DEBATE ON THE ADDRESS PRO-LONGED UNREASONABLY.

Wants Rural Mail Delivery —Sir Wilfrid Laurier's Statement Regard-ing the All-Red Line Project.

Ottawa, Dec. 9.—It is now quite evident that the Opposition has determined upon prolonging the debate on the address to the utmost limit. Hon. Mr.

upon there had been a dealy in tover.

Mr. Pugsley informed Mr. Macdonnell that the channel at the eastern gap at Toronto had been dredged to a minimum depth of eighteen feet, and the approaches to a minimum depth of twenty feet, the width being four hundred feet out to the twenty-foot water line.

Mr. Foster was informed by Mr. Oliver that Mr. Preston was at Yokohama studying commercial conditions for the purpose of extending Camadian trade.

Mr. Templeman informed Mr. Claude Macdonell that no saccharine standard was prescribed by Government regulations in the manufacture of sugar in Canadia.

Mr. Armstrong Resumes Debate. Mr. Armstrong Resumes Debate.

The debate on the address was resumed by Mr. Armstrong, who attacked the Minister of Agriculture for opposing free rural mail delivery. Mr. Fisher, he declared, was acting in a way detrimental to the interests of the farmers. Mr. Armstrong concluded by moving the following amendment: "We desire to express our regret that more adequate refreence has not been made to the matters of public interest alluded to in your Excellency's gracious speech, and that ters of public interest alluded to in your Excellency's gracious speech, and that other matters of grave public concern have altogether escaped mention therein. We also humbly desire to express our regret that your Excellency's speech contains no allusion to the importance of inaugurating a system of rural free mail idelivery, under which our rural population may enjoy, so far as Canada's resources will permit, great advantages in that respect which have been secured to the rural communities of other countries."

Imports and Exports.

Mr. Hughes (King's, P. E. I.) considered that the contentions of the Opposition in respect to rural free mail delivery had already been so fully dealt with in the House and the press that there was no need for a discussion of them on his part. He preferred to devote his time to some consideration of the pessimistic speeches of Mr. Cockshutt and others, taking issue with their attitude that the taking issue with their attitude that the great excess of imports over exports, as shown in Canada's trade returns, was a situation that should be regarded with alarm, and that called for action on the part of the Government in order that it might be reversed. Mr. Hughes held, in the contrary, that an excess of imports generally indicated the measure of profit in the trade of a country.

Mr. Staples (Macdonald, Man.) criticized the Government's immigration policy, on the ground that too much attention was given to quantity rather than quality. issue with their attitude that the

An amouncement indicating that the allived line project is receiving the careful consideration of the Government was smade by Sir Wilfrid Laurier, who stated that certain parties shad made the application for subsidies, but that no official action had yet been taken.

Replying to Mr. Chude Macdonnell, Sir Frederick Borden said negotiations with the city of Toronto for the sale of Garrison Common were concluded by order in Council on May 16th, 1904. NEARLY ALL YOUNG WOMEN ARE WHITE-BLOODED, ANAEMIC

Anaemic is associated with languor and sensitiveness to cold. All the mucous surfaces, such as the gums, lips, and eyelids, are blanched and waxy looking, the skin is pallid and color-less. The pulse becomes rapid and feeble; there is also loss of appetite and enfeebled digestion, palpitation of the heart, breathlessness and tendency to faint. In extreme cases there is complete disappearance of the menstrual flow and dropsical swelling of the limbs.

Treatment consists in restoring the red corpuscles of the blood and building up the general health. Physicians know of no remedy so prompt in results as Ferrozone, which contains all the elements lacking in debilitated blood. Ferrozone to only improves the present quality of the blood, but actually forms more blood—the rich, red kind that nourishes the feeds the organs that require assistance. It is impossible for any person to suffer from White Bloodedness that uses Ferrozone. This is amply proved by the following statement:

BOLD ABDUCTION.

FATHER ARRESTED FOR CARRYING

Mr. and Mrs. Rotter Cause Excitement at North Bay—Lady Ran Away From Her Husband in Chicago, Taking the Boy.

North Bay, Dec. 9 .- A bold abduction se caused considerable excitement here to-day, and gave the police force a hard day's work. Some months ago Mrs. Augusta Rotter left her husband, E. D. Rotter, in Chicago, owing to domestic troubles, and disappeared with her

Rotter, in Chicago, owing to domestic troubles, and disappeared with her seven-year-old son, Arthur, leaving no address. The husband engaged detectives, and the chase for his wife and boy began without avail for some time Recently the trail of the fugitives was found, and American sleuths traced the mother and son to North Bay. The next act in the drama was the arrival of Rotter and his appearance at police headquarters, where he solicited the assistance of Chief of Police Mitchell in locating wife and child.

A visit to the public schools was awarded by finding little Arthur Rotter, who seemed far from pleased at the sight of his father, and cried bitterly for his mother. A visit to the mother was then suggested by Chief Mitchell, and the two started, ostensibly for her apartments, but Rotter gave the policeman the slip on a plausible excuse, and disappeared with the boy.

Crown Attorney Browning was notified of the facts of the case, and the police were instructed to secure Rotter. It was ascertained that Rotter dragged the boy, crying and struggling, to the suburban station of the T. & O. Railway, where they boarded the northbound express. Rotter evidently thought it was the Grand Trunk Toronto train. Telegrams were despatched to northern towns, asking for the arrest of the abductor, and the case grew exciting, the mother coming on the seene when she found that her boy had been snatched from her.

Late this afternoon a message was received from New Liskeard that Rotter had been arrested there on the arrival of the train and that he would be brought back to North Bay on the first train with the boy.

Get a Home in Lisbon.

Lisbon, Dec. 9.—Many are the troubles of reformers. Senhor Franco, the former Premier and now the dictator of Portugal, who is helping the King to stamp out official corruption, is finding this to the full. He finds it difficult even to keep himself housed.

In the first place his neighbors, fearing that they might themselves suffer from bombs directed at the dictator, have signed a petition praying him to leave the neighborhood with all despatch. Then the insurance company has notified him that it could not continue the policy on his house, on the ground that his tenancy was too dangerous.

ground that his tenancy was too dangerous.

In searching for a home. Senhor Franco was refused time after time, as the landlords were unwilling to have a tenant who caused such dread to his neighbors. He finally found refuge in an isolated house in a suburb.

The Opposition and Monarchist parties have decided to issue independent manifestos replying to the strictures upon previous Administrations, and attacking the dictatorship of Premier Franco. The failure of these two parties to effect a coalition is regarded as a virtual breakdown of the Opposition.

Premiar Franco is so much encouraged over the outlook that he has officially announced his intention of holding elections the end of next March.

CRIME TO CARRY A PENKNIFE. Italy Proposes Drastic Law to Check

Rome, Dec. 9.—The Government is making a half-hearted attempt to diminish cases of murder and injury by stabbing. It has been estimated that the total number killed and injured by knife stabs has been almost 10 per cent. of the entire population, and it is therefore proposed to enact a special law putting common knives, razors and such articles which are usually carried in the pocket in the same category with daggers and firearms.

Any one found to possess such weapons is liable to four months' imprisonment for the first offence and longer sentences for subsequent offences. The issuance of permits to carry arms will be greatly restricted and the punishment for crimes of bleed resets. Rome, Dec. 9.-The Government
