...Is Beef Lard, or Butter, there ... change.

...DIA PRODUCE.—Sugars continue to ... the few lots offered at auction have ... buyers at better prices—bright sam... rates, and for such 57s. 6d. is demand... and Rum remains the same—Jamaica ... up, and we have heard of sales in ...

...GRAIN.—About 5000 bushels fair quality American Wheat, returned from England, sold at 6s. 19½; and 9000 bushels Canada Barley at 4s 6d; low Corn at 9s @ 9s 2; Northern Rye, 6s @ 9s; and Northern Oats, by retail, 3s @ 3s 3 cents.

HEMP.—The market continues heavy, but the stock is not large. 9000 lb. I. Buffalo at 5½; and 1200 Cow, 9 cents, 6 mos. recently received, are held some time previous to arrival.

...ASHES.—15,500 sides Pots have been disposed of at auction since our last, which show a decline of ½ a cent @ lb. on all descriptions. The attendance, however, owing to the unfavourable appearance of the weather, was less than usual.

...PROVISIONS.—Beef and Pork continue to arrive freely, but the demand for both is still limited, and for prime Beef we slightly raise our quotations. Lard also continues dull, and has declined no further. For Butter, there has been a tolerably brisk demand, and considerable sales have been made of *old* Western at 10; *old* Global, 12; and *old* Vermont at 15 cents. Nearly all the Cheese in market has been taken at 11 cents. Cheese and Hams are still dull, but the stock of the former is small.

TALLOW.—American continues heavy, and has declined: sales at 8½ cents. No Foreign in market transpired.

EXCHANGE.—Some further small sales have been made for the packets which are still detained, at 6½ @ 6¾ per cent. prem. on England.

GEORGETOWN (D. C.) MARKET, JUNE 1.

FLOUR.—The article is in better demand, and prices have further advanced. We notice sales yesterday and today at $6.50 @ $6.62—we therefore advance our quotations to $6.50 @ $6.62½.

GRAIN.—Wheat is scarce and wanted at $1.35. Corn 60 cts. Corn has declined and is selling to-day at 60 cts. @ 71 cts. for white and yellow.

...AND CROPS.—The long drought of ... had to complain a week ago, and which ... ating so injuriously upon the crops in ... ity, has been followed by a rain of re... cessive days, which during the last two ... tinuously, has completely saturated the ... h moisture. Yesterday we had one of ... violent north-east storms which has ... ssed for a long time. The wheat and ... hich hail suffered extremely in this vicinity from the dry weather, cannot but be greatly benefitted by the rain which is yet falling. We regret to say that our intelligence from the lower part of the country, and the peninsula generally, is very unfavourable for the wheat crop.—The ravages of the fly have been unusually extensive and destructive, and a serious failure of the crop in that district of the country is anticipated.—*Delaware State Journal of Tuesday.*

SOUTHERN EXCHANGE.—The agency of the United States Bank in this city, yesterday commenced discounting notes and bills of exchange payable at all the southern places. The rate is generally two and a half per cent. and interest at the rate of seven per cent. Nothing takes which has more than four months to run. The operation is one likely to give essential relief to ... money market, as we understand the Bank ... on to take all the misfortune paper of ... which may be offered. We could wish ... of exchange were less, yet we do not ... the Bank is bound to say gratuitously ... not. It must of course make as good or ... tion can be found elsewhere, or the ... ill not accept its offers.—*N. Y. Journ...*

...—In the motion sale of Salt in yesterday, for 10d. read 10s.
