100 feet thick and a quarter of a mile across were discovered at Heliopolis. In a cemetery discovered 30 miles south of Cairo, some linen sheets woven in the 11th dynasty were found, and these are said to have been as fresh and white when found as if they had just come from the loom.

Delightful Concoctions of Succulent Rhubarb. Rhubarb may be canned in cold water. Use freshly cut stalks, fit them tightly into a thoroughly clean jar and let the water run full force into the jar for fifteen minutes till the air is excluded, screw on the top which is perfectly airtight—and the contents should keep as long as fresh rhubarb. Rhubarb Pie—To a pint of thoroughly baked rhubarb add the whites of four eggs, previously beaten stiff and enough sugar to make a stiff paste. Beat the mixture lightly for few minutes and bake in a moderate oven for ten minutes. Strawberry Rhubarb Pie—To a pint of thoroughly baked rhubarb add the whites of four eggs, previously beaten stiff and enough sugar to make a stiff paste. Beat the mixture lightly for few minutes and bake in a moderate oven for ten minutes. Rhubarb Meringue—To a pint of thoroughly baked rhubarb add the whites of four eggs, previously beaten stiff and enough sugar to make a stiff paste. Beat the mixture lightly for few minutes and bake in a moderate oven for ten minutes.

Single Tax in Kelowna. Vancouver has abolished the tax on improvements and personal property and taxes nothing but the land. But it is in the little municipalities of Chilliwack, Summerland, Penticton, and Kelowna that this system worked with most satisfaction. Indeed, so great is its success that a Royal Tax Commission will report in favor of its universal adoption in the Pacific Province. Kelowna has accessible land to the extent of about twelve square miles. Every street, road-way, town house and farm house has electric light. Even the farmers have sidewalks running past their wondrously productive fruit farms. And the schools are central and graded. A little one roomed, cheerless, badly-taught school for these progressive people, they have consolidated schools, with carriages to carry the children in the summer and sleighs to transport them in winter. Single tax hasn't done it all, of course. Single tax is but one feature of their progressive system of local government. Indeed, they might have had all these glorious local services, if they had never heard of Henry George's pet theory. Nevertheless it is interesting to notice that in the west progressiveness and the single tax go hand in hand in many municipalities. Chamberlain's Cough Remedy. Have You a Bad Sore? If so, remember these facts—Zam-Buk is by far the most widely used balm in Canada! Why has it become so popular? Because it heals sores, cures skin diseases, and does what is claimed for it. Why not let it heal your sore? Remember that Zam-Buk is altogether different to the ordinary ointments. Most of these consist of animal fats. Zam-Buk contains no trace of any animal fat, or any mineral matter. It is absolutely herbal. Remember that Zam-Buk is at the same time healing, soothing, and antiseptic. Kills poison instantly, and all harmful germs. It is suitable alike for recent injuries and diseases, and for chronic sores, ulcers, etc. Test how different and superior Zam-Buk really is. All druggists and stores at 50c box. Use also Zam-Buk Soap. Relieves sunburn and prevents freckles. Best for baby's bath, 25c. tablet. The woman of to-day who has good health, good temper, good sense, bright eyes and a lovely complexion, the result of correct living and good digestion, wins the admiration of the world. If your digestion is faulty Chamberlain's Stomach and Liver Tablets will correct it. For sale by all dealers. The invasion of millions of caterpillars in the San Bernardino Mountains has interfered with trout fishing, according to ninards who have encountered poor luck along the best streams in the range. The worms are blown from the trees into the water and the trout feed on them. Fish caught shortly after daybreak were found gorged on worms. The appealing of the appetite so early in the morning has caused the fish to pass up the most tempting bait. Whisking gophers is not dangerous when the cough is kept loose and expiratory energy by giving Chamberlain's Cough Remedy. It has been used in many epidemics of the disease with perfect success. For sale by all dealers. Do you have any trouble to keep your boys on the farm? 'No,' replied farmer Corntassel. 'They'd rather sit in the house around the stove than hitch up and drive to town.'

Cooking Meats by Stewing. There are two methods of stewing meats, in one, the meat or poultry is partly fried in butter, drippings or other fat, until perfectly seared on the outside, after which a sufficient quantity of water is poured over it, brought to a boil and kept at the simmering point until perfectly tender, and the water mostly evaporated. It is contended that the water must be boiling hot when poured on the hot, seared meat, as, if cold water is used, the shock of the cold liquid hardens the meat. This, however, is a matter for the cook to decide. The other method differs. The meat is not fried, but packed loosely in a pan or kettle, with sufficient cold water or stock to cook and keep simmering slowly until perfectly done. This is the method observed in making Irish stews; for the two pounds of neck or loin of mutton the time required is usually two hours; but for tough meats which are the parts generally chosen for stews, four or five hours are usually required. The fire may be allowed to gradually die out as the meat gets nearly done, and it should be left in the water, covered, until the water is cold. Tough meat, suit for any other process of cooking, is made perfectly delicious through proper stewing, and the most required for the purpose is stewing a few minutes at the start. Barely water enough to cover the meat is used at first, and only sufficient more is added as it boils away, to prevent scorching. Oldest Ship in the World. The Australian convict ship Success, which was built in 1790, and is the oldest ship in the world still in active service, has sailed from Queensland for New York on what will probably be her last voyage. She was disabled at sea some four weeks ago, but was located by means of her wireless apparatus, and was towed to Queensland for repairs. Since she has been at Queensland she has attracted much attention, and many people, including the naval commander at Queensland, visited her. Despite her 122 years, she seems sound and staunch, and it is expected that, with fair weather, she will reach New York in about 40 days. 'I love you darling more than you love me,' sighed the swain. 'Ah, that is impossible, precious,' she whispered back, 'for I love you better than you do me.' 'You cannot!' 'But I do!' 'You do not!' she snapped. 'An owl whistled unusually above them.' 'Pardon me, Gwendolaine!' 'Pardon me, Huxtable!' 'Miss Brown!' 'Mr. Jones!' 'The owl hooted dimly and sought another tower. There is one medicine that every family should be provided with and especially during the summer months; viz, Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed. It costs but a quarter. Can you afford to be without it? For sale by all dealers. 'Do you have any trouble to keep your boys on the farm?' 'No,' replied farmer Corntassel. 'They'd rather sit in the house around the stove than hitch up and drive to town.'
