

His Foot Under Axe.

Zam-Buk Proved Very Useful.

Mrs. H. Sawyer, of Keene, Ont., says:—"I must write you in praise of Zam-Buk, a proof of the merits of which we have just had. My husband is engaged on a farm, and one day while chopping wood, the top of the axe broke and fell upon his foot, cutting a nasty gash. The wound was so bad that we first thought we would have to get a doctor, but we finally decided to dress the cut with Zam-Buk. Well, the Zam-Buk treatment proved a success. It not only eased the pain, but it prevented any inflammation, and right from first applying it, the cut began to heal. It is now completely healed, and my husband says he will never be without a box of Zam-Buk in the house, for we are sure it saved us a great deal of expense."

Over and over again Zam-Buk has been proved to be the worker's best remedy. As soon as applied to a cut, burn, a scald, or any skin injury, it relieves the pain and it sets up healing. It also sterilizes the wound and prevents blood-poisoning or inflammation.

It is a sure cure, too, for eczema, piles, ulcers, old wounds, bad leg, ringworm, scalp sores, festering, running sores, boils, eruptions, chafings, insect stings, sore feet, etc. Its absolute purity, also, makes it the ideal balm for babies. Zam-Buk Soap should be used along with the balm for washing all sore places. This soap will be found excellent for baby's bath, even where the balm is not being used.

All druggists and stores sell Zam-Buk at 50c. box, and Soap at 25c. tablet, or post free from Zam-Buk Co., St. John's, Nfld., upon receipt of price. Refuse substitutes and imitations.

Framing the Treaty.

Special Evening Telegram.

WASHINGTON, To-Day. The President said it might be weeks before the Treaty of Peace would be submitted to the Senate or to Great Britain for ratification. Some difficulties in the framing of the Treaty had disappeared. The objection raised by the States that the object of the Treaty was to settle disputes between the States and Britain, they shall be submitted to an Arbitral Court for settlement. In the opinion of the President and his advisers, it is perfectly natural that the Senate here or the British Parliament or the British Foreign Office should be concerned in framing the details for the settlement of each dispute. So far no agreement has been reached among the framers of the Treaty here, as to how the proposed Arbitral Court shall be constituted. One proposal is that any questions in issue shall be submitted as they arise to the Hague Tribunal; another that as each question comes up a court be constituted by agreement by both Governments to settle that question alone. The President is of opinion that Great Britain will not frame separate propositions, but will await the submission of the one being drawn up here. The President did not know how long the Treaty would run.

The Last Kick.

Special to Evening Telegram.

LONDON, To-Day. Before the vote was taken on Clause two of the Parliament Bill, the Home Secretary, Mr. Winston Churchill, said the adoption of the Clause was imperative, because there has come about a complete paralysis of the working constitution and a denial of all form of redress to those who did not belong to the Conservative party. The safeguards which the Clause left the House of Lords for delay to obtain revision, would still place Liberals under great disabilities, compared to Conservatives, and that was the reason why the reform of the membership of the Upper House should follow as a complement to the Parliament Bill. Mr. Balfour, the leader of the Opposition, declared that the real purpose of the bill was not the improvement of the Constitution, but the carrying out of Home Rule. The Government had succumbed to the threats and the cajoleries of the Nationalists and the Laborites. The House adjourned after the Committee had rejected the proposed new clauses, thus disposing of the Committee Stage of the whole Bill.

The Famine in China.

Special to Evening Telegram.

SHANGHAI, To-Day. A correspondent of the Canadian press, who has returned from the famine stricken district of Northern China, found the condition improved as a result of relief work, but it is still very bad. The number of deaths daily has decreased from several thousands in March to a few hundred.

Newfoundland Poultry Association.

The regular monthly meeting of the Newfoundland Poultry Association was held last night in the Department of Mines and Agriculture. A considerable amount of business was disposed of, after which Mr. A. C. Bennett read a paper on the rearing of chickens, describing at length the proper method of breeding, feeding, etc. The address being the result of practical experience, was favourably commented upon by those present, and considered helpful and instructive. Mr. J. E. Butler then read a paper on the Poultry Industry, which gave figures and statistics showing the enormous proportions it has reached in America, where in 1908 it was greater in value than all the wheat produced in that country, larger than the Oat crop, nine times the value of the Tobacco crop of the United States, and twice that of the world, and greater than the farm value of all the sheep and swine in the United States in 1909. According to Hon. Sydney Fisher the Poultry Industry of America was greater than the products last year of all the farms and ranches in the Dominion of Canada, including all the live stock, field crops and everything that was produced on the farm of Canada. The papers were discussed in a general way by those present, and further valuable information was obtained. The Secretary announced that Mr. Geo. Gushue would be the speaker at the next meeting, when it was hoped the Association would have its own rooms to meet in.

Education.

This word has become largely a synonym for a method of mental discipline extending over the early and formative part of life to the end that intellectual success may attend the efforts of pupils when they leave the school and the graduates when they pass from the college lecture rooms out into the battle of life. The shortsightedness and fallacy of an interpretation that would so limit the meaning and scope of one of the most suggestive and far-reaching words in human language is evidenced—by taking one illustration—from many that might be chosen—by the deplorable fact that not a few of the young men who have won prizes at school or college, in after life bring shame and sorrow to their relatives and become a burden to their country. No! There is a moral quality; a fabric of strong, compelling power; a bulwark against temptation, and a persistent, and in the main, victorious opponent of evil in every form that must be cultivated encouraged and matured in season and out of season, along with the training of the intellect. This paramount factor in life may be called Christian character. What are our schools and colleges doing for the upbuilding of Christian character in the youth of our Land?—Canadian Churchman.

Sir Mathews Nathan.

To Succeed Sir Eldon Gorst in Egypt. London, April 28.—The Jewish Chronicle states that it is rumored that Sir Mathews Nathan will succeed Sir Eldon Gorst as British resident in Egypt.

"Should this report prove correct," says the journal, "it will be the second time in history, after a lapse of some 1,000 years, that a Jew will have taken the most prominent place in the government of Egypt."

Sir Mathews Nathan was formerly Governor of Natal. FIERCE STREET FIGHT.—At 5.30 p.m. yesterday two outboard men fought several fierce rounds at the foot of Queen's Street, and when arrested the police had a hard time with them. Fireman Mike Codner of the Western Station gave the police valuable assistance in handcuffing them and getting them to the lock-up.

Had Eczema In Both Legs

Remarkable cure of Chronic Eczema by use of DR. CHASE'S OINTMENT.

You could scarcely imagine a more severe test of this ointment than the cure of Mrs. Clark recorded here. For twenty years she suffered all the tortures of this terrible disease and tried in vain the prescriptions of doctors and the cures commonly recommended. Mr. Fred W. Clark, Petworth, Ont., writes:—"My mother had Eczema in both legs for about 20 years and suffered from the dreadful itching, stinging sensations which can never be described. She doctored and tried everything for it but got no relief until she used Dr. Chase's Ointment which was recommended to her by a friend. She found that this brought relief and by continuing its use has been cured of Eczema. I do not think any one could have this horrible disease any worse than she did and can recommend Dr. Chase's Ointment as a thorough cure for Eczema."

Dr. Chase's Ointment, 60 cents a box, at all dealers or Edmondson, Bafes & Toronto. Dr. Chase's Recipes sent

Dorothy Dodd

Are you one of the Ladies who has never tried on a Dorothy Dodd Shoe?

You really should do it at once just to appreciate your feet. Never will you realize the beauty that is possible, with entire comfort,

until you draw on the "Dorothy Dodd" Shoe.

IT IS AS EASY AS A GLOVE, yet it retains its shape. It costs nothing to see your feet in these Stylish Shoes. Let us show them to you at least. They are all Moderately Priced.

VICKERS' GIN

BY SPECIAL WARRANT OF APPOINTMENT TO H.M. THE KING

D. O. ROBLIN, Toronto Canadian Agent

J. JACKSON, St. John's, Resident Agent.

TO H.R.H. THE PRINCE OF WALES

Uncle Walt THE POET PHILOSOPHER.

My friend the preacher tells a tale about a man who lived in Uz. "The ill he knew would make you pale; misfortunes used to round him buzz," so says my friend the preacher man, who shudders as he goes ahead; "he had big boils upon his can, and all his cows and PATIENCE hogs were dead. The way he suffered was a sin, and off he wished he was on ice, and a bores came up to rub it in by handing him some good advice. You snort around and kick and wall when little things seem out of plumb, yet this man's patience didn't fall when all the world was on the bum. He sat round his ruined home, and put fresh flaxseed on his boils, or scraped them with a currcumb, or painted them with healing oils; he lay upon his humble couch and watched misfortunes come like rain; and yet he never was a grouch he didn't cuss things or complain. O man," my friend the preacher cries, "it makes me tired to hear you whine! It does, dot rot my blooming eyes, when all the world is gay and fine!" "That chap in Uz," I humbly say, "you think the most ill jay—he never used a fountain pen."

A Horne's Nest.

Editor Evening Telegram.

Sir.—The appointment by the Government of Mr. T. McGrath to the vacancy in the Registrar of Shipping Office has caused considerable comment in certain quarters, and has raised up such a hornet's nest around the Government that unless the obnoxious appointment is cancelled quickly they will be stung out of existence.

Apart from the injustice done old officials in the Civil Service, the disturbance of the denominational balance calls for prompt and immediate action. Where are the church representatives at the Council Board? Watson is afraid to open his mouth, and Blandford and Emerson appear to act like two dummies.

Yours truly, CHURCHMAN. St. John's, May 3rd, 1911.

GLENCOE'S TRIP.—The s.s. Glencoe, Capt. Spracklin, reached North Sydney at 2.30 p.m. yesterday, having made the run in 10 hours. There was no ice seen on the way. The ship left North Sydney at 11.30 last night and arrived at Port aux Basques at 9 this morning.

23 THE PRINCE OF WALES

McMurdo's Store News.

WEDNESDAY, May 3, '11.

At housecleaning time a good strong disinfectant and deodorant is essential, and those who use Cook's Cofectant will have nothing to complain of as regards the strength or effectiveness in use of this up to date article. Its demonstrated germ-killing power surpasses that of all similar preparations, and it will neither poison nor burn. For cleansing back yards, cellars, poultry houses, etc., etc., it is just the right thing and will do the work thoroughly and well. Price 35c.

Sutton's Flower Seeds are selling fast. Their reputation is growing every year. We are already slack on some varieties, and urge intending buyers to buy as soon as possible to avoid disappointment. Price 15c. pkg.—adv.

More Coronation Functions.

Two more Coronation functions have been decided upon by the Executive Committee. There are: June 23.—Foreign Office banquet to the King and Queen. June 30.—Presentation by the King of medals to the overseas troops in the grounds of Buckingham Palace. The representatives of the Parliaments of the overseas Dominions at the Coronation are to have the rare privilege of free transit, for themselves and their ladies, over all the railways in Great Britain. So far 58 members of the overseas Legislatures have been invited by the Lords and Commons' Committee, of which Lord Rosebery is chairman.

CAPE RACE, To-Day. Wind S. W., light with dense fog. Nothing heard passing to-day. Bar. 29.25, ther. 40.

In the Police Court.

To-day two drunks were discharged.

A disorderly was fined \$5 or 14 days, and another was fined \$10 or 30 days, and a third was fined \$10 or 30 days, and a similar sum for obstructing the police in the discharge of their duty, or a total of \$20 or 60 days.

A saloon keeper of central Water Street was summoned for selling a bottle of liquor to a blackster. He admitted the sale but swore he did not know the man, whom he took to be a sealer who had arrived from the feedstore. The case was dismissed, and in doing so His Honor Judge Knight gave the blackster a dressing-down. A case between two Outer Cove men for the wrongful placing of a cod trap was dismissed.

Kissing the King.

There is one rather dreadful quarter of an hour in store for the King at his Coronation. The Archbishop will kiss him. Yes—but wait! Then comes the Princes of the Blood Royal, and the representatives of the Peers, all of whom will kiss him. To be kissed by a lot of haphazard men is not a pleasant experience for the Englishman. If it were a choice of being King or refusing to be kissed by the Archbishop and the House of Lords, this writer would make the great refusal. And probably with the assent of the others. Kissing is most unpopular among English-speaking people. That is the official, the family kiss. There is another for which Latin gives the third name, and the lover's kiss endures. But only high potentates can be persuaded to exchange the official kiss (The Registrar-General is not to be kissed by the census enumerators). The British boy has quite given up being kissed by his sister and his aunt only by compulsion. In the general life we have eliminated the kiss of the officials and the kiss of the family, much to our content. But, of course, when a King is crowned we must "put him through it!"—London Chronicle.

Motor Boat to Cross Atlantic.

To Start From New York and to Call at Halifax.

Capt. John Weller, a seaman and boatbuilder, of Carlstadt, New Jersey, is to attempt to cross the Atlantic in a 50 feet raised cabin motor boat cruiser which he has been constructing for the past several months. The little vessel is 50 feet long, with a beam of 12 feet, and a draft of three feet. She is driven by a 37 h.p. gasoline engine, which is expected to give a steady speed of a little over ten miles an hour. The deck is perfectly clear, except for a 3-by-4 ft. pilot house rising 14 in. above it.

The trip will be started from New York about July 15, and the run will be along the coast to Boston, thence to Halifax, N.S., to St. John's, Nfld. The actual trip across the Atlantic starts from St. John's, the course being between the two trans-Atlantic routes from Quebec and New York, the contemplated landing being Galway Bay, Ireland. Capt. Weller expects to make the run of 1,677 miles from land to land in eight days. He will take a crew of six or seven men with him, and sufficient provisions for two months. The fuel tanks, installed in the bow and sides of the boat, will be filled with 1,500 gallons of gasoline, about twice as much as Captain Weller expects to use.—Popular Mechanic.

To Attract Hired Girl.

South Dakota Woman Offers Fine Job With Many Inducements.

Pierre, S. D., April 24.—The hired girl problem is a hard one to solve in this city and one attempt in that direction is the following advertisement in a local daily:

"Girl wanted.—The undersigned would like the services of a competent girl to work at Round House hotel, East Pierre. We have five children, all of whom have been taught to say yes, ma'am and no, ma'am. The girl is given the use of the parlour seven evenings per week for the purpose of entertaining her company, also use of piano when desired. I agree to do all the work that is offensive to the girl. "We have no grandmas, grandpas or mother-in-laws to annoy our help; my husband is a policeman and not at home very long at one time, but he agrees not to speak to the help. We pay good wages and are considered a respectable family by our neighbors. "Phone 611, or address Mrs. C. W. Rohrer, Round House Hotel."

LEFT WITH HERRING.—The American schooner Nicholson, so Mr. H. W. LeMessurier was advised to-day, left Bonne Bay yesterday for Bucksport, Me., with 700 bris. frozen herring and 50 barrels pickled. The vessel had been frozen in at Bonne Bay all winter and only got clear yesterday.
