"HAMLET" IN INDIA. Shakespeare Revised to Suit Babu Taste.

A correspondent describes an Urdu performance of "Hamlet" and Sheridan's "Pizarro." The "Hamlet" is entitled "Khooni-Nahak".

Both tragedies undergo considerable alteration in the process of translation; but this is made necessary, I was told, by the Indian audience's dislike of pure tragedy and love of farce. The very slight comic relief which Shakespeare provided in "Hamlet" is replaced in "Khooni-Nahak" by an elaborate farcical underplot of servant love, while a more romantic turn is given to the story by the introduction of a rival lover of Meherbanoo (Ophelia). A similar farce, also suggested by the Oriental conception of the humors of love and marriage, has intruded itself, perhaps more justifiably, into the sombre play of Sheridan. It is true that these innovations have little real connection with the main purpose of the play. But to an European they are very interesting as illustrations of other sides of Indian dramatic genius.

The minor female roles are performed by boys. These particularly interested me, for I have often wondered how the boys of the Elizabethan stage in England could be drilled into really losing their identity in the characters they represented. But when I found myself speculating whether these were boys or girls and when I saw the thorough way in which they entered into the spirit of their roles—especially the "urchin" of Asseer-Hirs—I was no longer surprised that the boy actors of Shakespeare's time at one period drove their adult rivals out of popular favor.—From the Times of India.
