PRESENT TO MR. GLADSTONE.—A few days ago Mr. Gladstone received, carefully packed in an oaken box, and nicely enveloped in many folds of tissue paper, a massive handsome silver poker. It bore on the squared end this inscription:—"Presented to stir the minister to stir himself, to enable the country to stir a cheaper coal."

RUSSIA IN LONDON.—It is said that the agitation for the constitution of a Greek empire is the politic work of Russia. That if others supply the eloquence, the Greek fire of talk—it is Russia that stands the shot.

INTEGRITY OF FOREIGN POWERS.—The preservation of the integrity of the Ottoman Empire is no doubt a very important object; but a matter of no less consequence is the restoration of the integrity of the Kingdom of Spain, which it has lost in cheating its creditors.

MAKING THE NAVY USEFUL.—There is an awful fluttering among the naval epaulettes. A whispering is abroad, that the president contemplates putting all the ships, or the better part of them, into active and systematic service, by making regular and stated mail carriers of them from the United States ports to the most important ports in the West Indies and South America, and the Mediterranean. Africa will have a line of two frigates—that have never done anything but make a pleasure cruise once in a while—but in fixed communication between Norfolk and Liberia; and one of the best steamers—and poor is the best—will start regularly from New Orleans, touch Cuba, Hayti, Porto Rico, and pass on to Sierra Leone and Liberia, and thence return on the same track to New Orleans. If President Pierce and Mr. Dobbin have the nerve to carry out their idea, it will open a new and brilliant epoch in our national advancement.—U.S. papers.

The Hon. J. S. Mc Donald, Speaker of the House of Assembly of Canada, is at present on a tour through Great Britain and Ireland.

A thousand persons were lately indicted by the Grand Jury of New York, for selling liquors without licence.

AFRICANIZATION OF CUBA.—The Washington Union states that Great Britain by the consent of Spain, is going to introduce apprentices from Africa into Cuba, under protection of ships of war, and thus Africanize that island, and weal thy Spaniards in Cuba, in anticipation of imported apprentices, are now negotiating to supply them, at a fixed price. The arrangement is regarded as a transfer of Cuba to England.

SALT AS FOOD FOR PLANTS.—Professor Way, chemist to the R. Agricultural Society in a lecture on this subject, stated, as a conclusion to which his investigations had led him, that common salt was neither directly nor indirectly a constituent of the food of plants. He stated, however, as his belief, that salt did, in some instances, produce an action beneficial to vegetation, on some soils. He had not carried out his investigations to such an extent as to say positively, to what this effect is attributable, but he was led to believe that the common salt acted on certain silicates of lime present in a way as yet not understood; and at the same time as it afforded a supply of lime to plants, gave rise, probably, to a modification of silica, important to the straw of the cereals." In reference to Prof. Way's remarks, other members of the society gave the results of their experience in the application of salt to land. Col. Challoner said he did not consider it acted simply as a manure on grain crops, "but it stiffened and brightened the straw, and caused it to ripen from 3 to 5 days earlier than it otherwise would have done." Mr Barrow has found salt improves the strength and quality of his wheat straw, his neighbours' crops having been laid while his stood well. Mr. Meeki said—"not being able to give the scientific reason, salt gave strength and brightness to the wheat straw and prevented its lodging." He applied it at the rate of 3 cwt. per acre, mixed with the same weight of guano."

GOLDEN THOUGHT.—We know not the author of the following, but it is replete:—Nature will be reported. All things are engaged in writing their history.—The planet, the pebble goes attended by its shadow. The rolling rock leaves its scratches on the mountain, the rivulet channel in the soil, the animal its bones in the stratum, the fern and leaf their esmod epitaph in the coal.—The falling drop makes its sculpture in sand or stone; not a foot steps on the snow or along the ground, but prints in characters more or less lasting a map of its march: every act of man inscribes itself on the memory of its fellow and its own face.—The air is full of sounds, the sky with tokens; the ground is full of marks and signatures, and every object is covered with hints, which speaks to the intelligent.

HOLLOWAY'S PILLS. EXTRAORDINARY CURE OF LOSS OF HEALTH, DISORDERED STOMACH, INDIGESTION AND DETERMINATION OF BLOOD TO THE HEAD. Copy of a Letter from Mr. John Lloyd, of Erwen, near Harlech, Merionethshire. To Professor HOLLOWAY. Sir,—I avail myself of the first opportunity of informing you, that, for a very long period, I was afflicted with a dangerous giddiness and frequent vomitings in the head, attended by loss of appetite, disordered stomach, and generally impaired health. Every means had failed to give me any permanent relief, and at length it became so alarming, that I was really afraid of going about without an attendant. In this melancholy condition, I waited personally upon Mr. H. H. Chemist, Harlech, for the purpose of consulting him as to what I had better do; he kindly recommended your Pills, I tried them without delay, and after taking them for a short time I am happy to bear testimony to their wonderful efficacy. I am now restored to perfect health, and enabled to resume my usual duties. You are at liberty to publish this letter in any way you may think proper. I am, Sir, your obedient Servant. (Signed) JOHN LLOYD. June 6th, 1852.

MIRACULOUS CURE OF DROPPY. Extract of a Letter from Edward Rowley, Esq., of Nidale Walk, Togoog, dated April 9th, 1852. To Professor HOLLOWAY. DEAR SIR—I deem it a duty I owe to you and the public at large to inform you of a most miraculous recovery from that dreadful disease, DROPPY, and which, under God, was effected by your valuable Pills. I was tapped five times within eight months, and skilfully treated by two medical practitioners, but could not get cured, until I had recourse to your remedy, and notwithstanding all I had undergone, this marvellous medicine cured me in the course of six weeks. (Signed) EDWARD ROWLEY. A DANGEROUS LIVER COMPLAINT AND SPASM IN THE STOMACH EFFECTUALLY CURED. Copy of a Letter from Mr. Bedoch, Druggist, of Ashton under Lyne, dated July 31, 1852. To Professor HOLLOWAY. DEAR SIR—I have much pleasure in handing to you a testimonial of the efficacy of your Medicines. A person in this neighbourhood, with whom I am well acquainted, was afflicted for a long time with violent spasmodic pains in the stomach and liver, arising from frequent colds, anæmia of paint, and the effects of a steeping position, which he was obliged to assume in his business. The spasms were of an alarming character, and frequently left him in a weak and debilitated condition. At length he heard of the salutary effects of your invaluable Pills, and was induced to give them a trial. The first dose gave him considerable relief, and by following them up in accordance with your directions, they have acted so wonderfully in cleansing the liver and stomach, and strengthening the digestive organs, that he has been restored to the enjoyment of good health. I remain, dear Sir, yours faithfully. (Signed) WILLIAM BOSTOCK.

INFAILLIBLE CURE OF A STOMACH COMPLAINT, WITH INDIGESTION AND VIOLENT HEAD-ACHES. Extract of a Letter from S. Gowen, Chemist, of Clifton, near Bristol, dated July 14th, 1852. To Professor HOLLOWAY. DEAR SIR—I am requested by a Lady named Thomas, just arrived from the West Indies, to acquaint you, that, for a period of eight years herself and family suffered from continual bad health, arising from disorders of the Liver and Stomach, indigestion, loss of Appetite, violent Head-aches, pain in the side weakness and general debility, for which she consulted the most eminent men in the colony, but without any beneficial result; at last, she had recourse to your invaluable Pills, which in a very short time effected so great a change for the better, that she continued them, and the whole family were restored to health and strength. Further she desires me to say, that she has witnessed their extraordinary virtues in those complaints incidental to children, particularly in cases of Spasms and Scarcities, having effected positive cures in such diseases with no other remedy. (Signed) S. GOWEN. These celebrated Pills are wonderfully efficacious in the following complaints.
