HORSE NOTES.

MISS RUSSELL.

The famous mother of the reigning Queen of the trotting world, is a grey mare of great individual excellence, foaled 1875, by Pilot Jr. Pilot Jr. sired nine in the 2.30 list, and seven of his sons have sired fifteen 2 30 performers, but he is held in especial remembrance on account of the produce of his daughters. Two of his daughters have the honor of having to their credit the two fastest to date—Maud S., 2.08¾, and Jay-Eye-See, 2 10. Miss Russell's dam, Sally Russell, by Boston, was also the dam of Rosalind (dam of Zilcadi Golddust, 2 37¾, sire of Sneak, 2 24, and of the dam of Rosalind Wilkes, 2 18½). Her second dam was Maria Russell, a successful race mare by Thornton's Rattler; third dam Miss Shepherd (dam of Vedocq and Swiss Boy, first-class race horses), by Stockholder; fourth dam Miranda, by Topgallant; fifth dam by imp. Diomed, etc.

Miss Russell was handled a little when three years old, and trotted a poor track in 2 44, time that was considered very fast for the track at that date. She was bred to Belmont at four years old, and in 1870 gave birth to a chestnut colt, now the great Nutwood, with a record of 2.18¾ and the sire of twenty five in the 2.30 list. In 1871 Lady Norwood, a bay filly, by Belmont, was foaled, and when a yearling passed into the hands of R. Penistan, and was afterwards bought by Mr. Robert Bonner and died young. She was never handled, and left but one foal, a bay filly by Wm. Welch that was purchased at Penistan's sale by Woodburn. The foal of 1872, Cora Belmont, was a grey filly, and, as her name would indicate, was by Belmont. She made her record of 2.24½ at Hartford, Conn., June 22nd, 1882. Her oldest foal, by Harold, is owned by Mr. Simpson, of New York who expects to put her in the 2.30 list this year. Miss Russell rested a year and then produced the peerless Queen, Maud S., who made her record of 2.08¾, the fastest to date, at Cleveland, Ohio, July 30th, 1885. She also has the fastest heat trotted in a race, 2.13½. Her full sister, foal of 1875, died a foal. The foal of 1877, Nuthourne, grey, by Belmont, is now owned by Robert Bonner, of New York, has trotted a trial in 2.26¾. Mambrino Russell, chestnut, by Woodford Mambrino, 2 21½, was foaled 1878. He was injured and never handled, but is the sire of Haldane, 2 26¼, and Happy Russell, 2.21½. The foal of 1875 was the chestnut filly Nutula. She was never trained and was bred at three years old, and had Maudlen, 2 25¾. Nutula's next living foal is a bay filly, yearling now, by Electioneer. Russells' grey filly, by Harold, was foaled in 1880, and is now in the stud of Robert Bonner. Lord Russell, the foal of 1881, by Harold, received an injury in the tendon of left hind leg when three years old, and goes lame if worked. His services are in great, demand, and his colts commanded the highest prices. The foals of 1882 and 1883, Lady Russell and Russia, both grey, were never trained but sent to California to be bred to Electioneer. In 1884 Miss Russell again rested, and in 1885 produced Pilot Russell, who will, if given an opportunity, contest the honors with his sister. Pistachio was foaled in 1886, and like his full brother, Nutwood, is a chestnut and very promising. Russina, grey filly, by Belmont, is a foal of 1887, and the bay filly, Rustique, by Electioneer, the foal of 1888. In 1888 she was bred to Electioneer.

To summarize this great producer of speed is the dam of Maud S., 2.08¾; Nutwood, 2.18¾; Cora Belmont, record 2.21½; Mambrino Russell, sire of Haldane, record 2.26½; Happy Russell, 2 29½; Nutula, dam of Maudlen, record 2 25½; and Nuthourne, trial 2.26¼. Everything out of her that has had an opportunity on the turf is a fast performer, and all that have been placed in the stud are producing speed very great uniformity.

—W. A. Cowles, of Derby, has purchased the seven-year-old gray gelding Hendryx, 2 24¼, by Dauntless. He will start at Detroit in the 2.24 class for $10,000; at St. Louis in the 2.25 class for $10,000; at Buffalo in the 2 24 class for $5,000; at Poughkeepsie in the 2.24 class for $5,000, and at Hartford for the $10,000 purse. Last season Hendryx trotted seventeen races, winning first money eleven time, second money three times, and third money three times.

—Mr. A. B. Etter, of Amherst, has purchased from H. J. Cousins, Esq., his farm at Nappan, 2½ miles miles from Amherst Court House. This farm is situated on the top of the hill near Mr. Seaman Lowe's, and is known as the David Pugsley farm. Mr. Etter considers hills and hillsides the best adapted for the grazing of colts and horses.

—The Jewett stock farm has refused $25,000 for a pick of twenty-five colts by Jerome Eddy.

—Races on Amherst Driving Park and the Moncton Driving Park, May 24th.

—Be wise in time. You have too many gray hairs for one so young looking. Use Hall's Hair Renewer, the best preparation out to cure them. Try it.

GENERAL NEWS.

—Wolfville, N. S., by a vote of 73 to 16, has decided to have an Act of Incorporation for water purposes.

—The number of passengers killed on Canadian railways during the fiscal year, 1887-88, was 20; number of employes killed, 107; number of others killed, 104; total killed, 231.

—Ten and three-quarters miles is the range that the French have obtained for the forty-three-ton gun, thirty-five feet long, with an 800-pound projectile and 425 pounds of powder.

—Two St. John firms, the Harris Car Works and the Parks' Cotton Factory, now pay out as much in wages annually as all the St. John shipyards paid in the days of their prosperity.

—The numerous steam mills on the Miramichi have resumed operations. Within a radius of four miles there are no less than eight large mills, which give employment to about 1,000 men and boys.

—A piece of coal weighing 5½ tons has been cut at Abercara colliery, Cornwall, England, to be sent to the Paris Exhibition. The block measures 7 feet 6 inches long, 5 feet 6 inches wide, 3 feet 9 inches deep.

—The "baby bank" of the Dominion is the Farmer's bank of Rustico, P. E. I. The total liabilities are $19.806, and its resources amount to $20.000. The capital stock is placed at $8,211, and it declares a yearly dividend of 6 per cent.

—There was a decline of nearly one and a half cents in Chicago wheat on Saturday, caused by the favorable crop report, which gives the percentage of condition 96, as compared with 94 a month ago. Pork sold down 20c.

—The Houghton farm herd of Jerseys once averaged for the whole herd 5,844 pounds of milk to a cow, which produced an average of 377 pounds of butter per cow. This was not in a test, but simply good business work.

—A Quebec tanning company is prospecting for a location in British Columbia, probably Revelstoke, where some forty hands will be employed, consuming about 5,000 cords of bark per year. The idea is to procure hides from China, and to ship leather to England.

—A Clydesdale horse, said to be the largest in the world, is owned by an Oregon man, and will be exhibited at Portland, O., in a few days. The animal weighs 2,760 pounds, is five years old, 20½ hands high, 7 feet 11 inches girt, and head 36 inches long, or 11 inches longer than a flour barrel.

—The Wallace, N. S., quarries have a contract to supply 10,000 tons of stone to be used in the construction of the Grand Narrows bridge on the Cape Breton railway. This will exhaust the entire output of these quarries for the present year, and will run well in to 1890. The stone is being shipped direct by schooner.

—The big raft that is to float from Puget Sound down to San Francisco, will be made of longer logs than were ever put into a raft on Atlantic waters. It will have 5,000 logs as against 25,000 in the big Joggins raft of last year, but none will be less than 100 feet long, and the greater size of the sticks, it is thought, will bring the amount of lumber up to the amount of the Eastern raft.

—An immense trade is likely to be developed in the recently explored districts of Central Africa. The Belgian Upper Congo Commercial Co., although organized but three years ago, has already a fleet of ten steamers, ten stations and thirty general agents, which give employment to fifteen thousand porters in transporting goods, chiefly of English manufacture, in the Upper Congo districts.

—Great Britain evidently does not intend to abandon all the Pacific Islands to France and Germany. The other day the British flag was hoisted over the Lawarren Islands, a group in the Southern Pacific, north-west of Cooke Island, which was annexed last year; thus the Empire grows. During the past ten years, quietly, and except in the case of Burmah, without any war, 800,000 square miles of territory, with a population of at least 6,000,000 persons have been annexed to the British dominions.

—The Lewiston *Journal* tells of twin sisters who formerly lived in Waldo county, Me., who looked so much alike that no one out of the family could distinguish Jane from Susan, and their father himself was sometimes puzzled. Susan had a "beau," a very devoted young man, who called often and stayed late, so often and so late that the young lady began to feel the lack of sleep and remarked one afternoon, that she almost hoped George wouldn't come to-night. "Why can't I take your place for once and give you a vacation?" asked her sister. The offer was at once accepted; the tired damsel got a good night's sleep, and George never knew that he spent one evening from 8 p. m. until 2 a. m. in Jane's society, until several years after he and Susan were happily married. A similar story is told of two Boston twins, brothers. One of them had engaged to take a young lady to a theatre, but from some cause it was inconvenient for him to do so. He therefore deputed the pleasing service to his brother, and the young lady did not detect the deception.

Children Cry for Pitcher's Castoria.

WOMEN'S COLUMN.

Conducted by Members of Sackville W. C. T. U.

The President of U. S. Methodist Conference and the W. C. T. U.

My warm appreciation of the aims and work of the "Women's C. T. U." induces me to refer to a temperance meeting, held here last Tuesday evening, under the auspices of the Sydney branch of this great organization. Our commodious hall was literally crowded from platform to door on the occasion, with a thoroughly select and representative audience (in the best sense of that word); and I cannot conceive how a meeting could be pervaded with a more healthful or beautiful glow of the best temperance interest, than was in that to which I refer, while the Rev. John Murray, C. H. Harrington, Esq., and E. T. Mosely, Q. C., addressed the eager listeners, in words of good cheer and wise counsel. And here I wish to put on record, that we are thankful to God, whose providence directed here last summer, Rev. Mr. and Mrs. Keefer; through whose forceful, eloquent and practical presentation of the various phases of temperance work they had in charge, influences were put in motion which have already produced gracious results; and which I doubt not, shall prove like an ever living tree, to bring forth new harvests as the years roll by. If Mrs. Keefer could have been at the meeting last Tuesday evening, it would have made her thank God and take courage over the success which is crowning her work here, in the institution of this branch of the Union. It is a great mistake to forbear to inaugurate a good work because only a few can be induced to commit themselves to the movement at its start. God is always on the side of goodness, and He is always in the majority. The more I study the principles and methods of the Woman's Christian Temperance Union, the deeper becomes my conviction that God is in the midst thereof; and that few enterprises could be set on foot which should secure a richer avenue of glory to God, or of good to our country than the formation of branches of this organization in the various towns and hamlets of our land.

Without reflecting on any one I still say, that this enterprise needs to be pushed to the front, in our country, with more vigor. It is grandly worthy of that. This 'Union' work needs only to be studied and agitated a little, to secure the hearty sympathy of every lover of 'God and home and native land.' The organization is a temperance society, in the purest sense of that term, but it is a *great deal more* than that. Let the dear Christian women who read these lines be encouraged to move at once in the direction indicated. The eye and the light are not more fitted each for the other, than is the work contemplated by this Union, adapted to the spirit and genius of women, and these to that work. With all my heart I say God bless the Women's Christain Temperance Union' in every land; and make them a thousand times so many more as they are!

J. S. COFFIN.

Sydney, Feb. 1, 1889.

Little Women

are as a rule, possessed of happy dispositions; but when these sweet dispositions become soured and irritable, in consequence of the long train of distressing features peculiar to female complaints, they are then not companionable to say the least. It is the duty, not only of little women, but of all women so afflicted, to bring about the subjection, and immediate removal, of these painful maladies. This is easily accomplished by the use of Dr Pierce's Favorite Prescription, the great specific for "female weakness." It is a positive cure for the most complicated and obstinate cases of leucorrhea, excessive flowing, painful menstruation, unnatural suppressions, prolapsus or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness in ovaries, and kindred ailments. All druggists.

—John Mosher has issued a writ in the Supreme court, Halifax, against Fred Curry for $25,000 damages for having criminal conversation with the plaintiff's wife, for alienating her affections and for harboring or enticing his wife from him. The parties are merchants and ship builders near Windsor. Some weeks ago Curry deserted his wife and family and eloped to Boston with Mrs. Mosher, who also left a young family behind. The parties subsequently returned to their homes, and Mrs. Curry is suing for divorce from her husband.

Never Despair.

Even when all seems lost, there is yet hope. Many a despairing, disheartened victim of dyspepsia, liver complaint, kidney complaint, scrofula or rheumatism, has been brought back to health and usefulness by Burdock Blood Bitters, the greatest remedy known for all blood diseases.

—"Friendly Rivalry: A Story of the Twentieth Century," the first essay in fiction by the English psychologist James Sully, will appear in *Harper's Magazine* for June. It gives a clever exposition of the marriage question and present educational issues from the standpoint of the "evolved" society of 1950. Mr. Sully's philosophical works include "Illusions," "Sensations and Intuition: Studies in Psychology and Æsthetics," "Pessimism: A History and a Criticism," and numerous contributuhns to the leading English reviews.

Faithfully Recommended.

In the spring of 1888, I had inflammation of the lungs, which left my lungs weak. I had a very bad cough, and resolved to try Hagyard's Pectoral Balsam. It did me more good than any other medicine I have ever taken, and I can faithfully recommend it." Miss Mary Kay, Virginia, Ont.

Why Senator Blackwell Would Not Trade.

Not long ago Senator Blackwell went out to Western Texas on a pleasure excursion, and en route took in the Indian Territory. He was so pleased with its green, blue-grassy appearance that he concluded to make a horseback journey through part of it. One day, when he was riding along, taking in all the glories of the great pasture-land, he was overtaken by a well-mounted, well-armed and well-dressed red-skin, who spoke a little English. "Cow man eh?" was his first enquiry.

"Oh no; I am just looking at this fine country. I don't live here; I live in Kentucky."

"Kentuck! Ugh! You got whisky?"

The Senator had a small flask of "Old Crow" in his side pocket, and immediately produced it. In a little time the aboriginal wanted a second drink, and finally the whole flask, but after giving him two small "jiggers" the civilities were brought to an end.

That evening, when the Senator was in the public room of the hotel at the little Texas town, he told the circumstance of having met the Indian, and said:

"In all my life I have never seen any human being on God Almighty's green earth that ever had a tithe of the appreciation for a bottle of whisky that this redskin manifested. Gentlemen, I am telling you not a whit more than the absolute truth when I say that Indian began by offering me his repeating Colt's rifle and ending by dismounting from his horse and offering me his Arrapahoe blankets, his Mexican silver-mounted saddle, his gun, pistols and the horse itself for what remained in my flask. I really believe he would have given his leggings, moccasins, gee strings and all and gone back naked for just that little modicum of whiskey." "Well, Senator" said one of his auditors, "why did'nt you trade with him?"

"Trade with him," said the Kentuckian in utter astonishment at such a question. "It was the last half-pint I had."—*Washington Critic.*

A Racing Sensation.

(New York Herald.)

Proctor Knott, the winner of the Futurity and Junior Champion stakes last year, started in the Kentucky Derby, one mile and a half, at Louisville yesterday, and was defeated after a desperate struggle by Spokane, a colt not regarded as at all dangerous. Eight horses went to the post, and Proctor Knott was considered what turfmen call "a moral"—that is, a true winner. The time was very fast, better than a Derby has ever before been run in, and taking the ages of the horse and the weight carried into consideration it is the best performance for the distance ever run in America. The record stands in this way:—Firenzi, four years, 113 lbs., Monmouth Park, August 2, 1888; Luke Blackburn, three years, 102 lbs., Monmouth Park, August 17, 1880, and Jim Guest, four years, 98 lbs., Chicago, July 24, 1886, all in 2.34, while Spokane, three years old, carried 118 lbs., and the time is 2.34½.

—Some Maine lumbermen, who were annoyed by a bear stealing their molasses out of the camp storeroom, put up a job on bruin. They got an empty molasses keg, filled the sides of it full of sharp pointed nails, inclined towards the bottom, poured a little molasses into it, and set the whole arrangement out in the bushes near the pigpen. The next morning it was found some distance from the camp. The bear's head was inside. He had stuck it in and couldn't draw it out. A rifle ball ended his misery and his thieving.

—The conversation turned upon a certain gentleman who is not what you may call a brilliant speaker. "He has only three faults," a friend apologetically remarked; "(1) he reads his speeches, (2) he reads them badly, (3) they are not worth reading.

—A German paper states that Samoan conference at Berlin will decide that foreign advisers of the King of Samoa shall be appointed each year, representing in rotation the countries interested.

Mist on Earth.

As morning sun, with strong and vivid ray,
Drives from the earth the sullen mists away,
So B. B. B., in strength and power grand,
Doth rout disease and stay death's heavy hand.

—Prof. St. Clair, the aeronaut, in attempting to give his "leap from the clouds," at the Fair Ground park, Houston, Texas, last Sunday evening, lost his hold on the parachute and fell 800 feet to the earth. Nearly every bone in his body was broken.

Policemen Suffer

From rheumatism, dyspepsia, biliousness, kidney complaint and many other ills, in exactly the same manner as ordinary mortals, and Burdock Blood Bitters cures them quickly and permanently just as it always does in every case, from whatever cause arising.

—The Bellaire goblet works at Findlay, Ohio, were burned Tuesday. Loss $115,000; insurance $65,000. Some 300 men are thrown out of employment. The works are the largest of the kind in the world. They will be rebuilt at once.

—When an Indian dies his relatives pay his debts. And yet some people think Indians can be civilized.

Children Cry for Pitcher's Castoria.

Liver Disorders
Soon cause the blood to become contaminated and require prompt treatment. The most marked symptoms are loss of appetite, headache, pains in the back or side, nausea, and relaxation of the bowels. Ayer's Pills assist nature to expel the superabundant bile and thus restore the purity of the blood. Being purely vegetable and sugar-coated, they are pleasant to take, mild in operation, and without ill effects.

"After many years' experience with Ayer's Pills as a remedy for the large number of ailments caused by derangements of the liver, peculiar to malarial localities, simple justice prompts me to express to you my high appreciation of the merits of this medicine for the class of disorders I have named."—S. L. Loughridge, Bryan, Texas.

"I had tried almost everything for chronic liver complaint, but received no relief until I used Ayer's Pills. I find them invaluable."—W. E. Watson, 77 East Illinois st., Chicago, Ill.

Ayer's Pills,

Cleanse the System
DO IT NOW
With that most reliable medicine—Paine's Celery Compound. It purifies the blood, cures Constipation, and regulates the liver and kidneys, effectually cleansing the system of all waste and dead matter.
Paine's Celery Compound
combines true nerve tonic and strengthening qualities, reviving the energies and spirits.
"I have been troubled for some years with a complication of difficulties. After trying various remedies, and not finding relief, I tried Paine's Celery Compound. Before taking one full bottle the long troublesome symptoms began to subside, and I can truly say now, that I feel like a new man. Digestion has improved, and I have gained ten pounds in weight since I have commenced taking the compound."
HONESTUS STEARNS, Felchville, Vt.
$1.00. Six for $5.00. At Druggists.
